## Front and Rear Seat Cover Sets

Distinctive Industries pioneered the aftermarket automotive replacement interior industry. Since then, Distinctive Industries has quietly become the world's leading provider of quality OEM interiors for 1960's, 1970's, and 1980's muscle car, special interest, and collectible vehicles. These factory reproduction interiors capture the essence of original manufacturing techniques, utilizing exact factory matching color, grain, and textured materials. Their products are continuously recognized for quality in craftsmanship. Their interiors are cut on state-of-the-art digital cutting machines, sewn to original specifications, and inspected by the most knowledgeable manufacturing staff in the industry. Often copied, but never equaled, Distinctive Industries is your one stop solution for all of your auto interior restoration needs.

## Center Console Kits

These consoles are replacement consoles for cars original equipped from the factory with center consoles. If you are adding a console to a non-console car, additional items will have to be purchased. For those of you who are converting to a center console floor shift car, a full listing of additional items need to complete this conversion is found online. Simply go to [www.Ecklers.com](http://www.Ecklers.com) and type the console number in the search box.

The ignition placement on your new ididit column will be lower than the factory position. This new position is (while looking at the steering wheel) roughly 5 o'clock with a slight angle toward the rear of the car. Placing the ignition slightly lower helps reduce key friction and from chipping or wearing away the paint on your column. Please make sure this placement will be satisfactory before purchasing your new column.

## Date Coded Spark Plug Wire Set

- Accurate Reproductions
- Correct date code (3-Q-63 is third quarter of 1963)

Since January 1961, GM has been date-coding spark plug wires to identify the year and quarter in which the wire set was produced. Reproduction spark plug wire sets are available for the 1st and 3rd quarter of a year. The set you select should precede your Chevelle's assembly date by 1 to 9 months.

## Hotchkis Tubular A-Arms

- Geometry-corrected design increases caster and improves camber curve
- 100% TIG welded construction

Our tubular A-arms are designed to adapt the use of taller GM spindles allowing for improved suspension geometry by creating a negative camber curve and increased caster.

| 64-72 | Lower <b>US</b> ..... | <b>50-302813<sup>A</sup></b> | <b>1119.99</b> set |

**NOTE:** Arms do not work with factory spindles. Spindles required are 70-76 GM F-body or 78+ GM G-body. Spindles will lower vehicle 3/4" and widen track width 3/8" per side. Please consult an Eckler's Chevelle representative with any specific questions regarding this conversion.

## Hotchkis Total Vehicle Suspension Systems

- 1" Lowered sport coil springs
- Heavy-duty tie rod sleeves
- 1-3/8" Front sway bar, 1-5/16" adjustable rear sway bar
- Adjustable rear trailing arm package
- Bushings and hardware included

Now you can make your classic handle like a late model muscle car. The TVS system includes sport coil springs, sport sway bars, heavy-duty tie rod sleeves and an adjustable rear suspension package.

## Detroit Speed Front Control Arms with Spindles

- Tubular upper and lower control arms
- DSE forged 2" drop spindles

Detroit Speed's spindles are 1-1/2" taller than the stock spindles and provides 2" of drop from stock height. The taller spindle height improves handling by modifying the camber curve resulting in a negative camber gain during suspension compression. Control arms have Delrin bushings, new ball joints, and a gloss black powder coat finish.

## Detroit Speed (DSE) Front Sway Bar Kits

- Necessary mounting hardware included
- Existing sway bar mounting holes need to be drilled and tapped up to 3/8" on 64-66 models

Extensive testing revealed dramatic improvement on cars with stock suspension and optimal improvement on cars fitted with other DSE components. The bar and arms are specifically designed for the Chevelle chassis for performance, fitment and clearance.

From 1964-72, Chevelles were equipped either without a sway bar or with an 11/16", 7/8" or with a 1" hi- performance F41 bar. Cars with the standard 7/8" bar that are upgraded with Helwig's sway bars will see 50% bigger bar with a whopping 500% increase in roll stiffness which translates into seat of the pants performance you can really feel. Helwig anti-sway bars are supplied with polyurethane mounting bushings so you get instantaneous sway bar reaction when you hit the corners.

## Big Brake Kits

- PBR C15 calipers have twin 52mm pistons and a larger brake pad surface
- Rear system uses 12", cross-drilled and slotted, zinc washed rotors which mount to the factory axle flange with the longer studs supplied
- Must be used with a minimum 17" wheel

The front system uses a 13" cross-drilled, gas slotted and zinc washed rotor mounted to a 2024 T6 billet aluminum CNC machined anodized hub and a PBR C15 caliper that attaches to the spindle with a custom caliper mounting brackets. PBR C15 calipers have twin 52mm pistons. This kit includes all the bearings, seals, dust caps, brackets, cables, hoses, clips, instructions and necessary hardware to assure a hassle-free installation.

## EFI Converted Gas Tanks

• Installs in place of original tank

Converting to fuel injection? These ready to install gas tanks utilize a factory style stamped gas tank and electric fuel pump that produces 85-115 PSI at 50-60 gallons per hour. All you have to do is install it in the place of your original, run 12-volts and fuel lines and your fuel system is ready.

No guess work, no more headaches.

## POR-15® Gas Tank Repair Kit

- Ideal for saving metal tanks with minor leaks

The POR-15 gas tank repair kit goes to root of leaks and bonds to the metal whereas other products simply cover the leak. Kit includes TankClean™ to remove gum, sludge and varnish, Metal Ready™ to remove rust and prepare the tank for sealer; US standard Tank Sealer™ to permanently seal the tank and Fuel Preservative and Stabilizer to keep fuel fresh and fuel systems trouble-free. Tank must be removed from the car to perform the repair. Cannot ship by air.

\*NOTE: 1964-66 steering columns without tilt had two possible turn signal switch styles. To tell what style switch you have, you must pull it and visually inspect it. If your switch is mostly all plastic, it was made by Guide and uses replacement 50-203635. If your switch is plastic with a die-cast metal lower, it was made by Boyne stamped BPC and uses a 50-203634 as a replacement. Please make sure you inspect your switch for correctness before ordering as these switches are not interchangeable.

**NOTE 1:** Most 1967 A/C equipped cars used a separate harness for air conditioning. However, the factory does list these harnesses as original equipment and they incorporate the A/C wiring in the engine harness as per 1966 design. When ordering, please specify which A/C design is in the car so that the correct harness can be provided.

**NOTE 2:** In some cases these harnesses could have been factory equipped with an idle control solenoid lead wire. This wire will not be built into these harnesses unless specifically requested.

## Dash Harnesses

- Main under-dash harnesses with fuse panels
- Made to order, please allow 2-4 weeks for delivery

## Classic Update Wiring Harness Kits

- Provides new wiring harness for entire car and updates for modern accessories
- Includes original style sockets, connectors and pigtails

Replacing the wiring harness in any classic car is a good idea from a safety and reliability standpoint. Replacing it with a wiring harness that easily allows you to plug in modern conveniences is money well spent! It also provides power feeds for upgraded heater and air conditioning systems, as well as feeds for power windows, seats, wiper systems, internally regulated alternators, HEI ignitions and electric fans. It allows you to completely wire your car from front to back.

### Lowest Price Guarantee

Eckler's Guarantee is simple: You always get the best quality parts at the lowest price! Show us the identical item advertised in any current magazine, catalog, or website and we'll match our competitor's current price, guaranteed! This offer is available only at the time of purchase and applies to in-stock merchandise only. We can't combine this with any other offer. Tires, restoration services, kits, window glass, cores, reproduction batteries, certain engines, transmissions, used parts, special order parts, and shipping and handling charges are excluded.

### Find the Latest Prices on our Website

Prices in this catalog were correct at the time of printing but are subject to change. Visit **Ecklers.com** for the latest up-to-the-minute pricing as well as hundreds of items not appearing in this catalog. Eckler's is not responsible for pricing changes, errors, or omissions in this catalog or online. Prices are subject to change without notice.

### 100% Satisfaction Guaranteed

Our commitment to you: If for any reason you are not 100% satisfied with any of our products, return them for a full refund, credit or exchange—your choice.

### Best Parts, Best Price

This is not just a slogan! Eckler's is committed to providing the highest quality parts at the most competitive prices. We source and select all of our parts exclusively from the world's leading brand name manufacturers using our massive buying power. This means you get the best there is, at the best prices in the market today.

### Shipping and Handling

Check **Ecklers.com** for current shipping and handling estimates. In the catalog, denotes items that ship via truck, and denotes oversized dimensions or weight, which incur additional charges.

### Gift Certificates

Perfect for when you just can't decide. Available in many different amounts from \$25 right up through \$1,000. Redeemable for any items we sell.

### Need it Fast?

Have your order delivered within 1 or 2 business days by using Express Shipping! Express Shipping is limited to in-stock, non-oversized items weighing less than 20 pounds. Orders must be placed Monday–Friday before 1:00 p.m. EST. Please contact our sales team for rates.

### Same-Day Processing

Standard U.S. order processing time for in-stock items is 24 hours. If you need your order processed the same day, call us Monday–Friday before 1:00 p.m. EST and request same-day processing. For a small charge we'll provide special processing of all in-stock parts the same day.

### Limited Warranty

Eckler's will not be responsible for any damage or loss caused by delays, failures, consequential damage, labor, transportation, or any other charges incurred in the replacement or repair of a defective item. Eckler's is not responsible for any consequences resulting from the installation of any parts.
