Made Right, Fits Right & Last Longer

All of the parts in this catalog, with the exception of new old stock Ford parts, are reproduction or equivalent replacement type parts of Ford Motor Company parts and are represented or referenced by original Ford part numbers.

Reproduction Ford parts made from obsolete Ford tooling that are licensed by but not manufactured by Ford are identified as Classic Parts From Original Tooling.

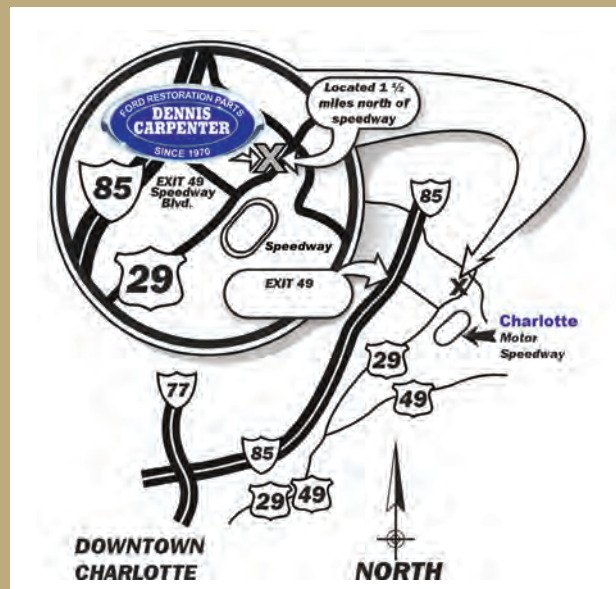

A reproduction part that duplicates a Ford licensed by but not manufactured by Ford is identified as an Official Licensed Product.

CARPENTER SHOWROOM

Be sure to visit our retail showroom in Concord, North Carolina, where you can purchase parts or browse our parts displays. We are located just 1 1/2 miles north of the Charlotte Motor Speedway.

Showroom Hours: **Mon. - Fri. 8am - 5 pm • Sat 9am - 12 noon (EST)**

We attempt to maintain prices as published in the catalog. Due to the fact that we purchase materials from many manufacturers, we are not able to control all product costs. If the supplier goes up, we must raise our prices accordingly. As a result, our prices do change periodically and without notice. Please feel free to contact us for confirmation on current prices.

Errors in typographical content, pricing and imagery are subject to correction and may change without notice. C.I. will not be held liable or responsible if any inaccuracy exists in specifications or pricing. Applications listed in this catalog are based on original factory information. However, variances, will occur due to non-documented substitutions and changes made during the vehicles production.

This catalog supersedes all previous editions, including prices. All rights reserved. No part of this publication may be copied, reproduced, stored in any retrieval system, communicated or transmitted in any form by any means without prior approval.

Carpenter Industries Inc.

Dennis Carpenter Ford Restorations is a manufacturer and retailer of restoration Ford Parts and Accessories. With Dennis Carpenter you can be sure you're getting a part that is made right, fits right and lasts longer at a great price.

Celebrating 47 Years

A look at how
Dennis Carpenter
Ford Restoration Parts
has grown over
the years.

1969

Dennis starts restoration on his 1940 Ford convertible, realizes the need for plastic knobs and convinces an antique car friend into developing tooling for making them. In this photo, Dennis' son Daniel stands beside his dad's disassembled Ford.

1970

Dennis takes extra dash knobs that he made to the Hershey AACA car show and sells out. Realizing that he is able to support his hobby, he continues to develop all dash knobs for 1932-48 Fords.

FIRST BUILDING

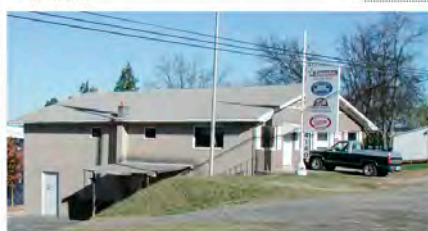

Purchased in 1973, it still stands today.

1971

Dennis takes out a 2nd mortgage on his house and buys a bigger injection molding machine for making better quality knobs in larger quantities. He moves his part time business from home into a rented vacant railroad depot.

1972

Dennis realizes that the weatherstripping and seals he purchased for his 1940 had hardened, cracked, and needed replacement after 6 months. He is determined to make premium quality weatherstripping for his 1940. Due to minimum production requirements, he starts selling the extras.

1973

Sales of his quality dash knobs and seals takes off, so he quits his full time job as a purchaser at a local textile plant. He buys a 5,000 sq. ft. building on Hwy 29 in Concord, NC. which is still located in the front of the business today. A late night train derailment forces a rush move into the building.

1974

Dennis purchases 25 acres of land behind his business for \$75,000.

1976

Dennis builds a 10,000 sq. ft. building next to the first one and remembers thinking that he was set for life as far as buildings go. Little did he know that it would eventually grow to be over 300,000 sq. ft.

1977

Dennis purchases two used stamping presses for making stamped metal parts and a used die casting machine for making emblems.

1978

Dennis hires his first tool and die man for making tooling for more new parts. He also purchases his first new Bridgeport milling machine.

1979

Growth of the company continues, and he builds a 25,000 sq. ft. warehouse and showroom that are still in use today.

1987

Because of inconsistent size and hardness of rubber from outside suppliers, Dennis decides to develop his own rubber extruding operation from a desire to offer the very best quality weatherstripping and seals.

Daniel Carpenter and Dennis Carpenter

“Our company’s success is attributed to providing our customers with what they want- **quality products.**”

-DENNIS CARPENTER

**2010**

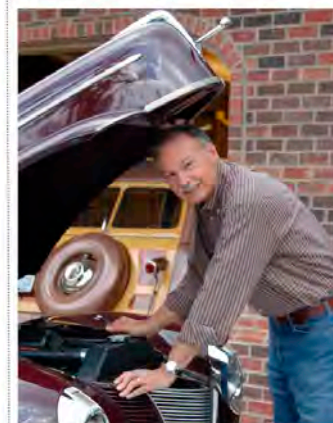

Edsel Ford II arrives at Carpenter Industries to tour the facilities.

2011

We transition to a new software and computer system after being on an old unix based system since 1991.

2013

We launch our all new user friendly web store and introduce flat rate shipping to better serve our customers.

Dennis still works at the business everyday and enjoys every bit of it. Also, those knobs and weatherstripping he put on his 1940 convertible back in the 1970s are still good to this day.

1990

Dennis buys more plastic injection machines and develops more plastic parts. He also starts making Cushman Motor Scooter parts in an effort to keep his employees busy in a bad economy.

**3001****1993**

Ford Motor Company works with Dennis to become the first official Ford licensee for products made with the Ford name or logo on them.

**1994**

Dennis (the original American picker) fulfills a dream in building a museum to house his long time collection of Fords, Ford memorabilia, Cushman scooters, tractors, and Americana.

1998

Ford Motor Company works with Dennis and his son Daniel on a pilot program to start using the original Ford tooling for parts they were no longer selling.

**0001****2000**

The Original Ford Tooling program becomes official. We buy bigger machines and build more buildings to take in these large tools and run them. We continue to count it a privilege to have Ford's trust and now have hundreds of original Ford tools in use. Ford traditionally scraps tools they are finished with. We are honored to save these tools from scrap for continued use, so we can make products for all the restorers out there that need them.

2003

Our biggest warehouse is built with 48,000 sq. ft. of high stack storage.

**2005**

Daniel Carpenter purchases the company from Dennis on a payment plan. Dennis is now able to focus on his core strength of developing new products and working with the tool makers.

2009

The economic downturn forces us to cut back and examine our ways but not one of our employees is laid off during the whole downturn. We are able to purchase some much needed equipment such as a digitizer and CNC machines at bargain prices from companies that were going out of business during this time.

Restore YOUR FORD

FORD RESTORATION PARTS
**DENNIS
CARPENTER**

SINCE 1970

www.dennis-carpenter.com

Daniel Carpenter and
company founder Dennis Carpenter

We are honored and very thankful to Ford for allowing us to save many of the original Ford factory tools from the scrap pile. With these original factory tools we are able to continue serving restorers like you with quality parts that have the original factory fit and finish and are made in the USA.

In 1998 we started bringing these original tools to our facility. We soon realized that we needed to buy bigger presses to run these large tools and needed to build more buildings to house everything. For example, in 2002 we learned that Ford's supplier that had made their hub caps since the 1950's was going out of business. We purchased six of the

original presses from their production line, so that we could continue making hub caps from the original Ford tooling. With the future in mind, we continue bringing in more original tools that Ford has quit using for 1970-1990's pickup truck parts.

When you see the above symbol on a part, rest assured that it will have the factory fit and finish and it was proudly made in the USA.

We appreciate your business!

Daniel and Dennis Carpenter

1957 Ford Car Hub Caps

1973-79 F-100 Interior Door Panels

Bronco and F-100 Tailgates

Welding original Ford tooling 1966-77 Bronco tailgates.

Thousands of original Ford tools are stored in several warehouses at the Carpenter facility.

This press is fitted with a 3-stage progressive stamping die that makes 1977-79 F-100 race-track moldings.

* Headline derived from the fact that all leased Ford tooling remains in the USA.

95% of our rubber parts are made in the U.S.A.

door / trunk weatherstripping, windshield / rear window seals, grommets and more

Daniel Carpenter
and company founder Dennis Carpenter

During the restoration of our 1940 Ford in the early 1970's, my dad found that all of the weather-strips and rubber seals available on the market were imported and made of poor quality rubber that would crack or split within six months. Because he planned to keep the 1940 Ford, he was determined to make a quality product for restorers who desired long lasting quality and good fit. As a testament, we still have the 1940 convertible with the same rubber parts on it that we made and installed in the 1970's, and they are still soft and pliable. Demand for quality products was strong and the business continued to grow. In 1988 we started our own rubber extruding operation. Today we have 54 rubber molding machines and over 160 employees at the Carpenter facility in Concord, NC.

Sometimes products made in the USA cost a little more than those made overseas. Although some products in our market with a lower price might seem to have an advantage, it is hard to know what ingredients go into rubber products that are made thousands of miles away, where low cost is the main objective. At Dennis Carpenter's, beginning with superior ingredients is our secret to making long lasting, great sealing weatherstripping and rubber products.

I am proud that we make quality rubber products in the USA and I'm honored to carry on the business my dad started.

We appreciate your business!

Daniel and Dennis Carpenter

Windshield Seals

Vent Window
and
Door Seals

Rear Window Seals

Rubber injection presses are used at Carpenters to make vent window seals and other molded rubber parts.

Our rubber extrusion machine extends 92' and is capable of producing 25,000' of weatherstripping daily.

The rubber molding department is responsible for final assembly of window, door and trunk seals

**Headline percentage is based on total sales of products made from Dennis Carpenter tooling and original Ford tooling.*

**Also fits Mercury*

TILT FLOOR SHIFT

Ididit Universal Tilt Series columns are by far our most popular steering columns and are an industry standard.

PART #	DESCRIPTION	TYPE	YEAR	PRICE
UT30-3509-FP	• Paintable Steel • 2" Tube Diameter • 1" DD Lower Shaft • 3 7/8" GM Style Wiring Plug	30" Overall Length	48-56	399.95 ea.

Features Include:

- 8 position tilt
- 4 Way Flashers
- Horn Wiring
- Standard Dress Up Kit
- Self Cancelling Turn Signal

FLOOR MOUNTS ARE ESSENTIAL FOR PROPER STEERING COLUMN INSTALLATION.

SWIVEL BALL FLOOR MOUNT

PART #	DESCRIPTION	PRICE
FFM-3513-SW	For 2" Tube - Floor Shift	134.95 ea.
CFM-3513-SW	For 2 1/4" Tube - Column Shift	134.95 ea.

The ididit swivel ball floor mount allows you to precisely position your steering column right where you want it. You can move it up, down, side to side and everything in between. A trim ring for the engine compartment side is included along with all the necessary hardware for installation. Available in polished aluminum. For aftermarket columns only.

POLISHED ALUMINUM

ADJUSTABLE FLOOR MOUNT

PART #	Pic	DESCRIPTION	YEAR	PRICE
FFM-3513-AJ	A	For 2" Tube - Floor Shift	48-56	32.95 ea.
CFM-3513-AJ		For 2 1/4" Tube - Column Shift	48-56	32.95 ea.

A

This inexpensive steel floor mount will safely secure your column at the floor board or firewall and can adjust to fit most angles, up or down.

TILT COLUMN SHIFT

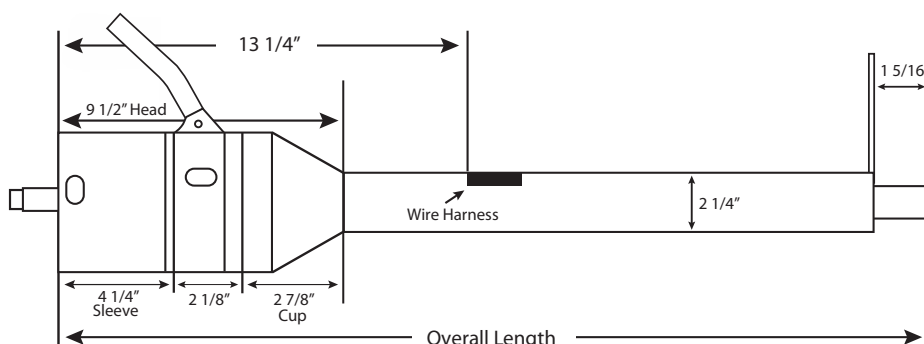

The ididit Universal Tilt Column Shift column was the first on the market to feature a removable, indexable lower shift arm. With 12 possible positions, adjustability is just a turn of a wrench away! Will work with Ford, GM & Chrysler 3 or 4 speed automatic transmissions.

PART #	DESCRIPTION	TYPE	PRICE
UT30-3509-CP	• Paintable Steel • 2 1/4" Tube Diameter • 1" DD Lower Shaft • 3 7/8" GM Style Wiring Plug	30" Overall Length	614.95 ea.

Features Includes:

- 8 position tile
- Horn Wiring
- 4-way Flashers
- Standard Dress Up Kit
- Self Cancelling Turn Signals
- Indexable Lower Shift Arm
- 12 possibel positions

- Please Note: This column does NOT come with a neutral safety switch. If you have a transmission mounted switch, a neutral safety switch on the column is not needed.

PLASTIC INJECTION

RUBBER MOLDING

Made Right, Fits Right, Lasts Longer

Dennis Carpenter has been extruding, bonding, and molding rubber compounds into precision made Ford weather stripping products, in the USA, for nearly 50 years. The 100' long rubber extruding machine, shown on the right, makes the sponge rubber we use to make our Ford door seals.

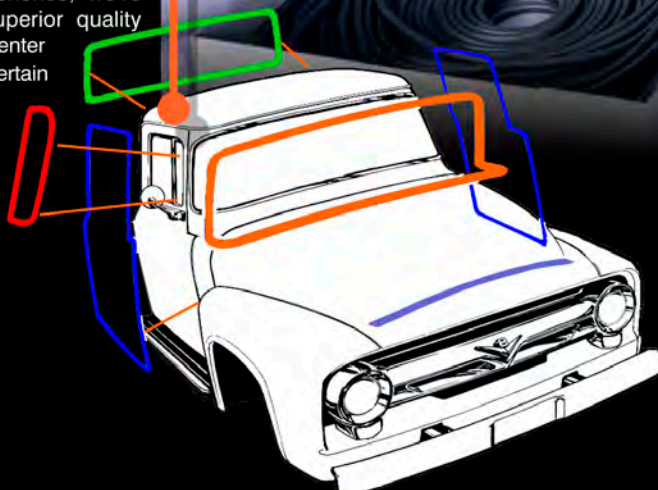

After many years of manufacturing experience at Dennis Carpenter's, our number one priority remains a commitment to producing top quality Ford restoration parts.

With almost a half century of manufacturing experience, we're confident of the superior quality found in Dennis Carpenter products and we're certain you will too.

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

Ford Weather Stripping Made In USA

FORD FLATHEAD CYLINDER HEADS

Original Edelbrock Design

Part #	8BA-6050-1115
Type	Finned Type
Note	24 Stud
Fits	Ford / Mercury
Year	1949-53
Price	734.95 pr.

- Rugged, ribbed internally and externally, with a large water capacity and excellent breathing characteristics.
- Cast at the Edelbrock Foundry in the USA of T-6 tempered A356 aluminum.
- 8.0:1 compression ratio on blocks with a 3/16" base relief (stock bore and stroke)
- Compression ratio increase is approximately 3/10 of a percent with each 1/8" stroke.

HIGH LIFT / LARGE CHAMBER FORD FLATHEADS

Part #	8BA-6050-1116
Type	Finned Type
Note	24 Stud
Fits	Ford / Mercury
Year	Late Model 1949-53
Price	734.95 pr.

- Supports high lift cams & is perfect for reducing compression in supercharger applications or on low octane fuel
- Features new "raised roof" combustion chamber design that is CNC machined from our popular #1115 Flathead casting
- Increased valve clearance and increased flow for more power

TRIPLE DEUCE MANIFOLD

Part #	8BA-6520-1109
Year	1949-53
Price	329.95 ea.

- These reproductions of the vintage Edelbrock manifold #SU 359 and #SU 349 allow the use of three 2-barrel carburetors on 1938-48 and 1949-53 Ford Flathead engines.
- #1109 features front road draft and 1 3/8" diameter oil fill bosses, and a raised fuel pump boss.

These features make our 1937-48 V8 flathead water pumps better.

New Pump Housing

Our pump housings are new castings (not rebuilds) guaranteeing that there are no coolant-leaking stress cracks. Each housing's mounting surface is machined straight & true ensuring water-tight sealing when mounted to your flathead.

Double Row Sealed Ball Bearings

Original water pump impeller shafts relied on bronze bushings as bearings & were prone to premature wear. Our new pump shafts spin on double row ball bearings which extends pump life & decreases frictional heat.

Ceramic Seals

We've applied the advantages of modern technology to our pumps by introducing ceramic composition seals to the impeller shafts. Ceramic type seals are used in modern day water pumps & have a greater resistance to wear which significantly reduces the possibility of leakage & prolongs the life of the pumps.

Helical Impellers

We've introduced the efficiency of helical impeller blades to our 1937-38 water pumps. The angled arrangement of the impeller blades allows the coolant to flow faster through the radiator system at lower rpms. This results in a cooler running engine when operating at idle speed.

Original impeller design typically creates inadequate coolant flow rate

Helical impeller design increases coolant flow rate

WATER PUMP

Includes plug & gasket
1933-36

Quality & Performance Assured

#94 CARBURETORS

PART #	PIC	DESCRIPTION	PICKUP	CAR	PRICE
*59A-9510-N	A	Carburetor - New #94 - V8 - Except for 60HP - replacement type - comes w/ mounting gasket	38-47	38-48	324.95 ea.
52-9510-N		Carburetor - New #81 - 60 HP - V8	37-40	37-40	324.95 ea.

*There are two styles of air cleaners, one for trucks and one for cars. Your truck may have a car style Air Cleaner. Check your vehicle before ordering.

Features of our NEW 2-Barrel Carburetors

- Choke, foot throttle and hand throttle linkages are made to original specifications for quicker and easier installation.
- Proper power valves and jet settings (#50 metering jet) to deliver reliable performance for Ford flathead V8s (engines within 85-110 h.p. range)
- Zinc Chromate exterior coating for superior resistance to corrosion. The golden coloration replicates the finish of original Ford carburetors.
- 3 hole cast iron mounting flange with gasket

Every Carburetor is Assembled, Tested* & Calibrated at Dennis Carpenter Ford Restorations.

*Testing includes Carburetors run under simulated load for over 10 minutes.

1949-53 FLATHEAD PARTS

CARBURETOR w/ new top & body
- for Flathead V8 Fords (Includes Mounting Gasket)

*Late model performance
for your early car!*

For vehicles with later model engines.

*There are two styles of air cleaners, one for trucks and one for cars. Your truck may have a car style Air Cleaner. Check your vehicle before ordering.

What does it mean?
*In short, it means Ford parts
made EXACTLY like originals*

ORIGINAL TOOLING describes the stamping dies, injection molds, roller dies and other tools of mass production that the Ford Motor Company used to manufacture the parts necessary to assemble their cars and trucks. (See ORIGINAL TOOLING below.)

0001

FORD Logo - A most important logo assuring customers of the true origin and authenticity of the classic parts produced from this program. They're also the company responsible for making the tooling in the first place.

0 0 0 1 - These numbers identify Dennis Carpenter Ford Restorations as the first member of a select group to manufacture parts off original tooling, parts which comply with quality standards established by Dennis Carpenter and the Ford Motor Company. What this means is that we've dusted off certain tooling and started using them again, continuing to make quality parts as good or better than the Ford originals.

ORIGINAL TOOLING in Action!

On the right is half of a 1966 Galaxie hub cap forming die mounted in a press. The first stamping operation of making the hub cap is shown below. Each cap proceeds through 9 different stamping operations before completion.

1966 FORD GALAXIE 15" HUB CAPS

Our stamped stainless steel hubcaps are shaped and chrome plated EXACTLY Like the Ford Originals and are available with red or rose colored center caps. Red center cap #C6AZ-1130-G Rose center cap #C6AZ-1130-A

METAL FORMING

PLASTIC INJECTION

RUBBER MOLDING

Made Right, Fits Right, Lasts Longer

Dennis Carpenter has been extruding, bonding, and molding rubber compounds into precision made Ford weather stripping products, in the USA, for nearly 50 years. The 100' long rubber extruding machine, shown on the right, makes the sponge rubber we use to make our Ford door seals.

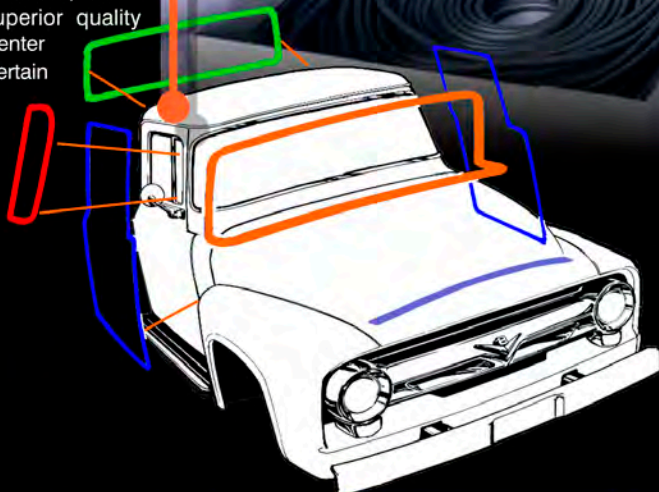

After many years of manufacturing experience at Dennis Carpenter's, our number one priority remains a commitment to producing top quality Ford restoration parts.

With almost a half century of manufacturing experience, we're confident of the superior quality found in Dennis Carpenter products and we're certain you will too.

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

METAL FORMING

PLASTIC INJECTION

RUBBER MOLDING

Made of Plastic

In 1970 Dennis Carpenter made his first plastic parts, 1940 Ford dash knobs. Today the company uses 12 plastic injection machines ranging from 75 to 500 ton capacities making grilles to taillights and many parts in between. We use the best automotive grade materials enriched with UV stabilizers and impact modifiers to make parts with greater resistance to color-fading and increased durability.

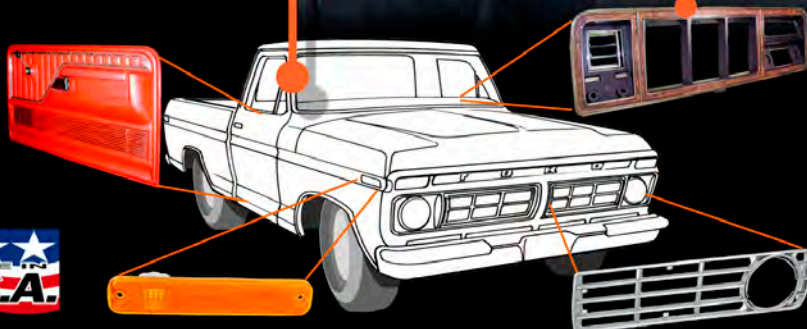

We feel that our long time experience in manufacturing is reflected in the superior quality of our products.

Use Dennis Carpenter parts on **YOUR** classic Ford truck.

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

Plastic Ford Parts Made In USA

Dennis Carpenter Makes Many Other Plastic Parts That Include:

**EMBLEMS / DASH KNOBS
F-100 STEERING WHEELS
PARK & TAILLIGHT LENSES
DECORATIVE MOLDINGS**

**FORD CARS 1932-72
FORD TRUCKS 1932-96
FORD BRONCOS 1966-96**

**ORDER ONLINE 24 / 7
EASY & SECURE**

**OVER 50,000

Preserving **FORD** History

For Future Generations

Created in 1992, the Early Ford V-8 Foundation is a 501 (c)(3) non-profit, educational organization dedicated to "Preserving 1932-1953 Early Ford V-8 History." This includes all related materials produced by the Ford Motor Company during this period, including cars and trucks. Land has been purchased in Auburn, Indiana, and an 8,000 square foot Phase 1 of our complex has been constructed. We are now raising funds to expand the facility to over 27,000 square feet. Construction began in Spring 2017. Funds for the V-8 Museum come from membership dues and donations from individuals and organizations who realize preserving this period of automotive history is important. As a non-profit corporation, the V-8 Museum can offer tax benefits for donations. Annual dues are \$25 or 3 years for \$60. Membership includes an informative bi-monthly newsletter and free admission to the Museum.

Our on-going "Buy the Foot" Campaign was created to raise funds for the expansion and maintenance of the facility. For \$150 per square foot, a certificate will be issued and your name will be added to a large plaque in the Museum. Purchase of a minimum of nine square feet gets you a custom, pewter license plate topper. Individuals, car clubs, companies and other organizations are encouraged to donate to this campaign and help the Early Ford V-8 Foundation Museum continue its mission of "Preserving Ford History" for future generations.

The future looks bright for the expansion of the Early Ford V-8 Museum. This proposal shows the Ford Rotunda inspired facade.

MEMBERSHIP APPLICATION:

U.S. & Canada ☐ \$25 Annual ☐ \$60 Three Years ☐ \$40 Foreign ☐ \$625 Life

100% of our original Ford Tooling parts are made in the U.S.A.

steering wheels, hub caps, fenders, grilles, door panels, side moldings and more

Daniel Carpenter and company founder Dennis Carpenter

We are honored and very thankful to Ford for allowing us to save many of the original Ford factory tools from the scrap pile. With these original factory tools we are able to continue serving restorers like you with quality parts that have the original factory fit and finish and are made in the USA.

In 1998 we started bringing these original tools to our facility. We soon realized that we needed to buy bigger presses to run these large tools and needed to build more buildings to house everything. For example, in 2002 we learned that Ford's supplier that had made their hub caps since the 1950's was going out of business. We purchased six of the

original presses from their production line, so that we could continue making hub caps from the original Ford tooling. With the future in mind, we continue bringing in more original tools that Ford has quit using for 1970-1990's pickup truck parts.

When you see the above symbol on a part, rest assured that it will have the factory fit and finish and it was proudly made in the USA.

We appreciate your business!

Daniel and Dennis Carpenter

1957 Ford Car Hub Caps

1973-79 F-100 Interior Door Panels

Bronco and F-100 Tailgates

Welding original Ford tooling 1966-77 Bronco tailgates.

Thousands of original Ford tools are stored in several warehouses at the Carpenter facility.

This press is fitted with a 3-stage progressive stamping die that makes 1977-79 F-100 race-track moldings.

* Headline derived from the fact that all leased Ford tooling remains in the USA.

Seat Belt MOUNTING BRACKET

Safety First! Seat belt anchor kits are ideal for reinforcing your mount for all seat belts. Belt anchors reduce the chance of the belt bolt tearing through the floor when the belt is under load. Rounded corners ensure that your belt will not tear from impact or normal use. Ideal for all applications. Hardware included.

**PRO TECH TIP:**

In 1935-36 there were (2) types of doors - Front OR Center mounted handle. This means the inside door handle was either mounted in the center (11 1/4" from front of door edge) or front of the door (7 1/4" from front of door edge). Please read descriptions carefully to make sure you order the correct kit.

A

In 1935-36 there were (2) types of doors - Front OR Center mounted handle. This means the inside door handle was either mounted in the center (11 1/4" from front of door edge) or front of the door (7 1/4" from front of door edge). Please read descriptions carefully to make sure you order the correct kit.

METAL FORMING

PLASTIC INJECTION

RUBBER MOLDING

Made Right, Fits Right, Lasts Longer

Dennis Carpenter has been extruding, bonding, and molding rubber compounds into precision made Ford weather stripping products, in the USA, for nearly 50 years. The 100' long rubber extruding machine, shown on the right, makes the sponge rubber we use to make our Ford door seals.

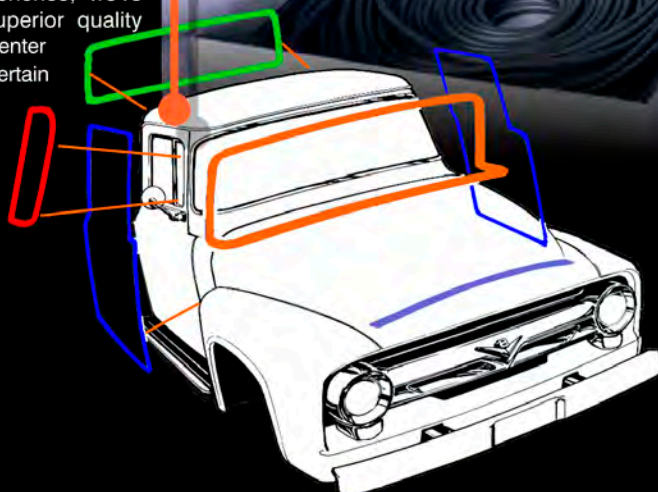

After many years of manufacturing experience at Dennis Carpenter's, our number one priority remains a commitment to producing top quality Ford restoration parts.

With almost a half century of manufacturing experience, we're confident of the superior quality found in Dennis Carpenter products and we're certain you will too.

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

**What does it mean?
In short, it means Ford parts
made EXACTLY like originals**

ORIGINAL TOOLING describes the stamping dies, injection molds, roller dies and other tools of mass production that the Ford Motor Company used to manufacture the parts necessary to assemble their cars and trucks. (See ORIGINAL TOOLING below.)

0001

FORD Logo - A most important logo assuring customers of the true origin and authenticity of the classic parts produced from this program. They're also the company responsible for making the tooling in the first place.

0 0 0 1 - These numbers identify Dennis Carpenter Ford Restorations as the first member of a select group to manufacture parts off original tooling, parts which comply with quality standards established by Dennis Carpenter and the Ford Motor Company. What this means is that we've dusted off certain tooling and started using them again, continuing to make quality parts as good or better than the Ford originals.

ORIGINAL TOOLING in Action!

On the right is half of a 1966 Galaxie hub cap forming die mounted in a press. The first stamping operation of making the hub cap is shown below. Each cap proceeds through 9 different stamping operations before completion.

MADE ON
The ORIGINAL Ford Dies

1966 FORD GALAXIE 15" HUB CAPS

Our stamped stainless steel hubcaps are shaped and chrome plated EXACTLY Like the Ford Originals and are available with red or rose colored center caps.

Red center cap #C6AZ-1130-G Rose center cap #C6AZ-1130-A

FLAT RATE SHIPPING

ON ALL DOMESTIC GROUND ORDERS*

*RESTRICTIONS APPLY. SEE ADDITIONAL DETAILS BELOW

\$99 or LESS get \$9.99 SHIPPING
\$100 or MORE get \$14.99 SHIPPING

Must ship by "ground" service within the contiguous US. This excludes Alaska, Hawaii, and Puerto Rico. Normal carrier rates apply.

Domestic Air and International service is not included. Normal carrier rates apply. Even though an order requires multiple packages or if any of the packages are oversized, bulky, and/or heavy, the shipping is still \$14.99 excluding items that require "Freight Truck Shipping". Any "domestic ground" order with a total parts value under \$100.00 will be charged a \$9.99 minimum shipping rate. These rates include insurance and handling.

Items such as hoods, bedsides, 12' bedstrips, doors, fenders, quarter panels require freight truck shipping. Items that require freight truck shipping are noted in catalog. If items requiring freight truck shipping are ordered with flat rate items, all items will be included for the same freight truck rate. See right for more details.

Preferred Carriers

Our preferred carriers are FedEx, UPS, and USPS for all parcel shipments. No other carriers are used. No exceptions.

FedEx

Special Handling:

Retail orders requiring special handling other than flat rate ground shipping will be estimated as shown below: The prices are estimates only. Actual shipping charges will apply.

Air Shipments

	Sm. Pkg.	Med. Pkg.	Lg. Pkg.
Next Day Air:	\$40.00	\$100.00	\$200.00
Sec. Day Air:	\$30.00	\$75.00	\$170.00

Freight Truck Shipment

	Shipping Fee	Crating Fee if applicable
Residential Address	\$250.00	\$75.00
Commercial Address	\$250.00**	\$75.00

**\$50 Lift Gate Fees are included in estimates above. If you have a dock or fork lift this fee will be waived.

Freight Truck Shipping fees above are estimates only. Actual freight shipping charges will be applied when the order is shipped and invoiced. Items that require a freight truck cannot be included with flat rate shipping.

International Shipments All Except Canada

When calculating shipping for international orders, please use 50% of the order total parts value or \$50.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. International orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Canadian Shipments

When calculating shipping for Canadian orders, please use 20% of the order total parts value or \$25.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. Canadian orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Merchandise Returns:

- 1 All sales are considered final with the exception of warranty claims and merchandise shipped in error.
- 2 All returned merchandise must be in original packaging and is subject to inspection and approval prior to credit or exchange. Must be in new sale condition as determined by Carpenter Industries.

It is the customer's responsibility to check parts for correct fit BEFORE installation.

Any part that has been installed, disassembled, drilled, welded, cut, painted, or modified in any way, or is missing kit components is NOT eligible for return.

Electrical items that have NOT been installed and/or plugged in are eligible for return.

Electrical items that are authorized for return are still subject to inspection and approval prior to credit and/or exchange.

No returns accepted on any literature.

Any installation, disassembly or modification by a third party on the behalf of customer does not constitute an exception to our policy. Purchaser retains full responsibility for the condition of the part.

- 3 Returns within 30 days of invoice date are acceptable, any returns received after 30 days are subject to a 20% restocking fee. Returns after 180 days are subject to a 50% restocking fee.
- 4 **Absolutely NO returns accepted after one year from date of purchase. No exceptions.**
- 5 ALL RETURNS MUST HAVE A RETURN AUTHORIZATION RA NUMBER. Please call 1-800-476-9653, option 2, to obtain an RA number. Please have your purchase invoice number available when calling. C.I. is NOT responsible for unauthorized returns.
- 6 All returns must be shipped "pre-paid" and fully insured. COD or collect returns will not be accepted. In cases where a return is due to our error, "pre-paid" shipping charges will be refunded.
- 7 Refunds will be issued based upon the method of payment. i.e. cash for cash purchases, credit on a credit card for credit card purchases, etc.. On returns due to our error, your shipping expense will be reimbursed based only upon carriers charges.
- 8 All returns should be sent to: Carpenter Industries, Inc.
4140 Concord Parkway S
Concord NC 28027

Claims:

All claims must be taken up with Dennis Carpenter Restorations.

Please inspect all orders for damage and/or errors immediately upon receipt. Report all discrepancies to Carpenter Industries at 1-800-476-9653, option 2, within 7 days of receipt. No claims accepted after 7 days.

Please hold all original boxes and packaging materials for the carrier to inspect.

Warranty

We guarantee to replace or at our option, repair any product or parts which are found to be defective in material or workmanship within one year from the date of shipment. Our obligation with respect to such products or parts shall be limited to replacement or repair and in no event shall we be liable for consequential or special damages, or for transportation, installation, adjustment, or other expenses which may arise in connection with such products or parts. THIS WARRANTY EXPRESSLY MADE IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS.
