

1952-59 FORD CAR

2017
Sheet Metal, Tailight Lenses, Die Cast Emblems, Weather Stripping & more!

HIGHER QUALITY • LOWER PRICES

**Made Right,
Fits Right & Last Longer**

All of the parts in this catalog, with the exception of new old stock Ford parts, are reproduction or equivalent replacement type parts of Ford Motor Company parts and are represented or referenced by original Ford part numbers.

Reproduction Ford parts made from obsolete Ford tooling that are

licensed by but not manufactured by Ford are identified as Classic Parts From Original Tooling.

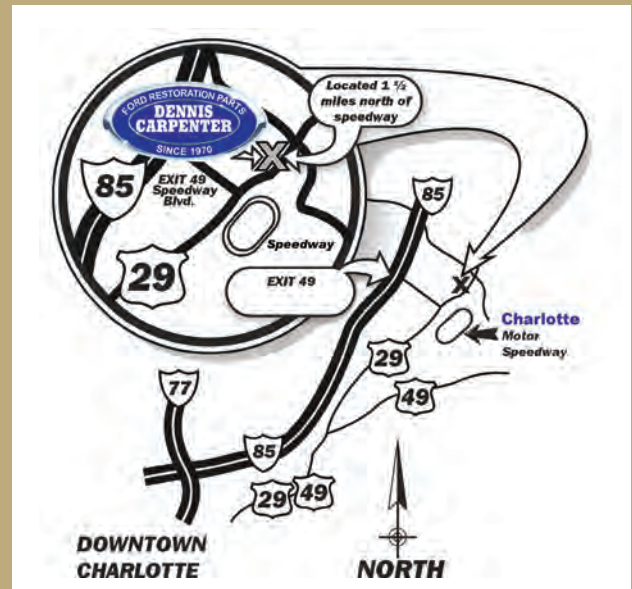

A reproduction part that duplicates a Ford licensed by but not manufactured by Ford is identified as an Official Licensed Product.

CARPENTER SHOWROOM

Be sure to visit our retail showroom in Concord, North Carolina, where you can purchase parts or browse our parts displays. We are located just 1 1/2 miles north of the Charlotte Motor Speedway.

Showroom Hours: **Mon. - Fri. 8am - 5 pm • Sat 9am - 12 noon (EST)**

We attempt to maintain prices as published in the catalog. Due to the fact that we purchase materials from many manufacturers, we are not able to control all product costs. If the supplier goes up, we must raise our prices accordingly. As a result, our prices do change periodically and without notice. Please feel free to contact us for confirmation on current prices.

Errors in typographical content, pricing and imagery are subject to correction and may change without notice. C.I. will not be held liable or responsible if any inaccuracy exists in specifications or pricing. Applications listed in this catalog are based on original factory information. However, variances, will occur due to non-documented substitutions and changes made during the vehicles production.

This catalog supersedes all previous editions, including prices. All rights reserved. No part of this publication may be copied, reproduced, stored in any retrieval system, communicated or transmitted in any form by any means without prior approval.

Dennis Carpenter Ford Restorations is a manufacturer and retailer of restoration Ford Parts and Accessories. With Dennis Carpenters you can be sure you're getting a part that is made right, fits right and lasts longer at a great price.

Celebrating 47 Years

A look at how Dennis Carpenter Ford Restoration Parts has grown over the years.

1969

Dennis starts restoration on his 1940 Ford convertible, realizes the need for plastic knobs and convinces an antique car friend into developing tooling for making them. In this photo, Dennis' son Daniel stands beside his dad's disassembled Ford.

1970

Dennis takes extra dash knobs that he made to the Hershey AACA car show and sells out. Realizing that he is able to support his hobby, he continues to develop all dash knobs for 1932-48 Fords.

FIRST BUILDING

Purchased in 1973, it still stands today.

1971

Dennis takes out a 2nd mortgage on his house and buys a bigger injection molding machine for making better quality knobs in larger quantities. He moves his part time business from home into a rented vacant railroad depot.

1972

Dennis realizes that the weatherstripping and seals he purchased for his 1940 had hardened, cracked, and needed replacement after 6 months. He is determined to make premium quality weatherstripping for his 1940. Due to minimum production requirements, he starts selling the extras.

1973

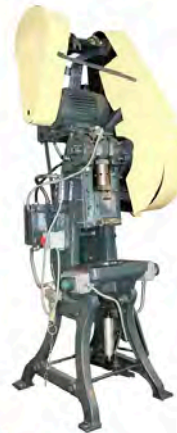

Sales of his quality dash knobs and seals takes off, so he quits his full time job as a purchaser at a local textile plant. He buys a 5,000 sq. ft. building on Hwy 29 in Concord, NC, which is still located in the front of the business today. A late night train derailment forces a rush move into the building.

1974

Dennis purchases 25 acres of land behind his business for \$75,000.

1976

Dennis builds a 10,000 sq. ft. building next to the first one and remembers thinking that he was set for life as far as buildings go. Little did he know that it would eventually grow to be over 300,000 sq. ft.

1977

Dennis purchases two used stamping presses for making stamped metal parts and a used die casting machine for making emblems.

1978

Dennis hires his first tool and die man for making tooling for more new parts. He also purchases his first new Bridgeport milling machine.

1979

Growth of the company continues, and he builds a 25,000 sq. ft. warehouse and showroom that are still in use today.

1987

Because of inconsistent size and hardness of rubber from outside suppliers, Dennis decides to develop his own rubber extruding operation from a desire to offer the very best quality weatherstripping and seals.

Daniel Carpenter and Dennis Carpenter

“Our company’s success is attributed to providing our customers with what they want- **quality products.**”

-DENNIS CARPENTER

1990

Dennis buys more plastic injection machines and develops more plastic parts. He also starts making Cushman Motor Scooter parts in an effort to keep his employees busy in a bad economy.

3001

1998

Ford Motor Company works with Dennis and his son Daniel on a pilot program to start using the original Ford tooling for parts they were no longer selling.

0001

1993

Ford Motor Company works with Dennis to become the first official Ford licensee for products made with the Ford name or logo on them.

1994

Dennis (the original American picker) fulfills a dream in building a museum to house his long time collection of Fords, Ford memorabilia, Cushman scooters, tractors, and Americana.

2000

The Original Ford Tooling program becomes official. We buy bigger machines and build more buildings to take in these large tools and run them. We continue to count it a privilege to have Ford’s trust and now have hundreds of original Ford tools in use. Ford traditionally scraps tools they are finished with. We are honored to save these tools from scrap for continued use, so we can make products for all the restorers out there that need them.

2003

Our biggest warehouse is built with 48,000 sq. ft. of high stack storage.

2005

Daniel Carpenter purchases the company from Dennis on a payment plan. Dennis is now able to focus on his core strength of developing new products and working with the tool makers.

2009

The economic downturn forces us to cut back and examine our ways but not one of our employees is laid off during the whole downturn. We are able to purchase some much needed equipment such as a digitizer and CNC machines at bargain prices from companies that were going out of business during this time.

2010

Edsel Ford II arrives at Carpenter Industries to tour the facilities.

2011

We transition to a new software and computer system after being on an old unix based system since 1991.

2013

We launch our all new user friendly web store and introduce flat rate shipping to better serve our customers.

Dennis still works at the business everyday and enjoys every bit of it. Also, those knobs and weatherstripping he put on his 1940 convertible back in the 1970s are still good to this day.

TYPICAL PATENT PLATE

thru 1959 **PATENT PLATE - TYPICAL**

Located on the left front body pillar.

Serial Number (D7FV109300)

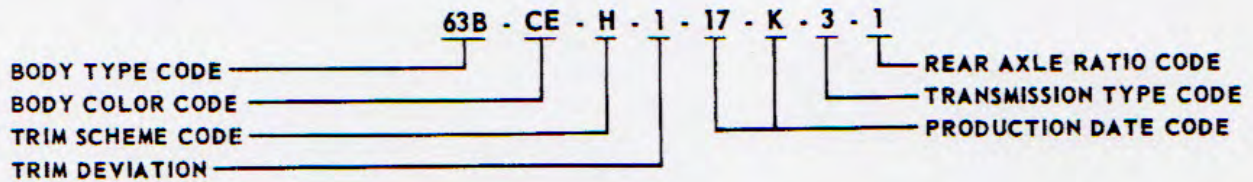

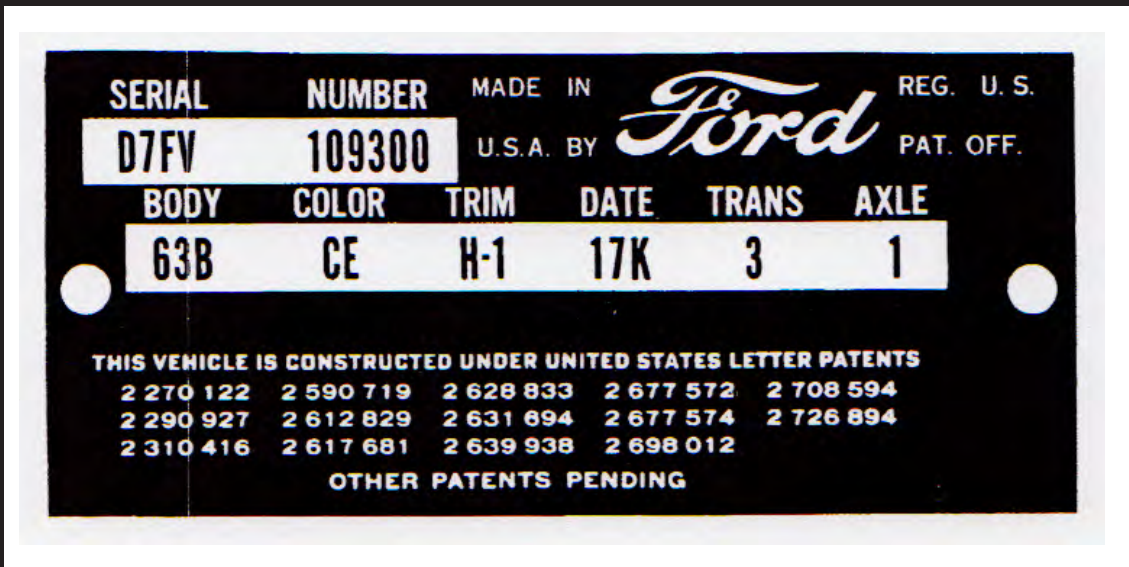

"D" -- 8 cyl. OHV Engine -- 312 cu. in. disp. -- 4-venturi carb.

"7" -- 1957 Model

"F" -- Assembled at Dearborn Plant

"V" -- Victoria body style -- Fairlane or Fairlane "500"

"109300" -- Nine thousand, three hundredth car assembled.

Body Style Codes Explained

Throughout our catalogs you will find Ford Body Code numbers. These numbers were used by Ford to designate what Body Styles a Ford part would fit.

For example, the Rocker Molding below would fit the Body Styles in the table that correspond to the Body Code #'s. If you find a Body Code # without a letter on the end that means that part fits all Body Codes with that number. So, a "65" fits "65A" & "65B".

The difference between our wheel covers and original Ford wheel covers is

#B7A-1130-B
1957 passenger car polished stainless steel wheel cover.
Also standard on 1957 Thunderbirds.

no difference.

That's the beauty of parts made from Original Ford Tooling.

What does it take to make a hub cap?

This view shows several of the 180 ton presses used at Carpenter Industries to produce the 1957 wheel covers. A total of 9 stamping press operations are required to form a flat sheet of stainless steel into a one wheel cover. Here Dennis Carpenter looks on as production is in full swing. Other original Ford tooling wheel covers include those for 1955-56 cars and for 1967-72 Ford pickup trucks.

This is a closeup of the bottom half of the final embossing die. The results of this stamping operation gives the wheel cover it's distinctive turbine blade louvers and FORD lettering. The sheen seen on the die is caused by lubricant which is used during the stamping operation to aide the stretching of the stainless steel as it compresses between the dies.

Once the wheel covers are finally stamped they are packed and sent to an outside source to be annealed. This procedure relieves internal stresses introduced to the stainless steel by the stamping operations. After annealing each wheel cover is polished, covered with a coat of flash chrome to prevent yellowing, then finally sprayed with black and white paint for detailing.

HUB CAPS - FULL DISC

**Did you know there is a National Club
for Early Ford V-8 enthusiasts?**

Why not become a member?

Founded in San Leandro, California in 1963, the Early Ford V-8 Club of America recognizes all 1932-1953

Ford Motor Company vehicles including Ford, Lincoln, Mercury, Commercial vehicles, tractors, as well as other Ford powered vehicles built around the world including the 4, 6, 8, and 12-cylinder engines built by the Ford Motor Company.

Today, as the premier marquee club of our represented vehicles with a world-wide membership of over 11,000 and 125 active regional groups, we are dedicated to the restoration and preservation of all 1932 through 1953 Ford Motor Company vehicles.

The club's award winning bi-monthly magazine, the V-8 TIMES, is circulated all over the world and is acclaimed as one of the best car club magazine anywhere.

The V-8 TIMES features technical articles, shop tips, questions and answers to help with your restoration from a panel of experts, nostalgic and historical articles, club and regional

**Celebrating 1932-1953
Ford Vehicles**

group news, offerings of accessories and restoration manuals found nowhere else - plus classified ads on cars and parts.

Traditionally, the Early Ford V-8 Club of America has three National Meets hosted by regional group(s) in the eastern, central and western United States. These provide an excellent opportunity to see some great cars and network with those sharing your love of the 1932-1953 Fords.

Every five years, a Grand National Meet is held. Dearborn, the home of the Ford Motor Company, is usually the site of this meet. In 2008, the 45th Anniversary Meet was held there.

You'll find the most up-to-date information on the club and activities on the club's website. You can also participate in Forums and ask for help with your restorations.

You can also visit our online store for a variety of items including the club's outstanding restoration books highlighting certain model years.

A-(7) PLACES EACH SIDE

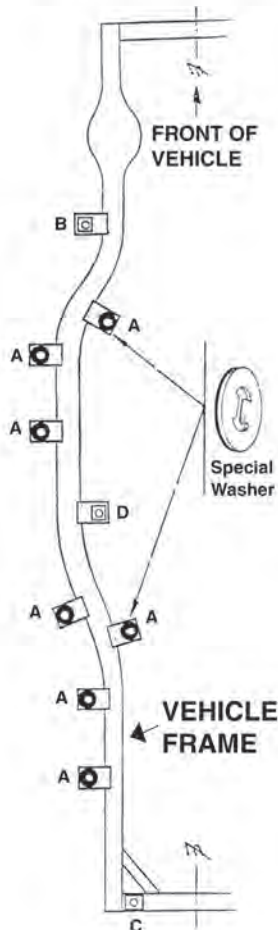

B-(1) PLACES EACH SIDE

C-(1) PLACE EACH SIDE

D-(1) PLACE EACH SIDE

**What does it mean?
In short, it means Ford parts
made EXACTLY like originals**

ORIGINAL TOOLING describes the stamping dies, injection molds, roller dies and other tools of mass production that the Ford Motor Company used to manufacture the parts necessary to assemble their cars and trucks. (See ORIGINAL TOOLING below.)

0001

FORD Logo - A most important logo assuring customers of the true origin and authenticity of the classic parts produced from this program. They're also the company responsible for making the tooling in the first place.

0 0 0 1 - These numbers identify Dennis Carpenter Ford Restorations as the first member of a select group to manufacture parts off original tooling, parts which comply with quality standards established by Dennis Carpenter and the Ford Motor Company. What this means is that we've dusted off certain tooling and started using them again, continuing to make quality parts as good or better than the Ford originals.

ORIGINAL TOOLING in Action!

On the right is half of a 1966 Galaxie hub cap forming die mounted in a press. The first stamping operation of making the hub cap is shown below. Each cap proceeds through 9 different stamping operations before completion.

MADE ON
The ORIGINAL Ford Dies

1966 FORD GALAXIE 15" HUB CAPS

Our stamped stainless steel hubcaps are shaped and chrome plated EXACTLY Like the Ford Originals and are available with red or rose colored center caps. Red center cap #C6AZ-1130-G Rose center cap #C6AZ-1130-A

Preserving FORD History

For Future Generations

Created in 1992, the Early Ford V-8 Foundation is a 501 (c)(3) non-profit, educational organization dedicated to "Preserving 1932-1953 Early Ford V-8 History." This includes all related materials produced by the Ford Motor Company during this period, including cars and trucks. Land has been purchased in Auburn, Indiana, and an 8,000 square foot Phase 1 of our complex has been constructed. We are now raising funds to expand the facility to over 27,000 square feet. Construction began in Spring 2017. Funds for the V-8 Museum come from membership dues and donations from individuals and organizations who realize preserving this period of automotive history is important. As a non-profit corporation, the V-8 Museum can offer tax benefits for donations. Annual dues are \$25 or 3 years for \$60. Membership includes an informative bi-monthly newsletter and free admission to the Museum.

Our on-going "Buy the Foot" Campaign was created to raise funds for the expansion and maintenance of the facility. For \$150 per square foot, a certificate will be issued and your name will be added to a large plaque in the Museum. Purchase of a minimum of nine square feet gets you a custom, pewter license plate topper. Individuals, car clubs, companies and other organizations are encouraged to donate to this campaign and help the Early Ford V-8 Foundation Museum continue its mission of "Preserving Ford History" for future generations.

The future looks bright for the expansion of the Early Ford V-8 Museum. This proposal shows the Ford Rotunda inspired facade.

(Genuine FORD, New in box)

Part #	C3TZ-6049-G
Type	
Note	Casting #C3TZ-6048-FG
Fits	8 cyl. 272,292,312
Year	1955-62
Price	99.95 ea.

Must use C0ME-6507-N
Intake valves

Replacement Type

CYLINDER HEAD BOLTS

(Individually Sold)

Part #	*8BA-6065
Type	1.94" long
Note	Need (10) per head
Fits	8-cylinder
Year	1949-53
Price	1.95 ea.

Part #	*8BA-6066
Type	2.62" long
Note	Need (14) per head
Fits	8-cylinder
Year	1949-53
Price	2.50 ea.

CYLINDER HEAD BOLT KIT

Part #	*8BA-6065-KIT
Note	Includes: (20) 8BA-6065 (28) 8BA-6066
Fits	Does 1 engine
Year	1949-53
Price	89.95 ea.

FORD FLATHEAD CYLINDER HEADS

Original Edelbrock Design

Part #	8BA-6050-1115
Type	Finned Type
Note	24 Stud
Fits	Ford / Mercury
Year	1949-53
Price	649.95 pr.

- Rugged, ribbed internally and externally, with a large water capacity and excellent breathing characteristics.
- Cast at the Edelbrock Foundry in the USA of T-6 tempered A356 aluminum.
- 8.0:1 compression ratio on blocks with a 3/16" base relief (stock bore and stroke)

HIGH LIFT / LARGE CHAMBER FORD FLATHEADS

Part #	8BA-6050-1116
Type	Finned Type
Note	24 Stud
Fits	Ford / Mercury
Year	Late Model 1949-53
Price	699.95 pr.

- Supports high lift cams & is perfect for reducing compression in supercharger applications or on low octane fuel
- Features new "raised roof" combustion chamber design that is CNC machined from our popular #1115 Flathead casting
- Increased valve clearance and increased flow for more power

TRIPLE DEUCE MANIFOLD

Part #	8BA-6520-1109
Year	1949-53
Price	329.95 ea.

- These reproductions of the vintage Edelbrock manifold #SU 359 and #SU 349 allow the use of three 2-barrel carburetors on 1938-48 and 1949-53 Ford Flathead engines.
- #1109 features front road draft and 1 3/8" diameter oil fill bosses, and a raised fuel pump boss.

What does it mean? In short, it means Ford parts made EXACTLY like originals

ORIGINAL TOOLING describes the stamping dies, injection molds, roller dies and other tools of mass production that the Ford Motor Company used to manufacture the parts necessary to assemble their cars and trucks. (See ORIGINAL TOOLING below.)

0001

FORD Logo - A most important logo assuring customers of the true origin and authenticity of the classic parts produced from this program. They're also the company responsible for making the tooling in the first place.

0 0 0 1 - These numbers identify Dennis Carpenter Ford Restorations as the first member of a select group to manufacture parts off original tooling, parts which comply with quality standards established by Dennis Carpenter and the Ford Motor Company. What this means is that we've dusted off certain tooling and started using them again, continuing to make quality parts as good or better than the Ford originals.

ORIGINAL TOOLING in Action!

On the right is half of a 1966 Galaxie hub cap forming die mounted in a press. The first stamping operation of making the hub cap is shown below. Each cap proceeds through 9 different stamping operations before completion.

MADE ON
The ORIGINAL Ford Dies

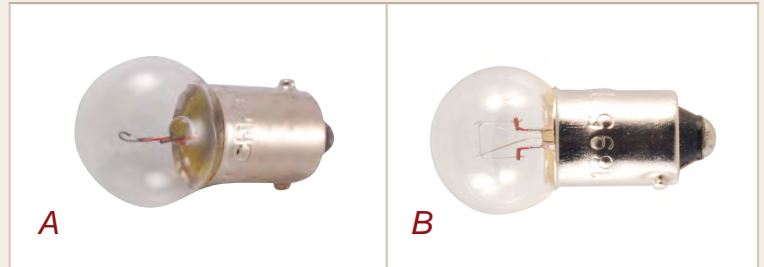

1966 FORD GALAXIE 15" HUB CAPS

Our stamped stainless steel hubcaps are shaped and chrome plated EXACTLY Like the Ford Originals and are available with red or rose colored center caps.

Clutch Release Shaft Bushing

Developed by Dennis Carpenter Ford Restoration Parts

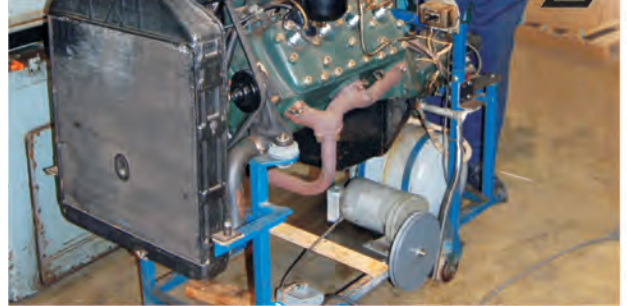

Our all new shaft bushings are made from a lubricant fortified plastic compound which creates durable bushings that require no lubrication.

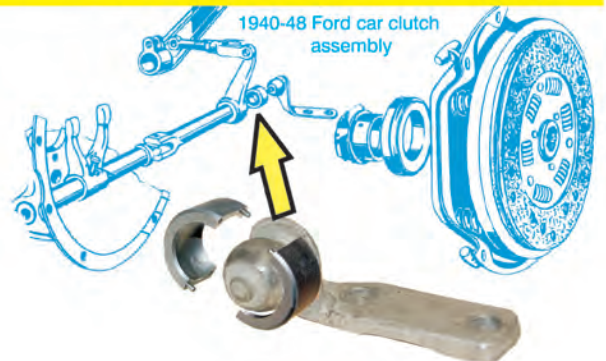

**IMPROVED DESIGN
MAINTENANCE FREE
NO LUBRICATION REQUIRED
EASIER INSTALLATION**

Proven Durability

Clutch depression tested over 100,000 cycles without wear.
Never replace your clutch shaft bushing again!

These features make our V8 flathead water pumps better

New Pump Housings

Double Row Sealed Ball Bearings

Our pump housings are new castings (not rebuilds) guaranteeing that there are no coolant-leaking stress cracks. Each housing's mounting surface is machined straight and true ensuring water-tight sealing when mounted to your flathead.

Ceramic Seals

Original impeller design creates inadequate coolant flow rate

Helical impeller design increases coolant flow rate

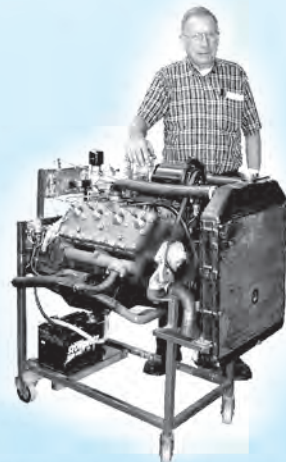

Helical Impellers

We've applied the advantages of modern technology to our pumps by introducing ceramic composition seals to the impeller shafts. Ceramic type seals are used in modern day water pumps and have a greater resistance to wear which significantly reduces the possibility of leakage and prolongs the life of the pumps.

We've introduced the efficiency of helical impeller blades to our 1948-1952 water pumps. The angled arrangement of the impeller blades allows the coolant to flow faster through the radiator system at lower rpms. This results in a cooler running engine when operating at idle speed.

Runs 10° Cooler

An endurance test revealed that a V8 Ford flathead fitted with a pair of our better-flowing water pumps operated with a coolant temperature averaging 155° where as the same engine using stock pumps ran at approximately 165°. This proves that our water pumps produce lower coolant temperatures at idle speed than stock pumps and can ultimately prolong the life of your V8.

This 1940 85 h.p. flathead ran coolly for 9 continuous hours for 3 consecutive days using new Dennis Carpenter V8 water pumps.

Water Pumps Engineered To Keep Your Flathead Running Cooler

Install Dennis Carpenter water pumps on your classic Ford

#63A...#76 HUH??

What do these numbers mean in our catalog?

Various parts in this catalog are identified with Body Type Codes. A complete listing of these codes and the body types which they represent are shown on page 149.

For instance, a 54A would equal a Galaxie Town Sedan.

This code can be found on the Body Plate located on the door pillar of your car.

This way you can be sure the parts you're ordering fits your car!

A Snapshot of Dennis Carpenter and His Fords.

Growing up on a farm in Dover, Minnesota, Dennis Carpenter was raised with a strong work ethic and was taught early on how to use machinery and what made it work. Like many young guys he was fascinated with automobiles and by age 12 bought a 1941 Ford for \$12.00. It seemed that first car established an allegiance to Fords that Dennis would carry with him for the rest of his life.

Dennis' passion for Fords and making the parts to restore them has been the driving force at his company since 1970. From the rubber extrusion department comes Premium Line Weather Stripping products. From the stamping and injection dies comes a dynamic variety of Officially Licensed Ford and Original Ford Tooling parts. Passion can be described as "implied energetic and unflagging pursuit of an aim."

Dennis Carpenter's passion is to develop, engineer, and produce superior Ford restoration parts.

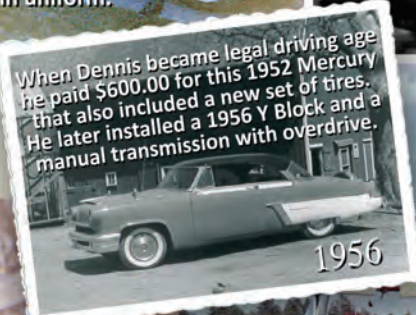

1962
Dennis with his new 1962 Galaxie. Base price was \$3,033.00. He added a push button radio for \$58.50

1960
Dennis in uniform.

1964 Dennis bought this 1956 Police car for \$160. It had a police interceptor engine with a manual transmission.

When Dennis became legal driving age he paid \$600.00 for this 1952 Mercury that also included a new set of tires. He later installed a 1956 Y Block and a manual transmission with overdrive.

1956

1960
Dennis paid \$162.50 for this 1936 Ford 5 window coupe.

1961
Dennis' first Galaxie was a beautiful 1961 convertible.

1960
Dennis on Army leave with his 1957 convertible.

1955-56

PREMIUMLINE
WEATHER STRIPPING
by Dennis Carpenter

Made Right, Fits Right, Lasts Longer

4140 Concord Parkway South Concord, North Carolina 28027 U.S.A. PH. 704.786.8139 800.476.9653 EMAIL: info@dennis-carpenter.com

1. WE MAKE IT.

Designed, Engineered and Manufactured by Dennis Carpenter.

Our rubber extrusion department is capable manufacturing 15,000 feet daily of specially formulated EPDM rubber to make our quality windshield and rear window seals. We use the same machinery to extrude thousands of feet of soft sponge rubber which is an integral component of producing our door, roof rail and trunk seals. With over forty-five years of experience Dennis Carpenter is the leading manufacturer and distributor of superior quality Ford weatherstripping and molded rubber parts.

Over 99% of our Dennis Carpenter Weather Stripping is made right here in Concord, NC, USA. We are proud to be the largest manufacturer of Ford Restoration parts made in the United States.

2. IT'S THE VERY BEST.

Why is Dennis Carpenter WEATHER STRIPPING the absolute best on the market?

Combine 45 plus years of manufacturing experience with 60 durometer E.P.D.M. dense rubber compound and you get a rear window seal that not only holds 50 lbs. of safety glass in place but better resists drying and shrinking from the sun's harmful ultraviolet rays.

At Dennis Carpenter Reproductions beginning with quality ingredients is the secret to making quality weather stripping products. Our attention to detail and quality control ensures that you're getting a premium product that is the absolute best on the market.

Competitor Brand

- Cheap Materials

#63A...#76 HUH??

What do these numbers mean in our catalog?

Various parts in this catalog are identified with Body Type Codes. A complete listing of these codes and the body types which they represent are shown on page 149.

For instance, a 54A would equal a Galaxie Town Sedan.

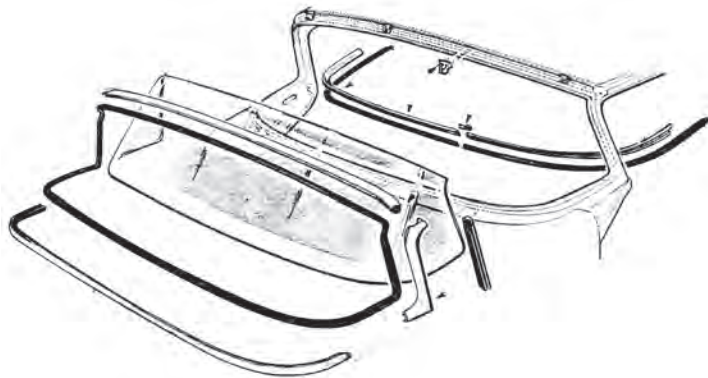

This code can be found on the Body Plate located on the door pillar of your car.

This way you can be sure the parts you're ordering fits your car!

PREMIUM LINE
WEATHER STRIPPING
by Dennis Carpenter

Salt Is The Cure
 and this machine makes it work.

Technically a mixture of potassium nitrate and sodium nitrate is used to cure the rubber that our Premium Line windshield and rear window seals are made of but that's only part of the story. In the mid 1980's Dennis Carpenter envisioned a facility equipped with the machinery that could manufacture his brand of Ford weather stripping that was formulated to his specifications. Then in 1987 Dennis and employee Karl Young, along with other skillful Carpenter employees, embarked on a six month long project to construct a machine that would extrude the rubber necessary to make Ford window and door seals. The finished extrusion machine consisted of a Davis-Standard Model 350SII extruder turning a 3 1/2" diameter screw, 70' of elevated stainless steel curing tanks connected to an additional 30' of water filled stainless steel tanks needed for cooling and rinsing the heated rubber. To resist corrosion from the potassium/sodium nitrate mixture all of the plumbing, hardware, and fixtures used in the construction were also made of stainless steel. With the safety of his employees in mind a complete exhaust system was constructed and installed to extract the fumes generated by the curing process.

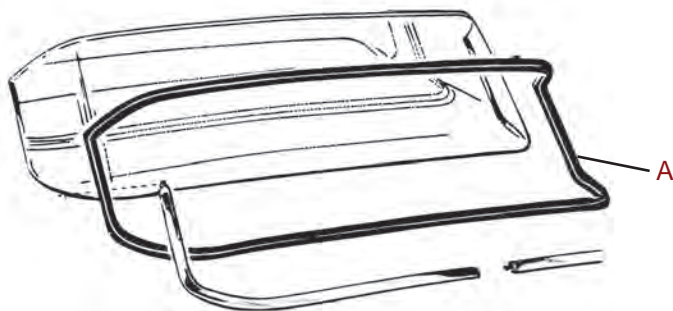

Finally in November of 1987 as witnessed by Dennis Carpenter, Karl Young, and a few employees the first footage of Ford windshield rubber extrusion began flowing through the dies. To this day the same rubber extrusion machine that Dennis and his employees built over a quarter century ago is still being used at Carpenter Industries and is capable of producing over 15,000 feet of extruded rubber during a ten hour shift.

#63A...#76 HUH??

What do these numbers mean in our catalog?

Various parts in this catalog are identified with Body Type Codes. A complete listing of these codes and the body types which they represent are shown on page 149.

For instance, a 54A would equal a Galaxie Town Sedan.

This code can be found on the Body Plate located on the door pillar of your car.

This way you can be sure the parts you're ordering fits your car!

WEATHER STRIPPING GLUE - Black

Seat Belt MOUNTING BRACKET

Safety First! Seat belt anchor kits are ideal for reinforcing your mount for all seat belts. Belt anchors reduce the chance of the belt bolt tearing through the floor when the belt is under load. Rounded corners ensure that your belt will not tear from impact or normal use. Ideal for all applications. Hardware included.

What does it mean? In short, it means Ford parts made EXACTLY like originals

ORIGINAL TOOLING describes the stamping dies, injection molds, roller dies and other tools of mass production that the Ford Motor Company used to manufacture the parts necessary to assemble their cars and trucks. (See ORIGINAL TOOLING below.)

0001

FORD Logo - A most important logo assuring customers of the true origin and authenticity of the classic parts produced from this program. They're also the company responsible for making the tooling in the first place.

0 0 0 1 - These numbers identify Dennis Carpenter Ford Restorations as the first member of a select group to manufacture parts off original tooling, parts which comply with quality standards established by Dennis Carpenter and the Ford Motor Company. What this means is that we've dusted off certain tooling and started using them again, continuing to make quality parts as good or better than the Ford originals.

ORIGINAL TOOLING in Action!

On the right is half of a 1966 Galaxie hub cap forming die mounted in a press. The first stamping operation of making the hub cap is shown below. Each cap proceeds through 9 different stamping operations before completion.

MADE ON
The ORIGINAL Ford Dies

Classic Parts From
Original Tooling

1966 FORD GALAXIE 15" HUB CAPS

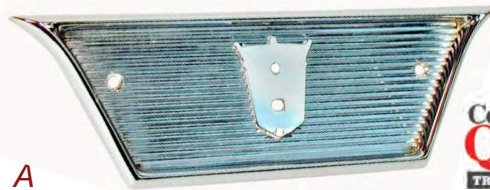

Our stamped stainless steel hubcaps are shaped and chrome plated EXACTLY Like the Ford Originals and are available with red or rose colored center caps.

Some listed sheet metal parts have multiple applications and may require minor cutting or modification to accommodate your particular vehicle. All sheet metal requires fitting for proper placing. all sheet metal requires welding to accomplish installation. Painted or otherwise modified sheet metal is not returnable regardless of the reason.

M

WARNING

This is a transistor powered radio. Do not attempt to service without reference to Motorola service manual for this model. Operate only with (+) voltage to 'A' lead and (-) to chassis. When soldering disconnect radio from supply voltage. When checking for noise do not tap tubes, rather tap housing with rubber mallet.

LABEL 54P539787 O.C.L. Printed in U.S.A.

N

FLARE CLIP PLIERS

Used to install flare style type clips.

PART #	PRICE
TL-300	14.95 ea.

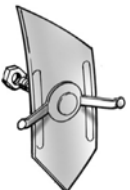

Many molding clips are a flare type design. To install a flare type clip you place the clip into position on body. Then use these specially made pliers to squeeze two outer center tabs together forcing the inner flare tabs to pinch against sheet metal thus holding the clip into place.

#63A...#76 HUH??

What do these numbers mean in our catalog?

Various parts in this catalog are identified with Body Type Codes. A complete listing of these codes and the body types which they represent are shown on page 149.

For instance, a 54A would equal a Galaxie Town Sedan.

This code can be found on the Body Plate located on the door pillar of your car.

This way you can be sure the parts you're ordering fits your car!

FLAT RATE SHIPPING

ON ALL DOMESTIC GROUND ORDERS*
 *RESTRICTIONS APPLY. SEE ADDITIONAL DETAILS BELOW

\$99 or LESS get \$9.99 SHIPPING
\$100 or MORE get \$14.99 SHIPPING

Must ship by "ground" service within the contiguous US. (This excludes Alaska, Hawaii, and Puerto Rico. Normal carrier rates apply.)

Domestic Air and International service is not included. Normal carrier rates apply. Even though an order requires multiple packages or if any of the packages are oversized, bulky, and/or heavy, the shipping is still \$14.99 excluding items that require "Freight Truck Shipping". Any "domestic ground" order with a total parts value under \$100.00 will be charged a \$9.99 minimum shipping rate. These rates include insurance and handling.

Items such as hoods, bedsides, 12' bedstrips, doors, fenders, quarter panels require freight truck shipping. Items that require freight truck shipping are noted in catalog. If items requiring freight truck shipping are ordered with flat rate items, all items will be included for the same freight truck rate. See right for more details.

Preferred Carriers

Our preferred carriers are FedEx, UPS, and USPS for all parcel shipments. No other carriers are used. No exceptions.

Special Handling:

Retail orders requiring special handling other than flat rate ground shipping will be estimated as shown below: The prices are estimates only. Actual shipping charges will apply.

Air Shipments

	Sm. Pkg.	Med. Pkg.	Lg. Pkg.
Next Day Air:	\$40.00	\$100.00	\$200.00
Sec. Day Air:	\$30.00	\$75.00	\$170.00

Freight Truck Shipment

	Shipping Fee	Crating Fee (if applicable)
Residential Address	\$150.00	\$75.00
Commercial Address	\$150.00**	\$75.00

**Lift Gate Fees are included in estimates above and range from \$30 to \$40. Depending on carrier this fee may be waived for orders delivered to a commercial address.

Freight Truck Shipping fees above are estimates only. Actual freight shipping charges will be applied when the order is shipped and invoiced. Items that require a freight truck cannot be included with flat rate shipping.

International Shipments (All Except Canada)

When calculating shipping for international orders, please use 50% of the order total parts value or \$50.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. International orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Canadian Shipments

When calculating shipping for Canadian orders, please use 20% of the order total parts value or \$25.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. Canadian orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Merchandise Returns:

- 1) All sales are considered final with the exception of warranty claims and merchandise shipped in error.
- 2) All returned merchandise must be in original packaging and is subject to inspection and approval prior to credit or exchange. Must be in new sale condition as determined by Carpenter Industries.

It is the customer's responsibility to check parts for correct fit BEFORE installation.

Any part that has been installed, disassembled, drilled, welded, cut, painted, or modified in any way, or is missing kit components is NOT eligible for return.

Electrical items that have NOT been installed and/or plugged in are eligible for return.

Electrical items that are authorized for return are still subject to inspection and approval prior to credit and/or exchange.

No returns accepted on any literature.

Any installation, disassembly or modification by a third party on the behalf of customer does not constitute an exception to our policy. Purchaser retains full responsibility for the condition of the part.

- 3) Returns within 30 days of invoice date are acceptable, any returns received after 30 days are subject to a 20% restocking fee. Returns after 180 days are subject to a 50% restocking fee.
- 4) **Absolutely NO returns accepted after one year from date of purchase. No exceptions.**
- 5) ALL RETURNS MUST HAVE A RETURN AUTHORIZATION (RA) NUMBER. Please call 1-800-476-9653, option 2, to obtain an RA number. Please have your purchase invoice number available when calling. C.I. is NOT responsible for unauthorized returns.
- 6) All returns must be shipped "pre-paid" and fully insured. COD or collect returns will not be accepted. In cases where a return is due to our error, "pre-paid" shipping charges will be refunded.
- 7) Refunds will be issued based upon the method of payment. (i.e. cash for cash purchases, credit on a credit card for credit card purchases, etc.). On returns due to our error, your shipping expense will be reimbursed based only upon carriers charges.
- 8) All returns should be sent to: Carpenter Industries, Inc.
4140 Concord Parkway S
Concord NC 28027

Claims:

All claims must be taken up with Dennis Carpenter Restorations.

Please inspect all orders for damage and/or errors immediately upon receipt. Report all discrepancies to Carpenter Industries at 1-800-476-9653, option 2, within 7 days of receipt. No claims accepted after 7 days.

Please hold all original boxes and packaging materials for the carrier to inspect.

Warranty

We guarantee to replace or at our option, repair any product or parts which are found to be defective in material or workmanship within one year from the date of shipment. Our obligation with respect to such products or parts shall be limited to replacement or repair and in no event shall we be liable for consequential or special damages, or for transportation, installation, adjustment, or other expenses which may arise in connection with such products or parts. THIS WARRANTY EXPRESSLY MADE IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS.

 Original in our Shop.
 Complete with
 Installation Screws.

Additional scuff
 plates from
 1952 to 1959,
 2 Dr. and 4 Dr.
 See pg. 128 for more

BA-7013208-PR
\$114.95 EA.

4140 Concord Parkway So.
Concord NC 28027

Competitor Brand

- Made kinda like original
- Cheap Materials
- Cracks and fades

VS.

Carpenter Brand

- Exact fit and mold
- Made exact of original
- Quality Materials
- Long Lasting

After 6 months
outside in the sun.

PREMIUM_{LINE}
WEATHERSTRIPPING
by Dennis Carpenter

With over forty-five years of experience Dennis Carpenter is the leading manufacturer and distributor of superior quality Ford weatherstripping and molded rubber parts. Our rubber extrusion department is capable of manufacturing 25,000 feet of specially formulated EPDM rubber to make our quality windshield and rear window seals.

Made Right, Fits Right, Lasts Longer

4140 Concord Parkway South Concord, North Carolina 28027 U.S.A. PH. 704.786.8139 800.476.9653 EMAIL: info@dennis-carpenter.com

Vent Window Seals after 6 months in our testing labratory (ie. Outside exposed to the elements)
