

Quality Reproduction Parts for **1980-96** **TRUCK & BRONCO**

2023

Sheet Metal, Tail Light Lenses, Emblems & more!

HIGHER QUALITY • LOWER PRICES

Made Right, Fits Right & Last Longer

All of the parts in this catalog, with the exception of new old stock Ford parts, are reproduction or equivalent replacement type parts of Ford Motor Company parts and are represented or referenced by original Ford part numbers.

Reproduction Ford parts made from obsolete Ford tooling that are

licensed by but not manufactured by Ford are identified as Classic Parts From Original Tooling.

A reproduction part that duplicates a Ford licensed by but not manufactured by Ford is identified as an Official Licensed Product.

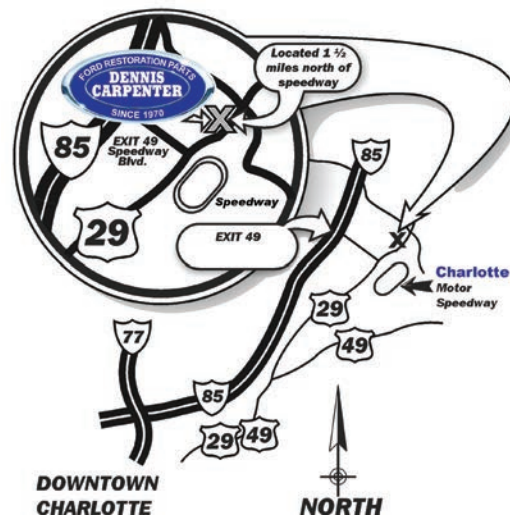

QUALITY HAS A NEW LOCATION

From humble beginnings in the basement, to the same building for 40 years, our showroom, order fulfilment & call center have now relocated to our new 90,000 square foot facility, to better serve you, our customers.

Located just 1 1/2 miles north of Charlotte Motor Speedway
Our new address is 21 Carpenter Court NW Concord, NC 28027

*Showroom closed until further notice
Curbside Pickup Available
Call for Details 704-786-8139*

We attempt to maintain prices as published in the catalog. Due to the fact that we purchase materials from many manufacturers, we are not able to control all product costs. If the supplier goes up, we must raise our prices accordingly. As a result, our prices do change periodically and without notice. Please feel free to contact us for confirmation on current prices.

Errors in typographical content, pricing and imagery are subject to correction and may change without notice. C.I. will not be held liable or responsible if any inaccuracy exists in specifications or pricing. Applications listed in this catalog are based on original factory information. However, variances, will occur due to non-documented substitutions and changes made during the vehicles production.

This catalog supersedes all previous editions, including prices. All rights reserved. No part of this publication may be copied, reproduced, stored in any retrieval system, communicated or transmitted in any form by any means without prior approval.

Carpenter Industries Inc.

Dennis Carpenter Ford Restorations is a manufacturer and retailer of restoration Ford Parts and Accessories. With Dennis Carpenters you can be sure you're getting a part that is made right, fits right and lasts longer at a great price.

Celebrating 50 Years

A look at how
Dennis Carpenter
Ford Restoration Parts
has grown over
the years.

1969

Dennis starts restoration on his 1940 Ford convertible, realizes the need for plastic knobs and convinces an antique car friend into developing tooling for making them. In this photo, Dennis' son Daniel stands beside his dad's disassembled Ford.

1970

Dennis takes extra dash knobs that he made to the Hershey AACA car show and sells out. Realizing that he is able to support his hobby, he continues to develop all dash knobs for 1932-48 Fords.

FIRST BUILDING

Purchased in 1973, it still stands today.

1971

Dennis takes out a 2nd mortgage on his house and buys a bigger injection molding machine for making better quality knobs in larger quantities. He moves his part time business from home into a rented vacant railroad depot.

1972

Dennis realizes that the weatherstripping and seals he purchased for his 1940 had hardened, cracked, and needed replacement after 6 months. He is determined to make premium quality weatherstripping for his 1940. Due to minimum production requirements, he starts selling the extras.

1973

Sales of his quality dash knobs and seals takes off, so he quits his full time job as a purchaser at a local textile plant. He buys a 5,000 sq. ft. building on Hwy 29 in Concord, NC. which is still located in the front of the business today.

A late night train derailment forces a rush move into the building.

1974

Dennis purchases 25 acres of land behind his business for \$75,000.

1976

Dennis builds a 10,000 sq. ft. building next to the first one and remembers thinking that he was set for life as far as buildings go. Little did he know that it would eventually grow to be over 300,000 sq. ft.

1977

Dennis purchases two used stamping presses for making stamped metal parts and a used die casting machine for making emblems.

1978

Dennis hires his first tool and die man for making tooling for more new parts. He also purchases his first new Bridgeport milling machine.

1979

Growth of the company continues, and he builds a 25,000 sq. ft. warehouse and showroom that are still in use today.

1987

Because of inconsistent size and hardness of rubber from outside suppliers, Dennis decides to develop his own rubber extruding operation from a desire to offer the very best quality weatherstripping and seals.

Daniel Carpenter and Dennis Carpenter

“Our company’s success is attributed to providing our customers with what they want- **quality products.**”

-DENNIS CARPENTER

**1990**

Dennis buys more plastic injection machines and develops more plastic parts. He also starts making Cushman Motor Scooter parts in an effort to keep his employees busy in a bad economy.

**3001****1993**

Ford Motor Company works with Dennis to become the first official Ford licensee for products made with the Ford name or logo on them.

**1994**

Dennis (the original American picker) fulfills a dream in building a museum to house his long time collection of Fords, Ford memorabilia, Cushman scooters, tractors, and Americana.

1998

Ford Motor Company works with Dennis and his son Daniel on a pilot program to start using the original Ford tooling for parts they were no longer selling.

**2000**

The Original Ford Tooling program becomes official. We buy bigger machines and build more buildings to take in these large tools and run them. We continue to count it a privilege to have Ford's trust and now have hundreds of original Ford tools in use. Ford traditionally scraps tools they are finished with. We are honored to save these tools from scrap for continued use, so we can make products for all the restorers out there that need them.

2003

Our biggest warehouse is built with 48,000 sq. ft. of high stack storage.

**2005**

Daniel Carpenter purchases the company from Dennis on a payment plan. Dennis is now able to focus on his core strength of developing new products and working with the tool makers.

2009

The economic downturn forces us to cut back and examine our ways but not one of our employees is laid off during the whole downturn. We are able to purchase some much needed equipment such as a digitizer and CNC machines at bargain prices from companies that were going out of business during this time.

2010

Edsel Ford II arrives at Carpenter Industries to tour the facilities.

2011

We transition to a new software and computer system after being on an old unix based system since 1991.

2013

We launch our all new user friendly web store.

2019

Major upgrades are made to manufacturing equipment and shipping procedures at Carpenters to facilitate positive company growth.

Dennis' years of experience is a valuable asset to Daniel who is continuously improving the evolution of Dennis Carpenter Ford Restoration Parts.

As for the plastic dash knobs Dennis made for his 1940 Ford years ago, they still look great!

HUB CAPS - HALF

What does it mean? In short, it means Ford parts made **EXACTLY** like originals

ORIGINAL TOOLING describes the stamping dies, injection molds, roller dies and other tools of mass production that the Ford Motor Company used to manufacture the parts necessary to assemble their cars and trucks. (See ORIGINAL TOOLING below.)

FORD Logo - A most important logo assuring customers of the true origin and authenticity of the classic parts produced from this program. They're also the company responsible for making the tooling in the first place.

0 0 0 1 - These numbers identify Dennis Carpenter Ford Restorations as the first member of a select group to manufacture parts off original tooling, parts which comply with quality standards established by Dennis Carpenter and the Ford Motor Company. What this means is that we've dusted off certain tooling and started using them again, continuing to make quality parts as good or better than the Ford originals.

ORIGINAL TOOLING in Action!

On the right is half of a 1966 Galaxie hub cap forming die mounted in a press. The first stamping operation of making the hub cap is shown below. Each cap proceeds through 9 different stamping operations before completion.

MADE ON
The ORIGINAL Ford Dies

1966 FORD GALAXIE 15" HUB CAPS

Our stamped stainless steel hubcaps are shaped and chrome plated **EXACTLY** like the Ford Originals and are available with red or rose colored center caps. Red center cap #C6AZ-1130-G Rose center cap #C6AZ-1130-A

100% of our original Ford Tooling parts are made in the U.S.A.

steering wheels, hub caps, fenders, grilles, door panels, side moldings and more

Daniel Carpenter and company founder Dennis Carpenter

We are honored and very thankful to Ford for allowing us to save many of the original Ford factory tools from the scrap pile. With these original factory tools we are able to continue serving restorers like you with quality parts that have the original factory fit and finish and are made in the USA.

In 1998 we started bringing these original tools to our facility. We soon realized that we needed to buy bigger presses to run these large tools and needed to build more buildings to house everything. For example, in 2002 we learned that Ford's supplier that had made their hub caps since the 1950's was going out of business. We purchased six of the

original presses from their production line, so that we could continue making hub caps from the original Ford tooling. With the future in mind, we continue bringing in more original tools that Ford has quit using for 1970-1990's pickup truck parts.

When you see the above symbol on a part, rest assured that it will have the factory fit and finish and it was proudly made in the USA.

We appreciate your business!

Daniel and Dennis Carpenter

1957 Ford Car Hub Caps

1973-79 F-100 Interior Door Panels

Bronco and F-100 Tailgates

Welding original Ford tooling 1966-77 Bronco tailgates.

Thousands of original Ford tools are stored in several warehouses at the Carpenter facility.

This press is fitted with a 3-stage progressive stamping die that makes 1977-79 F-100 race-track moldings.

* Headline derived from the fact that all leased Ford tooling remains in the USA.

G

H

100% of our original Ford Tooling parts are made in the U.S.A.

steering wheels, hub caps, fenders, grilles, door panels, side moldings and more

Daniel Carpenter and company founder Dennis Carpenter

We are honored and very thankful to Ford for allowing us to save many of the original Ford factory tools from the scrap pile. With these original factory tools we are able to continue serving restorers like you with quality parts that have the original factory fit and finish and are made in the USA.

In 1998 we started bringing these original tools to our facility. We soon realized that we needed to buy bigger presses to run these large tools and needed to build more buildings to house everything. For example, in 2002 we learned that Ford's supplier that had made their hub caps since the 1950's was going out of business. We purchased six of the

original presses from their production line, so that we could continue making hub caps from the original Ford tooling. With the future in mind, we continue bringing in more original tools that Ford has quit using for 1970-1990's pickup truck parts.

When you see the above symbol on a part, rest assured that it will have the factory fit and finish and it was proudly made in the USA.

We appreciate your business!

Daniel and Dennis Carpenter

1957 Ford Car Hub Caps

1973-79 F-100 Interior Door Panels

Bronco and F-100 Tailgates

Welding original Ford tooling 1966-77 Bronco tailgates.

Thousands of original Ford tools are stored in several warehouses at the Carpenter facility.

This press is fitted with a 3-stage progressive stamping die that makes 1977-79 F-100 race-track moldings.

* Headline derived from the fact that all leased Ford tooling remains in the USA.

100% of our original Ford Tooling parts are made in the U.S.A.

steering wheels, hub caps, fenders, grilles, door panels, side moldings and more

Daniel Carpenter and company founder Dennis Carpenter

We are honored and very thankful to Ford for allowing us to save many of the original Ford factory tools from the scrap pile. With these original factory tools we are able to continue serving restorers like you with quality parts that have the original factory fit and finish and are made in the USA.

In 1998 we started bringing these original tools to our facility. We soon realized that we needed to buy bigger presses to run these large tools and needed to build more buildings to house everything. For example, in 2002 we learned that Ford's supplier that had made their hub caps since the 1950's was going out of business. We purchased six of the

original presses from their production line, so that we could continue making hub caps from the original Ford tooling. With the future in mind, we continue bringing in more original tools that Ford has quit using for 1970-1990's pickup truck parts.

When you see the above symbol on a part, rest assured that it will have the factory fit and finish and it was proudly made in the USA.

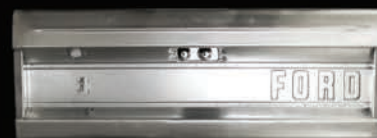

We appreciate your business!

Daniel and Dennis Carpenter

1957 Ford Car Hub Caps

1973-79 F-100 Interior Door Panels

Bronco and F-100 Tailgates

Welding original Ford tooling 1966-77 Bronco tailgates.

Thousands of original Ford tools are stored in several warehouses at the Carpenter facility.

This press is fitted with a 3-stage progressive stamping die that makes 1977-79 F-100 race-track moldings.

* Headline derived from the fact that all leased Ford tooling remains in the USA.

RUBBER MOLDING

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

Stainless Steel Parts Made In USA

Metal Meets The Presses

Forming stainless steel into Ford parts is one of the jobs performed in the metal stamping division at Dennis Carpenters. 42 different presses ranging from 1 to 500 ton compression capacities are on hand and are capable of stamping 10 gauge 304 series stainless steel into 1948-52 F-1 bumpers.

Our company has been stamping steel, injecting plastic and molding rubber into top quality Ford restoration parts in the U.S. since 1970 and will continue the tradition for future Ford enthusiasts.

If your desire is to restore a classic Ford truck, car or tractor, consider using Dennis Carpenter restoration parts.

FLAT RATE SHIPPING

ON ALL DOMESTIC GROUND ORDERS*
*RESTRICTIONS APPLY. SEE ADDITIONAL DETAILS BELOW

\$99 or LESS get \$9.99 SHIPPING
\$100 or MORE get \$14.99 SHIPPING

Must ship by "ground" service within the contiguous US. (This excludes Alaska, Hawaii, and Puerto Rico. Normal carrier rates apply.)

Domestic Air and International service is not included. Normal carrier rates apply. Even though an order requires multiple packages or if any of the packages are oversized, bulky, and/or heavy, the shipping is still \$14.99 excluding items that require "Freight Truck Shipping". Any "domestic ground" order with a total parts value under \$100.00 will be charged a \$9.99 minimum shipping rate. These rates include insurance and handling.

Items such as hoods, bedsides, 12' bedstrips, doors, fenders, quarter panels require freight truck shipping. Items that require freight truck shipping are noted in catalog. If items requiring freight truck shipping are ordered with flat rate items, all items will be included for the same freight truck rate. See right for more details.

Preferred Carriers

Our preferred carriers are FedEx, UPS, and USPS for all parcel shipments. No other carriers are used. No exceptions.

FedEx

Special Handling:

Retail orders requiring special handling other than flat rate ground shipping will be estimated as shown below: The prices are estimates only. Actual shipping charges will apply.

Air Shipments

	Sm. Pkg.	Med. Pkg.	Lg. Pkg.
Next Day Air:	\$40.00	\$100.00	\$200.00
Sec. Day Air:	\$30.00	\$75.00	\$170.00

Freight Truck Shipment

	Shipping Fee	Crating Fee (if applicable)
Residential Address	\$350.00	\$75.00
Commercial Address	\$350.00	\$75.00

Standard Lift Gate Fee for both Residential and Commercial addresses is \$25.00. An additional \$40.00 will be charged on orders delivered to a residential address. Depending on carrier this fee may be waived for orders delivered to a commercial address.

Excessive length items (96" to 143") are subject to an additional \$50.00.

Crating Fees (when applicable) are automatically added to shipping charges.

Freight Truck Shipping fees above are estimates only. Actual freight shipping charges will be applied when the order is shipped and invoiced. Items that require a freight truck cannot be included with flat rate shipping.

International Shipments (All Except Canada)

When calculating shipping for international orders, please use 60% of the order total parts value or \$60.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. International orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Canadian and Mexico Shipments

When calculating shipping for Canadian and Mexico orders, please use 40% of the order total parts value or \$48.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. Canadian orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Merchandise Returns:

- 1) All sales are considered final with the exception of warranty claims and merchandise shipped in error.
- 2) All returned merchandise must be in original packaging and is subject to inspection and approval prior to credit or exchange. Must be in new sale condition as determined by Carpenter Industries.

It is the customer's responsibility to check parts for correct fit BEFORE installation.

Any part that has been installed, disassembled, drilled, welded, cut, painted, or modified in any way, or is missing kit components is NOT eligible for return.

Electrical items that have NOT been installed and/or plugged in are eligible for return.

Electrical items that are authorized for return are still subject to inspection and approval prior to credit and/or exchange.

No returns accepted on any literature.

Any installation, disassembly or modification by a third party on the behalf of customer does not constitute an exception to our policy. Purchaser retains full responsibility for the condition of the part.

- 3) Returns within 30 days of invoice date are acceptable, any returns received after 30 days are subject to a 20% restocking fee. Returns after 180 days are subject to a 50% restocking fee.
- 4) **Absolutely NO returns accepted after one year from date of purchase. No exceptions.**
- 5) ALL RETURNS MUST HAVE A RETURN AUTHORIZATION (RA) NUMBER. Please call 1-800-476-9653, option 2, to obtain an RA number. Please have your purchase invoice number available when calling. C.I. is NOT responsible for unauthorized returns.
- 6) All returns must be shipped "pre-paid" and fully insured. COD or collect returns will not be accepted. In cases where a return is due to our error, "pre-paid" shipping charges will be refunded.
- 7) Refunds will be issued based upon the method of payment. (i.e. cash for cash purchases, credit on a credit card for credit card purchases, etc.). On returns due to our error, your shipping expense will be reimbursed based only upon carriers charges.
- 8) All returns should be sent to: Carpenter Industries, Inc.
21 Carpenter Court NW
Concord NC 28027

Claims:

All claims must be taken up with Dennis Carpenter Restorations.

Please inspect all orders for damage and/or errors immediately upon receipt. Report all discrepancies to Carpenter Industries at 1-800-476-9653, option 2, within 7 days of receipt. No claims accepted after 7 days.

Please hold all original boxes and packaging materials for the carrier to inspect.

Warranty

We guarantee to replace or at our option, repair any product or parts which are found to be defective in material or workmanship within one year from the date of shipment. Our obligation with respect to such products or parts shall be limited to replacement or repair and in no event shall we be liable for consequential or special damages, or for transportation, installation, adjustment, or other expenses which may arise in connection with such products or parts. THIS WARRANTY EXPRESSLY MADE IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS.
