

# 1967-79 TRUCK

## 2022

Ford Trademarks and Trade Dress Used  
Under License to Dennis Carpenter.

Weather Stripping, Plastic Lenses,  
Sheet Metal & more

**HIGHER QUALITY**  
**LOWER PRICES**

**Includes:**  
**1978-79 Ford Bronco**

## ***Made Right, Fits Right & Last Longer***

All of the parts in this catalog, with the exception of new old stock Ford parts, are reproduction or equivalent replacement type parts of Ford Motor Company parts and are represented or referenced by original Ford part numbers.

Reproduction Ford parts made from obsolete Ford tooling that are

licensed by but not manufactured by Ford are identified as Classic Parts From Original Tooling.

A reproduction part that duplicates a Ford licensed by but not manufactured by Ford is identified as an Official Licensed Product.

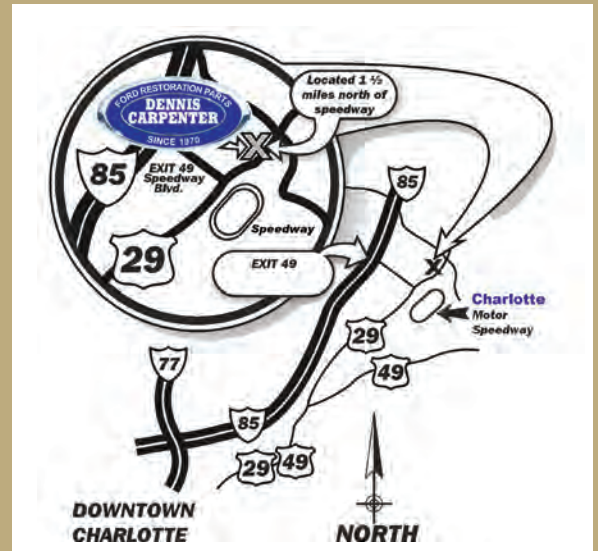

## ***QUALITY HAS A NEW LOCATION***

From humble beginnings in the basement, to the same building for 40 years, our showroom, order fulfillment & call center have now relocated to our new 90,000 square foot facility, to better serve you, our customers.

Located just 1 1/2 miles north of Charlotte Motor Speedway  
Our new address is 21 Carpenter Court NW Concord, NC 28027

*Curbside Pickup Available  
Call for Details 704-786-8139*

We attempt to maintain prices as published in the catalog. Due to the fact that we purchase materials from many manufacturers, we are not able to control all product costs. If the supplier goes up, we must raise our prices accordingly. As a result, our prices do change periodically and without notice. Please feel free to contact us for confirmation on current prices.

Errors in typographical content, pricing and imagery are subject to correction and may change without notice. C.I. will not be held liable or responsible if any inaccuracy exists in specifications or pricing. Applications listed in this catalog are based on original factory information. However, variances, will occur due to non-documented substitutions and changes made during the vehicles production.

This catalog supersedes all previous editions, including prices. All rights reserved. No part of this publication may be copied, reproduced, stored in any retrieval system, communicated or transmitted in any form by any means without prior approval.

*Carpenter Industries Inc.*

Dennis Carpenter Ford Restorations is a manufacturer and retailer of restoration Ford Parts and Accessories. With Dennis Carpenters you can be sure you're getting a part that is made right, fits right and lasts longer at a great price.

# Celebrating 50 Years

A look at how  
Dennis Carpenter  
Ford Restoration Parts  
has grown over  
the years.

## FIRST BUILDING

Purchased in 1973, it still stands today.

**1971**

Dennis takes out a 2nd mortgage on his house and buys a bigger injection molding machine for making better quality knobs in larger quantities. He moves his part time business from home into a rented vacant railroad depot.

**1972**

Dennis realizes that the weatherstripping and seals he purchased for his 1940 had hardened, cracked, and needed replacement after 6 months. He is determined to make premium quality weatherstripping for his 1940. Due to minimum production requirements, he starts selling the extras.

**1973**

Sales of his quality dash knobs and seals takes off, so he quits his full time job as a purchaser at a local textile plant. He buys a 5,000 sq. ft. building on Hwy 29 in Concord, NC. which is still located in the front of the business today. A late night train derailment forces a rush move into the building.

**1974**

Dennis purchases 25 acres of land behind his business for \$75,000.

**1976**

Dennis builds a 10,000 sq. ft. building next to the first one and remembers thinking that he was set for life as far as buildings go. Little did he know that it would eventually grow to be over 300,000 sq. ft.

**1977**

Dennis purchases two used stamping presses for making stamped metal parts and a used die casting machine for making emblems.

**1978**

Dennis hires his first tool and die man for making tooling for more new parts. He also purchases his first new Bridgeport milling machine.

**1979**

Growth of the company continues, and he builds a 25,000 sq.ft. warehouse and showroom that are still in use today.

**1987**

Because of inconsistent size and hardness of rubber from outside suppliers, Dennis decides to develop his own rubber extruding operation from a desire to offer the very best quality weatherstripping and seals.

**1969**

Dennis starts restoration on his 1940 Ford convertible, realizes the need for plastic knobs and convinces an antique car friend into developing tooling for making them. In this photo, Dennis' son Daniel stands beside his dad's disassembled Ford.

**1970**

Dennis takes extra dash knobs that he made to the Hershey AACA car show and sells out. Realizing that he is able to support his hobby, he continues to develop all dash knobs for 1932-48 Fords.

Daniel Carpenter and Dennis Carpenter

“Our company’s success is attributed to providing our customers with what they want- **quality products.**”

-DENNIS CARPENTER

**2010**

Edsel Ford II arrives at Carpenter Industries to tour the facilities.

**2011**

We transition to a new software and computer system after being on an old unix based system since 1991.

**2013**

We launch our all new user friendly web store.

**2019**

Major upgrades are made to manufacturing equipment and shipping procedures at Carpenters to facilitate positive company growth.

Dennis’ years of experience is a valuable asset to Daniel who is continuously improving the evolution of Dennis Carpenter Ford Restoration Parts. As for the plastic dash knobs Dennis made for his 1940 Ford years ago, they still look great!

**1990**

Dennis buys more plastic injection machines and develops more plastic parts. He also starts making Cushman Motor Scooter parts in an effort to keep his employees busy in a bad economy.

**3001**

**1993**

Ford Motor Company works with Dennis to become the first official Ford licensee for products made with the Ford name or logo on them.

**1994**

Dennis (the original American picker) fulfills a dream in building a museum to house his long time collection of Fords, Ford memorabilia, Cushman scooters, tractors, and Americana.

**1998**

Ford Motor Company works with Dennis and his son Daniel on a pilot program to start using the original Ford tooling for parts they were no longer selling.

**0001**

**2000**

The Original Ford Tooling program becomes official. We buy bigger machines and build more buildings to take in these large tools and run them. We continue to count it a privilege to have Ford’s trust and now have hundreds of original Ford tools in use. Ford traditionally scraps tools they are finished with. We are honored to save these tools from scrap for continued use, so we can make products for all the restorers out there that need them.

**2003**

Our biggest warehouse is built with 48,000 sq. ft. of high stack storage.

**2005**

Daniel Carpenter purchases the company from Dennis on a payment plan. Dennis is now able to focus on his core strength of developing new products and working with the tool makers.

**2009**

The economic downturn forces us to cut back and examine our ways but not one of our employees is laid off during the whole downturn. We are able to purchase some much needed equipment such as a digitizer and CNC machines at bargain prices from companies that were going out of business during this time.

## HUB CAPS

| PART #       | PIC | TYPE               | DESCRIPTION            | DESCRIPTION                   | NOTE                | MODEL    | YEAR  | PRICE      |

# We're proud to say that 99% of our plastic parts are made in the U.S.A.

taillight / park light lenses, grilles, dash knobs, emblems, bushings and more

[dennis-carpenter.com](http://dennis-carpenter.com)

Team Leader Daniel Carpenter and company founder Dennis Carpenter

As a kid I was at my dad's side when he hand-poured our first plastic dash knobs for our 1940 Ford convertible in an unfinished room of our home. Demand for these was strong because no one had made factory correct replacement dash knobs, and good originals were impossible to find. The business was birthed, and soon thereafter, my dad purchased our first plastic injection molding machine for making large runs of higher quality knobs. He decided to make all of our knobs from the very best material available. To this day, the knobs on our 1940 Ford still look as good as the day when they were installed back in the 1970's.

Today we now have 12 plastic injection molding machines ranging from 75 tons up to 500 tons capacity. We

could use cheaper quality materials like some imports to cut cost, but instead we use the best automotive grade plastics available. We use material with UV stabilizer to hold the color in sunlight (red taillight lenses would fade without this added stabilizer) and material with impact modifier to make the plastic parts more durable and less likely to crack than the originals. In 1998 Ford granted us the honor to begin using the original Ford factory tooling and today we make many plastic parts from the original Ford tools.

I am proud that we make quality parts in the USA, and I am honored to carry on the business that my dad started.

We appreciate your business!

**Daniel and Dennis Carpenter**

1967-72 F-100 styleside taillight lens

1973-79 F-100 interior door panel

1965-66 F-100 Custom Cab dash bezel

Plastic injection molding operations to make dash knobs, light lenses, emblems

An opened injection mold used for making 1974-77 F-100-350 steering wheels

A 500 ton plastic injection machine is used to make larger parts such as fan shrouds and door panels

\*Headline percentage is based on total sales of products made from Dennis Carpenter tooling and original Ford tooling.

## & 78-79 Bronco

\* symbol after part number designates part also fits 78-79 Ford Bronco

METAL FORMING

PLASTIC INJECTION

RUBBER MOLDING

### Made of Plastic

In 1970 Dennis Carpenter made his first plastic parts, 1940 Ford dash knobs. Today the company uses 12 plastic injection machines ranging from 75 to 500 ton capacities making grilles to taillights and many parts in between. We use the best automotive grade materials enriched with UV stabilizers and impact modifiers to make parts with greater resistance to color-fading and increased durability.

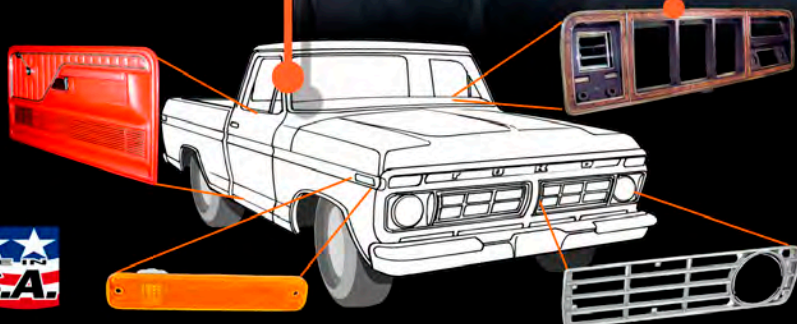

We feel that our long time experience in manufacturing is reflected in the superior quality of our products.

Use Dennis Carpenter parts on **YOUR** classic Ford truck.

# We Are Ford Specialists

Manufacturing Quality Parts Since 1970

# We are Ford Specialists

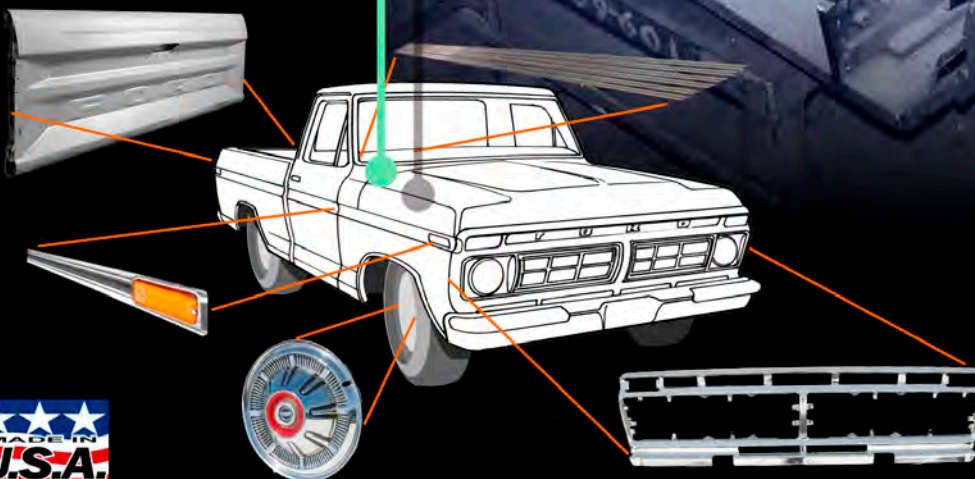

Manufacturing Quality Parts Since 1970

## Metal Ford Parts Made In USA

### Meet The Presses

Pressing steel into Ford parts is performed in the metal stamping division at Dennis Carpenters. Forty-two different presses, ranging from one to five-hundred ton compression capacities, are on hand and are capable of stamping stainless steel into hub caps or pressing sheet steel into rocker panels.

Our company has been stamping steel, injecting plastic, and molding rubber into quality Ford parts in the USA since 1970. If you have the desire to restore a classic Ford pickup, car, or tractor, consider using Dennis Carpenter Ford Restoration Parts.

# We're proud to say that 95% of our stamped metal parts are made in the U.S.A.

scuff plates, tailgates, grilles, hub caps, bumpers, rocker panels and more

*Daniel Carpenter*  
Carpenter Team Leader

In the late 1970's my dad hired a couple of metal stamping tool and die makers, and we started making scuff plates and other stamped metal parts for restoring old Fords. In 1998 Ford granted us the honor to begin using the original Ford factory tooling, and we began stamping out tailgates, grilles, body moldings and more. We had to buy bigger presses to run these large tools and build more buildings to house everything. In 2002 Ford's supplier that made their hub caps went out of business, and we purchased six of the original presses from their production line, so that we could continue making hub caps from the original Ford tooling.

Today we have over 160 employees at our facility in Concord, NC, and we have 48 metal stamping presses ranging from 50 to 500 tons of stamping pressure. We have 3 roller mills that are used to make body moldings, bed strips, scuff plates and more. Our tool and die department is responsible for building new tools and for maintaining the older ones. The welding department assembles tailgates, grilles and various other metal parts that we make.

I am proud that we make quality parts in the USA, and I'm honored to carry on the business that my dad started.

We appreciate your business!

*Daniel and Dennis Carpenter*

1961-66 F-100 headlight bezels

1957-58 Ford car scuff plates

1967-72 F-100 style side tailgates

This row of six 185 ton presses is used to stamp stainless steel sheets into Ford car hub caps.

Seven stamping operations are required to make one 1961-66 F-100 headlight bezel.

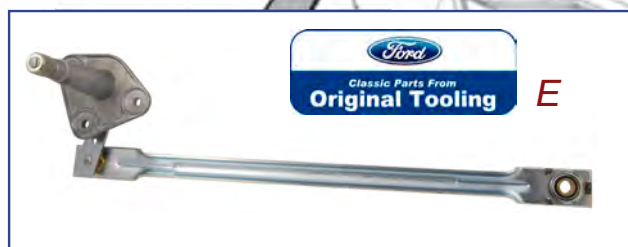

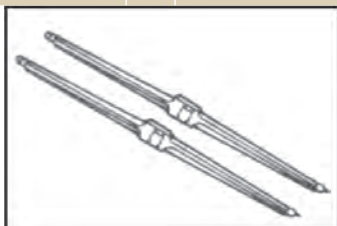

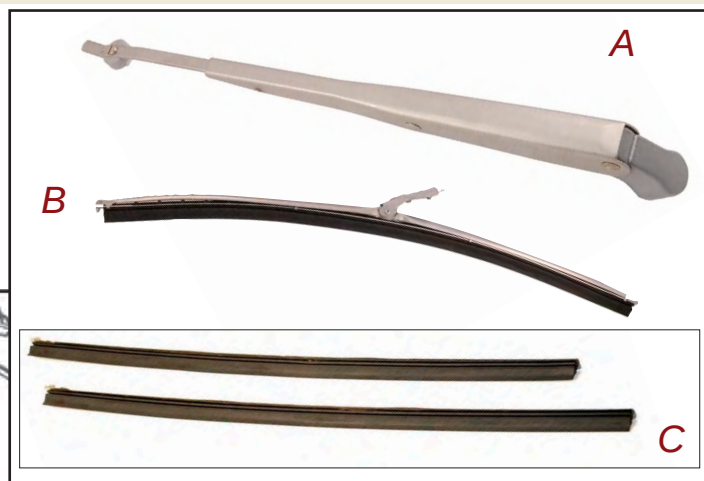

A 150 ton press is used to pierce the mounting holes in our stainless steel 1948-52 Ford truck front bumpers.

What you should know about  
Dennis Carpenter Weather Stripping.  
*(It's the last one you'll ever have to replace.)*

**PREMIUM<sup>LINE</sup>**  
**WEATHER STRIPPING**

*by Dennis Carpenter*

**Made Right, Fits Right, Lasts Longer**

4140 Concord Parkway South   Concord, North Carolina 28027   U.S.A. PH. 704.786.8139   800.476.9653   EMAIL: [info@dennis-carpenter.com](mailto:info@dennis-carpenter.com)

## 1. WE MAKE IT.

**Designed, Engineered and  
Manufactured by Dennis Carpenter.**

Our rubber extrusion department is capable manufacturing up to 35,000 feet daily of specially formulated EPDM rubber to make our quality windshield and rear window seals. We use the same machinery to extrude thousands of feet of soft sponge rubber which is an integral component of producing our door, roof rail and trunk seals. With over forty-five years of experience Dennis Carpenter is the leading manufacturer and distributor of superior quality Ford weatherstripping and molded rubber parts.

Over 99% of our Dennis Carpenter Weather Stripping is made right here in Concord, NC, USA. We are proud to be the largest manufacturer of Ford Restoration parts made in the United States.

## 2. IT'S THE VERY BEST.

**Why is Dennis Carpenter WEATHER STRIPPING  
the absolute best on the market?**

Combine 45 plus years of manufacturing experience with 60 durometer E.P.D.M. dense rubber compound and you get a rear window seal that not only holds 50 lbs. of safety glass in place but better resists drying and shrinking from the sun's harmful ultraviolet rays.

At Dennis Carpenter Reproductions beginning with quality ingredients is the secret to making quality weather stripping products. Our attention to detail and quality control ensures that you're getting a premium product that is the absolute best on the market.

**EXCELLENT DETAIL**

Since we use the original Ford injection molds to make our 1973-79 F100 interior door panels the details are spot on, showing every stitch and every curve of original door panels.

**QUALITY CONSTRUCTION**

Quality construction comes from the fact that the eight retainers that secure the fasteners to the door panel are molded as part of the panel providing strong attachment points that won't come apart like other reproduction panels that rely on laminated retainers

**AUTHENTICITY**

This logo is made into the mold that we use. It's shows on the back side of every door panel that we make.

**ORIGIN OF PRODUCTION**

This statement is also made into the mold that we use. It too shows on the back side of every door panel that we make, and proudly so.

- **Heavy duty OEM style fabric**
- **CAD Design**
- **Easy push button release**
- **Ideal for all types of vehicles including street rods.**

## Seat Belt MOUNTING BRACKET

**Safety First!** *Seat belt anchor kits are ideal for reinforcing your mount for all seat belts. Belt anchors reduce the chance of the belt bolt tearing through the floor when the belt is under load. Rounded corners ensure that your belt will not tear from impact or normal use. Ideal for all applications. Hardware included.*

## What does it mean? In short, it means Ford parts made EXACTLY like originals

ORIGINAL TOOLING describes the stamping dies, injection molds, roller dies and other tools of mass production that the Ford Motor Company used to manufacture the parts necessary to assemble their cars and trucks. (See ORIGINAL TOOLING below.)

FORD Logo - A most important logo assuring customers of the true origin and authenticity of the classic parts produced from this program. They're also the company responsible for making the tooling in the first place.

0 0 0 1 - These numbers identify Dennis Carpenter Ford Restorations as the first member of a select group to manufacture parts off original tooling, parts which comply with quality standards established by Dennis Carpenter and the Ford Motor Company. What this means is that we've dusted off certain tooling and started using them again, continuing to make quality parts as good or better than the Ford originals.

## ORIGINAL TOOLING in Action!

On the right is half of a 1966 Galaxie hub cap forming die mounted in a press. The first stamping operation of making the hub cap is shown below. Each cap proceeds through 9 different stamping operations before completion.

### 1966 FORD GALAXIE 15" HUB CAPS

Our stamped stainless steel hubcaps are shaped and chrome plated EXACTLY Like the Ford Originals and are available with red or rose colored center caps. Red center cap #C6AZ-1130-G Rose center cap #C6AZ-1130-A

## ENGINE COMPARTMENT DECALS

## MAKE YOUR 1967-72 FORD PICKUP A WINNER

Roy Howard, our restoration expert poses above with the 1967 Ford Pickup used as the model in this "how-to" demonstration story.

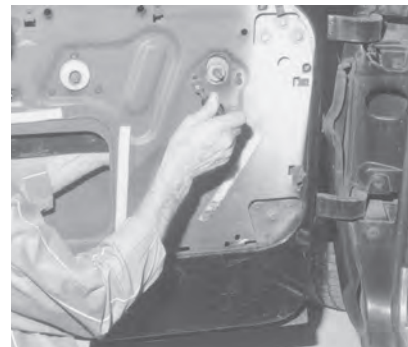

Kit used in the demonstration include anti-rattlers, door glass runs, and division bar glass runs. Vent window seals are not part of the kit and must be ordered separately.

Begin by removing the door and window handles, then, using the proper tool as illustrated, carefully remove the decorative door trim which is secured by small clips.

Next, unscrew the screws that hold the panel to the door frame. Then remove the arm rest with the entire door panel.

To permit easy removal of the division bar and vent window, remove the door glass from the window regulator to rest at the inside bottom of the door. Then begin unbolting the window regulator.

Now remove the window regulator.

Then remove the bolt that connects the division bar to the door frame.

Now remove the screw that holds the vent window frame to the door frame and remove the complete vent window unit and the division bar up through the window opening.

Mark the place on the division bar channel where it and the vent window channel join to note the position where they should go back together during re-assembly.

ON the bench, remove the screw attaching the vent window to its frame

Carefully bend back teh tab at the bottom of the division bar to remove the door glass run.

On the bench, remove the bottom nut on the vent window pivot shaft, but take note of the number of washers and their position for correct re-assembly. Then remove the glass from the frame.

Secure the vent window frame in a vise and drill out the rivets connecting the vent window rubber channel.

Now remove the door glass run from the division bar, replace the new runner and prepare to re-assemble the entire unit by repeating steps back from this point.

When installing new division bar glass run, allow extra 1/8" beyond the top of the division bar to assure a tight fit to door frame.

After re-installing vent window and division bar and re-bolting into door frame, install new door glass runner by inserting runner down into door frame.

At this point, ensure door glass runner has a tight fit into the door frame using an appropriate tools.

Install anti-rattlers. Complete re-assembly by re-installing window regulator, door glass, door panel and hardware.

## FLAT RATE SHIPPING

ON ALL DOMESTIC GROUND ORDERS\*  
\*RESTRICTIONS APPLY. SEE ADDITIONAL DETAILS BELOW

**\$99 or LESS get \$9.99 SHIPPING**  
**\$100 or MORE get \$14.99 SHIPPING**

Must ship by "ground" service within the contiguous US. This excludes Alaska, Hawaii, and Puerto Rico. Normal carrier rates apply.

Domestic Air and International service is not included. Normal carrier rates apply. Even though an order requires multiple packages or if any of the packages are oversized, bulky, and/or heavy, the shipping is still \$14.99 excluding items that require "Freight Truck Shipping". Any "domestic ground" order with a total parts value under \$100.00 will be charged a \$9.99 minimum shipping rate. These rates include insurance and handling.

Items such as hoods, bedsides, 12' bedstrips, doors, fenders, quarter panels require freight truck shipping. Items that require freight truck shipping are noted in catalog. If items requiring freight truck shipping are ordered with flat rate items, all items will be included for the same freight truck rate. See right for more details.

### Preferred Carriers

Our preferred carriers are FedEx, UPS, and USPS for all parcel shipments. No other carriers are used. No exceptions.

**FedEx**

## Special Handling:

Retail orders requiring special handling other than flat rate ground shipping will be estimated as shown below: The prices are estimates only. Actual shipping charges will apply.

### Air Shipments

|               | Sm. Pkg. | Med. Pkg. | Lg. Pkg. |
|---------------|----------|-----------|----------|
| Next Day Air: | \$40.00  | \$100.00  | \$200.00 |
| Sec. Day Air: | \$30.00  | \$75.00   | \$170.00 |

### Freight Truck Shipment

|                     | Shipping Fee | Crating Fee if applicable |
|---------------------|--------------|---------------------------|
| Residential Address | \$250.00     | \$75.00                   |
| Commercial Address  | \$250.00**   | \$75.00                   |

\*\*Lift Gate Fees are included in estimates above and range from \$30 to \$40. Depending on carrier this fee may be waived for orders delivered to a commercial address.

Freight Truck Shipping fees above are estimates only. Actual freight shipping charges will be applied when the order is shipped and invoiced. Items that require a freight truck cannot be included with flat rate shipping.

### International Shipments All Except Canada

When calculating shipping for international orders, please use 60% of the order total parts value or \$60.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. International orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

### Canadian Shipments

When calculating shipping for Canadian orders, please use 30% of the order total parts value or \$48.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. Canadian orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

## **Merchandise Returns:**

- 1 All sales are considered final with the exception of warranty claims and merchandise shipped in error.
- 2 All returned merchandise must be in original packaging and is subject to inspection and approval prior to credit or exchange. Must be in new sale condition as determined by Carpenter Industries.

***It is the customer's responsibility to check parts for correct fit BEFORE installation.***

Any part that has been installed, disassembled, drilled, welded, cut, painted, or modified in any way, or is missing kit components is NOT eligible for return.

**Electrical items that have NOT been installed and/or plugged in are eligible for return.**

Electrical items that are authorized for return are still subject to inspection and approval prior to credit and/or exchange.

No returns accepted on any literature.

Any installation, disassembly or modification by a third party on the behalf of customer does not constitute an exception to our policy. Purchaser retains full responsibility for the condition of the part.

- 3 Returns within 30 days of invoice date are acceptable, any returns received after 30 days are subject to a 20% restocking fee. Returns after 180 days are subject to a 50% restocking fee.
- 4 **Absolutely NO returns accepted after one year from date of purchase. No exceptions.**
- 5 ALL RETURNS MUST HAVE A RETURN AUTHORIZATION RA NUMBER. Please call 1-800-476-9653, option 2, to obtain an RA number. Please have your purchase invoice number available when calling. C.I. is NOT responsible for unauthorized returns.
- 6 All returns must be shipped "pre-paid" and fully insured. COD or collect returns will not be accepted. In cases where a return is due to our error, "pre-paid" shipping charges will be refunded.
- 7 Refunds will be issued based upon the method of payment. i.e. cash for cash purchases, credit on a credit card for credit card purchases, etc.. On returns due to our error, your shipping expense will be reimbursed based only upon carriers charges.
- 8 All returns should be sent to: Carpenter Industries, Inc.  
21 Carpenter Court NW  
Concord NC 28027

## **Claims:**

*All claims must be taken up with Dennis Carpenter Restorations.*

*Please inspect all orders for damage and/or errors immediately upon receipt. Report all discrepancies to Carpenter Industries at 1-800-476-9653, option 2, within 7 days of receipt. No claims accepted after 7 days.*

*Please hold all original boxes and packaging materials for the carrier to inspect.*

## **Warranty**

*We guarantee to replace or at our option, repair any product or parts which are found to be defective in material or workmanship within one year from the date of shipment. Our obligation with respect to such products or parts shall be limited to replacement or repair and in no event shall we be liable for consequential or special damages, or for transportation, installation, adjustment, or other expenses which may arise in connection with such products or parts. THIS WARRANTY EXPRESSLY MADE IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS.*

Dennis Carpenter Ford Restoration designs, engineers and manufactures it's own brand of quality Weather Stripping, 99% of which is made here in Concord, NC in our Rubber Extrusion department.

• **Back Window Rubber** • **Trunk Rubber** • **Vent Window Seals** • **Windshield Rubber** • **Door Seals**

21 Carpenter Court NW  
Concord NC 28027

## Competitor Brand

- Made kinda like original
- Cheap Materials
- Cracks and fades

VS

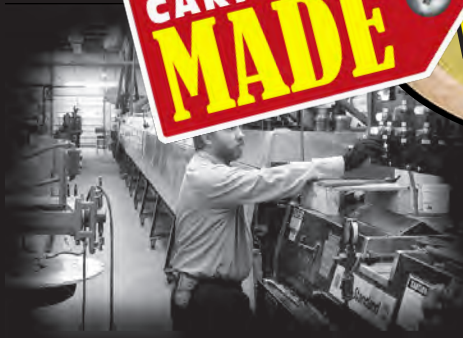

## Carpenter Brand

- Exact fit and mold
- Made exact of original
- Quality Materials
- Long Lasting

After 6 months  
outside in the sun.

**PREMIUM<sup>LINE</sup>**  
**WEATHERSTRIPPING**  
*by Dennis Carpenter*

With over forty-five years of experience Dennis Carpenter is the leading manufacturer and distributor of superior quality Ford weatherstripping and molded rubber parts. Our rubber extrusion department is capable of manufacturing 25,000 feet of specially formulated EPDM rubber to make our quality windshield and rear window seals.

# **Made Right, Fits Right, Lasts Longer**
