Weather Stripping • Taillight Lenses • Sheet Metal • & more!

Oct. 2017

**HIGHER QUALITY
LOWER PRICES**

***Made Right,
Fits Right & Last Longer***

All of the parts in this catalog, with the exception of new old stock Ford parts, are reproduction or equivalent replacement type parts of Ford Motor Company parts and are represented or referenced by original Ford part numbers.

Reproduction Ford parts made from obsolete Ford tooling that are licensed by but not manufactured by Ford are identified as Classic Parts From Original Tooling.

A reproduction part that duplicates a Ford licensed by but not manufactured by Ford is identified as an Official Licensed Product.

CARPENTER SHOWROOM

Be sure to visit our retail showroom in Concord, North Carolina, where you can purchase parts or browse our parts displays. We are located just 1 1/2 miles north of the Charlotte Motor Speedway.

Showroom Hours: **Mon. - Fri. 8am - 5 pm • Sat 9am - 12 noon (EST)**

We attempt to maintain prices as published in the catalog. Due to the fact that we purchase materials from many manufacturers, we are not able to control all product costs. If the supplier goes up, we must raise our prices accordingly. As a result, our prices do change periodically and without notice. Please feel free to contact us for confirmation on current prices.

Errors in typographical content, pricing and imagery are subject to correction and may change without notice. C.I. will not be held liable or responsible if any inaccuracy exists in specifications or pricing. Applications listed in this catalog are based on original factory information. However, variances, will occur due to non-documented substitutions and changes made during the vehicles production.

This catalog supersedes all previous editions, including pricing. All rights reserved. No part of this publication may be copied, reproduced, stored in any retrieval system, communicated or transmitted in any form by any means without prior approval.

Carpenter Industries Inc.

Celebrating 47 Years

A look at how
Dennis Carpenter
Ford Restoration Parts
has grown over
the years.

1969

Dennis starts restoration on his 1940 Ford convertible, realizes the need for plastic knobs and convinces an antique car friend into developing tooling for making them. In this photo, Dennis' son Daniel stands beside his dad's disassembled Ford.

1970

Dennis takes extra dash knobs that he made to the Hershey AACA car show and sells out. Realizing that he is able to support his hobby, he continues to develop all dash knobs for 1932-48 Fords.

FIRST BUILDING

Purchased in 1973, it still stands today.

1971

Dennis takes out a 2nd mortgage on his house and buys a bigger injection molding machine for making better quality knobs in larger quantities. He moves his part time business from home into a rented vacant railroad depot.

1972

Dennis realizes that the weatherstripping and seals he purchased for his 1940 had hardened, cracked, and needed replacement after 6 months. He is determined to make premium quality weatherstripping for his 1940. Due to minimum production requirements, he starts selling the extras.

1973

Sales of his quality dash knobs and seals takes off, so he quits his full time job as a purchaser at a local textile plant. He buys a 5,000 sq. ft. building on Hwy 29 in Concord, NC, which is still located in the front of the business today. A late night train derailment forces a rush move into the building.

1974

Dennis purchases 25 acres of land behind his business for \$75,000.

1976

Dennis builds a 10,000 sq. ft. building next to the first one and remembers thinking that he was set for life as far as buildings go. Little did he know that it would eventually grow to be over 300,000 sq. ft.

1977

Dennis purchases two used stamping presses for making stamped metal parts and a used die casting machine for making emblems.

1978

Dennis hires his first tool and die man for making tooling for more new parts. He also purchases his first new Bridgeport milling machine.

1979

Growth of the company continues, and he builds a 25,000 sq. ft. warehouse and showroom that are still in use today.

1987

Because of inconsistent size and hardness of rubber from outside suppliers, Dennis decides to develop his own rubber extruding operation from a desire to offer the very best quality weatherstripping and seals.

Daniel Carpenter and Dennis Carpenter

“Our company’s success is attributed to providing our customers with what they want- **quality products.**”

-DENNIS CARPENTER

1990

Dennis buys more plastic injection machines and develops more plastic parts. He also starts making Cushman Motor Scooter parts in an effort to keep his employees busy in a bad economy.

3001

1993

Ford Motor Company works with Dennis to become the first official Ford licensee for products made with the Ford name or logo on them.

1994

Dennis (the original American picker) fulfills a dream in building a museum to house his long time collection of Fords, Ford memorabilia, Cushman scooters, tractors, and Americana.

1998

Ford Motor Company works with Dennis and his son Daniel on a pilot program to start using the original Ford tooling for parts they were no longer selling.

0001

2000

The Original Ford Tooling program becomes official. We buy bigger machines and build more buildings to take in these large tools and run them. We continue to count it a privilege to have Ford's trust and now have hundreds of original Ford tools in use. Ford traditionally scraps tools they are finished with. We are honored to save these tools from scrap for continued use, so we can make products for all the restorers out there that need them.

2003

Our biggest warehouse is built with 48,000 sq. ft. of high stack storage.

2005

Daniel Carpenter purchases the company from Dennis on a payment plan. Dennis is now able to focus on his core strength of developing new products and working with the tool makers.

2009

The economic downturn forces us to cut back and examine our ways but not one of our employees is laid off during the whole downturn. We are able to purchase some much needed equipment such as a digitizer and CNC machines at bargain prices from companies that were going out of business during this time.

2010

Edsel Ford II arrives at Carpenter Industries to tour the facilities.

2011

We transition to a new software and computer system after being on an old unix based system since 1991.

2013

We launch our all new user friendly web store and introduce flat rate shipping to better serve our customers.

Dennis still works at the business everyday and enjoys every bit of it. Also, those knobs and weatherstripping he put on his 1940 convertible back in the 1970s are still good to this day.

A Snapshot of Dennis Carpenter and His Fords.

Growing up on a farm in Dover, Minnesota, Dennis Carpenter was raised with a strong work ethic and was taught early on how to use machinery and what made it work. Like many young guys he was fascinated with automobiles and by age 12 bought a 1941 Ford for \$12.00. It seemed that first car established an allegiance to Fords that Dennis would carry with him for the rest of his life.

Dennis' passion for Fords and making the parts to restore them has been the driving force at his company since 1970. From the rubber extrusion department comes Premium Line Weather Stripping products. From the stamping and injection dies comes a dynamic variety of Officially Licensed Ford and Original Ford Tooling parts. Passion can be described as "implied energetic and unflagging pursuit of an aim."

Dennis Carpenter's passion is to develop, engineer, and produce superior Ford restoration parts.

1962

Dennis with his new 1962 Galaxie. Base price was \$3,033.00. He added a push button radio for \$58.50

1960

Dennis in uniform.

1964 Dennis bought this 1956 Police car for \$160. It had a police interceptor engine with a manual transmission.

When Dennis became legal driving age he paid \$600.00 for this 1952 Mercury that also included a new set of tires. He later installed a 1956 Y Block and a manual transmission with overdrive.

1956

1960

Dennis paid \$162.50 for this 1936 Ford 5 window coupe.

1961

Dennis' first Galaxie was a beautiful 1961 convertible.

1960

Dennis on Army leave with his 1957 convertible.

TILT FLOOR SHIFT

Ididit Universal Tilt Series columns are by far our most popular steering columns and are an industry standard.

PART #	DESCRIPTION	TYPE	YEAR	PRICE
UT30-3509-FP	• Paintable Steel • 2" Tube Diameter • 1" DD Lower Shaft • 3 7/8" GM Style Wiring Plug	30" Overall Length	48-66	399.95 ea.

Features Include:

- 8 position tilt
- 4 Way Flashers
- Horn Wiring
- Standard Dress Up Kit
- Self Cancelling Turn Signal

FLOOR MOUNTS ARE ESSENTIAL FOR PROPER STEERING COLUMN INSTALLATION.

SWIVEL BALL FLOOR MOUNT

PART #	DESCRIPTION	PRICE
FFM-3513-SW	For 2" Tube - Floor Shift	134.95 ea.
CFM-3513-SW	For 2 1/4" Tube - Column Shift	134.95 ea.

The ididit swivel ball floor mount allows you to precisely position your steering column right where you want it. You can move it up, down, side to side and everything in between. A trim ring for the engine compartment side is included along with all the necessary hardware for installation. Available in polished aluminum. For aftermarket columns only.

POLISHED ALUMINUM

ADJUSTABLE FLOOR MOUNT

PART #	Pic	DESCRIPTION	YEAR	PRICE
FFM-3513-AJ	A	For 2" Tube - Floor Shift	48-66	32.95 ea.
CFM-3513-AJ		For 2 1/4" Tube - Column Shift	48-66	32.95 ea.

A

This inexpensive steel floor mount will safely secure your column at the floor board or firewall and can adjust to fit most angles, up or down.

TILT COLUMN SHIFT

The ididit Universal Tilt Column Shift column was the first on the market to feature a removable, indexable lower shift arm. With 12 possible positions, adjustability is just a turn of a wrench away! Will work with Ford, GM & Chrysler 3 or 4 speed automatic transmissions.

PART #	DESCRIPTION	TYPE	PRICE
UT30-3509-CP	• Paintable Steel • 2 1/4" Tube Diameter • 1" DD Lower Shaft • 3 7/8" GM Style Wiring Plug	30" Overall Length	614.95 ea.

Features Includes:

- 8 position tilt
- Horn Wiring
- 4-way Flashers
- Standard Dress Up Kit
- Self Cancelling Turn Signals
- Indexable Lower Shift Arm
- 12 possibel positions

- Please Note: This column does NOT come with a neutral safety switch. If you have a transmission mounted switch, a neutral safety switch on the column is not needed.

FORD OWNER'S ASSOCIATION

FORD-BODIED FORD POWERED FORD PROVEN

This association welcomes all Fords! This is for the love and enjoyment of this great American product. What is better than owning a Ford? This is a family oriented association for all ages. Our goals are: 1) To unite individuals with diverse interests, with the common goal of enjoying their Ford vehicles under one association. 2) To serve as a common interest point of unity for members of all special interest clubs featuring Ford vehicles. 3) To provide a website with areas designated for both public and membership access to

share stories, pictures, and questions. 4) To sponsor a yearly event that will be held the same time and same place every year. 5) To provide opportunities for members to come together to enjoy these vehicles, while developing new friendships, and to concentrate on the goals of having fun and getting to know other people who enjoy their Fords. 6) To encourage people to bring their vehicles to an event that will offer display classes, which concentrate on cleanliness and workmanship.

ENGINE OIL

Part #	Type	Year
H-10687	10W30	9.50 ea.
H-10688	10W40	9.50 ea.

KEY BENEFITS

- Extends oil life
- Lowers oil temperature
- Minimizes metal fatigue
- Improves pressure in worn engines
- Thicker additive film for maximum protection
- Protects against rust & corrosion during storage

- For Muscle, Classic & Trophy cars without catalytic converters
- Has ZDDP (zinc) additive for flat tappet engines
- Zinc value is 2100 PPM

We are Ford Specialists

Manufacturing Quality Parts Since 1970

Metal Ford Parts Made In USA

Meet The Presses

Pressing steel into Ford parts is performed in the metal stamping division at Dennis Carpenters. Forty-two different presses, ranging from one to five-hundred ton compression capacities, are on hand and are capable of stamping stainless steel into hub caps or pressing sheet steel into rocker panels.

Our company has been stamping steel, injecting plastic, and molding rubber into quality Ford parts in the USA since 1970. If you have the desire to restore a classic Ford pickup, car, or tractor, consider using Dennis Carpenter Ford Restoration Parts.

METAL FORMING

PLASTIC INJECTION

RUBBER MOLDING

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

Plastic Ford Parts Made In USA

Made of Plastic

In 1970 Dennis Carpenter made his first plastic parts, 1940 Ford dash knobs. Today the company uses 12 plastic injection machines ranging from 75 to 500 ton capacities making grilles to taillights and many parts in between. We use the best automotive grade materials enriched with UV stabilizers and impact modifiers to make parts with greater resistance to color-fading and increased durability.

We feel that our long time experience in manufacturing is reflected in the superior quality of our products.

Use Dennis Carpenter parts on **YOUR** classic Ford truck.

METAL FORMING

PLASTIC INJECTION

RUBBER MOLDING

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

Plastic Ford Parts Made In USA

Made of Plastic

In 1970 Dennis Carpenter made his first plastic parts, 1940 Ford dash knobs. Today the company uses 12 plastic injection machines ranging from 75 to 500 ton capacities making grilles to taillights and many parts in between. We use the best automotive grade materials enriched with UV stabilizers and impact modifiers to make parts with greater resistance to color-fading and increased durability.

We feel that our long time experience in manufacturing is reflected in the superior quality of our products.

Use Dennis Carpenter parts on **YOUR** classic Ford truck.

Classic Parts From
Original Tooling

METAL FORMING

PLASTIC INJECTION

RUBBER MOLDING

Made Right, Fits Right, Lasts Longer

Dennis Carpenter has been extruding, bonding, and molding rubber compounds into precision made Ford weather stripping products, in the USA, for nearly 50 years. The 100' long rubber extruding machine, shown on the right, makes the sponge rubber we use to make our Ford door seals.

After many years of manufacturing experience at Dennis Carpenter's, our number one priority remains a commitment to producing top quality Ford restoration parts.

With almost a half century of manufacturing experience, we're confident of the superior quality found in Dennis Carpenter products and we're certain you will too.

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

FT61-0E	A	Original	61-66	974.95
FT61-B	B	Black	61-66	974.95
FT61-T	C	Tan	61-66	974.95

This all-electric, direct fit unit mounts from the front into the stock dash of the '61-66 Ford F100. The package arrives ready to install with the included wiring pigtail, all necessary sending units, mounting hardware, and push-button calibration. Lighting is provided with warm white LEDs, a built-in dimmer, and a molded "light intensifier" ring to ensure bright, even light across the entire cluster. Indicator lights include left and right turn signal as well as a red "halo" high beam hidden at the top of the tachometer.

- 5 3/4" hole size for mounting
- 6 1/4" overall outside diameter
- Stainless Low Step Bezels
- Flat Glass Lenses
- Pool Cue Pointers
- Fuel Calibrated to 240-33 ohms

INSTRUMENT CLUSTER VOLTAGE REGULATOR

Controls Voltage to Gas & Temp.
Gauge w/o printed circuit

Part #	B9MZ-10804-C
Model	F100/1100
Year	1961-66
Price	21.95 ea.

New solid state technology for smooth gauge performance. No adjustment needed. If your gauges have stopped working or are reading incorrectly, this is usually the problem.

PRO TECH TIP:

Unhook the ground wire from the battery before installing the new cluster voltage regulator.

What you should know about Dennis Carpenter Weather Stripping.

(It's the last one you'll ever have to replace.)

Made Right, Fits Right, Lasts Longer

4140 Concord Parkway South Concord, North Carolina 28027 U.S.A. PH. 704.786.8139 800.476.9653 EMAIL: info@dennis-carpenter.com

1. WE MAKE IT.

**Designed, Engineered and
Manufactured by Dennis Carpenter.**

Our rubber extrusion department is capable manufacturing up to 35,000 feet daily of specially formulated EPDM rubber to make our quality windshield and rear window seals. We use the same machinery to extrude thousands of feet of soft sponge rubber which is a integral component of producing our door, roof rail and trunk seals. With over forty-five years of experience Dennis Carpenter is the leading manufacturer and distributor of superior quality Ford weatherstripping and molded rubber parts.

Over 99% of our Dennis Carpenter Weather Stripping is made right here in Concord, NC, USA. We are proud to be the largest manufacturer of Ford Restoration parts made in the United States.

2. IT'S THE VERY BEST.

**Why is Dennis Carpenter WEATHER STRIPPING
the absolute best on the market?**

Combine 45 plus years of manufacturing experience with 60 durometer E.P.D.M. dense rubber compound and you get a rear window seal that not only holds 50 lbs. of safety glass in place but better resists drying and shrinking from the sun's harmful ultraviolet rays.

At Dennis Carpenter Reproductions beginning with quality ingredients is the secret to making quality weather stripping products. Our attention to detail and quality control ensures that you're getting a premium product that is the absolute best on the market.

100% of our original Ford Tooling parts are made in the U.S.A.

steering wheels, hub caps, fenders, grilles, door panels, side moldings and more

Restore YOUR Ford

www.dennis-carpenter.com

Daniel Carpenter and
company founder Dennis Carpenter

1957 Ford Car Hub Caps

We are honored and very thankful to Ford for allowing us to save many of the original Ford factory tools from the scrap pile. With these original factory tools we are able to continue serving restorers like you with quality parts that have the original factory fit and finish and are made in the USA.

In 1998 we started bringing these original tools to our facility. We soon realized that we needed to buy bigger presses to run these large tools and needed to build more buildings to house everything. For example, in 2002 we learned that Ford's supplier that had made their hub caps since the 1950's was going out of business. We purchased six of the

original presses from their production line, so that we could continue making hub caps from the original Ford tooling. With the future in mind, we continue bringing in more original tools that Ford has quit using for 1970-1990's pickup truck parts.

When you see the above symbol on a part, rest assured that it will have the factory fit and finish and it was proudly made in the USA.

We appreciate your business!

Daniel and Dennis Carpenter

1973-79 F-100 Interior Door Panels

Bronco and F-100 Tailgates

Welding original Ford tooling 1966-77 Bronco tailgates.

Thousands of original Ford tools are stored in several warehouses at the Carpenter facility.

This press is fitted with a 3-stage progressive stamping die that makes 1977-79 F-100 race-track moldings.

* Headline derived from the fact that all leased Ford tooling remains in the USA.

Year	1953-72
Price	374.95 ea.

**For Use with
Original Style Chains!!**

CLASSIC PARTS

from ORIGINAL FORD TOOLING

Original Ford Tooling refers to the obsolete stamping dies, plastic injection molds, roller dies and other tooling that Ford Motor Company once used for mass production of its parts. Dennis Carpenter Ford Restoration Parts is the first member of a select group of manufacturers permitted by Ford to use their obsolete tooling to make reproduction parts for today's restoration part industry.

1953-72 Tailgate. Stamped in U.S.A. from original Ford tooling. Assembled at Carpenter Industries in Concord, NC.

An original Ford welding fixture is used to secure each tailgate skin as they are prepared for assembly. A suspended spot welding machine similar to those used on the Ford assembly line is used to weld the tailgates together.

**TAILGATE - with NO Hooks for Chains
STEPSIDE • F100 • 1953-72**

In 1908 Henry Ford created the Ford Times magazine. Originally it was a magazine focused on keeping the Ford customer and dealers informed on all things Ford related.

It quickly grew to become more of a reader's digest type publication that added articles about travel, history and even recipes in addition to it's articles and updates on Ford products. In the 50's and 60's it added features on many watercolors paintings of the time.

The magazine began in a larger format but Henry Ford liked the idea of being able to fit the magazine into his pocket so he had the size reduced to 4x6.

Ford Times magazine had an incredible run being published from 1908 until 1996 and are still highly collectible today. Get your small piece of Ford history today. Collectors and Ford enthusiasts alike will enjoy and appreciate a copy of Ford Times Magazine!

Many more years through 1972 are available online.

Check dennis-carpenter.com for details.

- Published from 1908 until 1996.
- Highly collectible
- Vol 1. (1908) set recently sold for almost \$2,000
- Pocket sized so Henry Ford could carry them easily.
- Features Ford information, travel and historical stories.
- 1950's & 60's s featured watercolor paintings.

Original - Limited Supply

RUBBER MOLDING

We Are Ford Specialists

Manufacturing Quality Parts Since 1970

Stainless Steel Parts Made In USA

Metal Meets The Presses

Forming stainless steel into Ford parts is one of the jobs performed in the metal stamping division at Dennis Carpenters. 42 different presses ranging from 1 to 500 ton compression capacities are on hand and are capable of stamping 10 gauge 304 series stainless steel into 1948-52 F-1 bumpers.

Our company has been stamping steel, injecting plastic and molding rubber into top quality Ford restoration parts in the U.S. since 1970 and will continue the tradition for future Ford enthusiasts.

If your desire is to restore a classic Ford truck, car or tractor, consider using Dennis Carpenter restoration parts.

MAKE YOUR FORD PICKUP DOOR WINDOWS WORK AND LOOK NEW

You can make your Ford Pickup a winner very quickly with Dennis Carpenter's Door Window Anti-Rattler Kits and Vent Window Rubber. For a step-by-step photo demonstration, we asked a good friend, Dallas Talbert, to provide his original 1966 F100 Custom Cab pickup. DCR's own Jim Lentz performed the task with ease.

Jim Lentz begins the project by removing the door access panel.

Two make a job easier. Here Dallas helps Jim remove the arm rest, handles and door trim.

Release door glass from the regulator arm, leave in bottom of door. Take out after anti-rattlers are removed.

Removal of the window regulator mechanism will make removal of the division bar easier.

Pry anti-rattlers from door carefully then twist holding clips out with long-nose pliers. Then pull out door glass run.

Remove various screws at top of door and under rubber holding vent window in place.

Release division bar then slowly remove vent window with a slanting inward and twisting-out motion.

Division bar is a tight fit and requires patience to remove. Slowly twist while pulling outward.

Old rubber pulls away easily from vent window.

When installing new vent window rubber, check for indentations at correct location for pivot point on door.

Use door window as a form for shaping curve in door glass run.

Install new division bar. Loosely attach with screws. Then re-install window regulator mechanism and door glass.

Re-attach door glass to window regulator mechanism.

Glide new door glass run into position, fitting securely over edge of glass.

Working top right to left with a 3/8" wood strip, press clips in place. To prevent distorting curve section, do not press in.

Insert strong cord into groove on the outside of vent rubber leaving long lengths at both ends for pulling.

Re-install vent window, attaching screws loosely.

Pull cord out of groove in vent window rubber for tight overlapping fit of rubber to door.

Hold glass while tightening vent window and division bar screws for best adjustment for glass.

Anti-rattlers are the last new parts to install and can be snapped-in with a wood strip.

After re-installing access panel and door trim, two good friends congratulate each other on a job well done.

FLAT RATE SHIPPING

ON ALL DOMESTIC GROUND ORDERS*

*RESTRICTIONS APPLY. SEE ADDITIONAL DETAILS BELOW

\$99 or LESS get \$9.99 SHIPPING
\$100 or MORE get \$14.99 SHIPPING

Must ship by "ground" service within the contiguous US. This excludes Alaska, Hawaii, and Puerto Rico. Normal carrier rates apply.

Domestic Air and International service is not included. Normal carrier rates apply. Even though an order requires multiple packages or if any of the packages are oversized, bulky, and/or heavy, the shipping is still \$14.99 excluding items that require "Freight Truck Shipping". Any "domestic ground" order with a total parts value under \$100.00 will be charged a \$9.99 minimum shipping rate. These rates include insurance and handling.

Items such as hoods, bedsides, 12' bedstrips, doors, fenders, quarter panels require freight truck shipping. Items that require freight truck shipping are noted in catalog. If items requiring freight truck shipping are ordered with flat rate items, all items will be included for the same freight truck rate. See right for more details.

Preferred Carriers

Our preferred carriers are FedEx, UPS, and USPS for all parcel shipments. No other carriers are used. No exceptions.

FedEx

Special Handling:

Retail orders requiring special handling other than flat rate ground shipping will be estimated as shown below: The prices are estimates only. Actual shipping charges will apply.

Air Shipments

	Sm. Pkg.	Med. Pkg.	Lg. Pkg.
Next Day Air:	\$40.00	\$100.00	\$200.00
Sec. Day Air:	\$30.00	\$75.00	\$170.00

Freight Truck Shipment

	Shipping Fee	Crating Fee if applicable
Residential Address	\$150.00	\$75.00
Commercial Address	\$150.00**	\$75.00

**Lift Gate Fees are included in estimates above and range from \$30 to \$40. Depending on carrier this fee may be waived for orders delivered to a commercial address.

Freight Truck Shipping fees above are estimates only. Actual freight shipping charges will be applied when the order is shipped and invoiced. Items that require a freight truck cannot be included with flat rate shipping.

International Shipments All Except Canada

When calculating shipping for international orders, please use 50% of the order total parts value or \$50.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. International orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Canadian Shipments

When calculating shipping for Canadian orders, please use 20% of the order total parts value or \$25.00, whichever is greater. These figures are used for estimating purposes only. The actual amount will be added when the order is shipped and invoiced. Canadian orders are shipped by the USPS most of the time, size and weight permitting. Customs clearance will be the responsibility of the consignee.

Merchandise Returns:

- 1 All sales are considered final with the exception of warranty claims and merchandise shipped in error.
- 2 All returned merchandise must be in original packaging and is subject to inspection and approval prior to credit or exchange. Must be in new sale condition as determined by Carpenter Industries.

It is the customer's responsibility to check parts for correct fit BEFORE installation.

Any part that has been installed, disassembled, drilled, welded, cut, painted, or modified in any way, or is missing kit components is NOT eligible for return.

Electrical items that have NOT been installed and/or plugged in are eligible for return.

Electrical items that are authorized for return are still subject to inspection and approval prior to credit and/or exchange.

No returns accepted on any literature.

Any installation, disassembly or modification by a third party on the behalf of customer does not constitute an exception to our policy. Purchaser retains full responsibility for the condition of the part.

- 3 Returns within 30 days of invoice date are acceptable, any returns received after 30 days are subject to a 20% restocking fee. Returns after 180 days are subject to a 50% restocking fee.
- 4 **Absolutely NO returns accepted after one year from date of purchase. No exceptions.**
- 5 ALL RETURNS MUST HAVE A RETURN AUTHORIZATION RA NUMBER. Please call 1-800-476-9653, option 2, to obtain an RA number. Please have your purchase invoice number available when calling. C.I. is NOT responsible for unauthorized returns.
- 6 All returns must be shipped "pre-paid" and fully insured. COD or collect returns will not be accepted. In cases where a return is due to our error, "pre-paid" shipping charges will be refunded.
- 7 Refunds will be issued based upon the method of payment. i.e. cash for cash purchases, credit on a credit card for credit card purchases, etc.. On returns due to our error, your shipping expense will be reimbursed based only upon carriers charges.
- 8 All returns should be sent to: Carpenter Industries, Inc.
4140 Concord Parkway S
Concord NC 28027

Claims:

All claims must be taken up with Dennis Carpenter Restorations.

Please inspect all orders for damage and/or errors immediately upon receipt. Report all discrepancies to Carpenter Industries at 1-800-476-9653, option 2, within 7 days of receipt. No claims accepted after 7 days.

Please hold all original boxes and packaging materials for the carrier to inspect.

Warranty

We guarantee to replace or at our option, repair any product or parts which are found to be defective in material or workmanship within one year from the date of shipment. Our obligation with respect to such products or parts shall be limited to replacement or repair and in no event shall we be liable for consequential or special damages, or for transportation, installation, adjustment, or other expenses which may arise in connection with such products or parts. THIS WARRANTY EXPRESSLY MADE IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS.

Dennis Carpenter Ford Restoration designs, engineers and manufactures it's own brand of quality Weather Stripping, 99% of which is made here in Concord, NC in our Rubber Extrusion department.

• **Back Window Rubber** • **Trunk Rubber** • **Vent Window Seals** • **Windshield Rubber** • **Door Seals**

4140 Concord Parkway So.
Concord NC 28027

Competitor Brand

- Made kinda like original
- Cheap Materials
- Cracks and fades

VS.

After 6 months
outside in the sun.

Carpenter Brand

- Exact fit and mold
- Made exact of original
- Quality Materials
- Long Lasting

PREMIUM^{LINE}
WEATHERSTRIPPING
by Dennis Carpenter

With over forty-five years of experience Dennis Carpenter is the leading manufacturer and distributor of superior quality Ford weatherstripping and molded rubber parts. Our rubber extrusion department is capable of manufacturing 25,000 feet of specially formulated EPDM rubber to make our quality windshield and rear window seals.

Made Right, Fits Right, Lasts Longer

4140 Concord Parkway South Concord, North Carolina 28027 U.S.A. PH. 704.786.8139 800.476.9653 EMAIL: info@dennis-carpenter.com

Vent Window Seals after 6 months in our testing laboratory (ie. Outside exposed to the elements)
