Spray Trim Adhesive

- Ideal for bonding carpet, jute padding and interior trim, 18.1 oz.
- Yields a clear, high-strength bond

ALL 3M.....**25-253632^A** **19.99** ea.

Interior Dye Prep and Clear Coat

Formulated to complement the interior dye for a professional and lasting appearance.

Primer

Spray primer on any part that the color is being changed from dark to light.

ALL 12 oz. spray.....**25-168625^A** **19.99** ea.
ALL Quart.....**25-168624^A** **30.99** ea.

Adhesive Promoter

Use the promoter after the spray prep. Promoter will create a bonding surface for the primer to adhere.

ALL 12 oz. spray.....**25-257059^A** **24.99** ea.

Surface Prep

Along with the specifically formulated adhesive promoter, spray prep is highly recommended to give long wear and tear to your newly dyed interior.

ALL 12 oz. spray.....**25-257051^A** **21.99** ea.

Clear Coat

When high metallic color or just putting dye on hard plastic, use the clear coat to protect against scratches or running.

ALL 12 oz. spray.....**25-255883^A** **31.99** ea.

Interior Dye

- Exact match in color
- 12 oz. aerosol spray or quart
- Long lasting-out lasts paint

Formulated and mixed to match our leather or vinyl interiors. This new dye normally requires only one coat if primer P/N 25-168625 or 25-168624 is used first. Made to last and retain color fastness, this dye will make your restoration or just interior upgrade perfect. This spray can will cover most jobs unless changing interior colors.

63-67 12 oz. spray.....**25-243685^A** **19.99** ea.
63-67 Quart*.....**25-245871^A** **74.99** ea.

* Cannot be shipped by air

Interior Screw Sets

Includes the following screws: Sunvisors, sill plates, inside mirror support-header, door panels, shift console, dash insert, rear window trim, seat bumpers, steering wheel mounting, glove box liner, radio side panels, rear quarter panel trim, kick panels, headlight open switch mounting, and windshield interior molding screws.

63-64 Convertible

All Eckler's Carpet Sets are manufactured for Eckler's by Auto Custom Carpets, the number one name in quality Corvette carpet.

65-67 Coupe

Original-Style Foam-Backed Loop Carpet

Original-style foam-backed loop carpet sets have an impregnated gray latex foam backing for an accurate restoration.

Carpet insulation kits or heat barrier kits may also be utilized for additional noise and heat reduction. Features include the correct binding, heel pad and dimmer switch grommet. 1964 coupe carpet sets include the power vent carpet section. Specify color when ordering.

Glove Box Door Restoration Service

- New aluminum insert
- Renew front face
- Renew rear of glove box door

Fully restore your glove box door to like-new condition (emblem extra if required). We'll replace your old aluminum insert with a shiny new face, strip the paint off the front face and paint it with the correct color and texture of paint as well as refinishing the rear of the face to like-new condition and finish by replacing all rivets. This service is for door only. Please see website or call 1-800-327-4868 for complete details regarding processing of our restoration service.

Clock Restoration Service

Standard Movement

Step 1: Outer cases are glass beaded, inside and out.

Step 2: Inside is repainted.

Step 3: Outside is sprayed with a rust preventative sealant (not a paint). Retains the original finish.

Step 4: Bezels, lens retainers and pointers are repainted their factory colors.

Step 5: Clock movements are cleaned, inspected, worn parts are replaced, oiled and calibrated for proper time keeping.

Step 6: Clock faces are cleaned and polished. Clock lenses are buffed or replaced.

Step 7: Clocks are reassembled and tested for accuracy and reliability.

63-67 *25-125077^Δ 239.99 ea.

Quartz Conversions

Same procedures as above apply, except for installation of a new U.S. made quartz movement.

63-67 *25-125080^Δ 209.99 ea.

* Worn parts extra.

NOTE: Please see website or call 1-800-327-4868 for complete details regarding processing of our restoration service.

Do-It-Yourself Quartz Clock Kit

• Accurate automotive-grade quartz movement
Instrument Services, Inc., the maker of original equipment auto clocks, offers the perfect replacement clock repair kit for your Corvette. Specifically designed for upgrading with quartz, this kit includes all necessary hardware and instructions. To install, use a small screwdriver and pliers.

Gauge and Instrument Cluster Restoration Service

Eckler's Corvette offers professional gauge cluster restoration services that will make your cluster look and perform like new again. Just send us your instrument cluster (prepaid and fully insured). After we receive your 1963-1967 Corvette gauge cluster, we professionally disassemble it and meticulously perform the following expert services.

1. Speedometer and tachometer: all parts are cleaned and inspected for wear. Worn parts are replaced. Faces are cleaned and polished. Pointers are repainted. Lenses are polished. Speedos and tachs are reassembled, tested and calibrated to factory specifications.
2. Battery, oil pressure gauge, fuel and temperature gauges faces are polished or silkscreened. Pointer is repainted.
3. All parts are cleaned.
4. Gauges are tested and calibrated to factory specifications
5. Housing is stripped and repainted factory colors, inside and out. Chroming is now available. Call for information and pricing!
6. Lenses are polished.
7. Odometer lens is polished.
8. Odometer cushions are usually replaced.
9. Blinker lenses are usually replaced.
10. Instrument clusters are reassembled and inspected for quality, appearance, and function.

NOTE: Worn parts extra. Please see website or call 1-800-327-4868 for complete details.

When shipping your cluster in for service, please send it prepaid and insured for \$2,500.00. If it is not insured, then Eckler's cannot be responsible for possible damage incurred during shipping. Includes restoration of cluster face and gauges plus speedometer and tachometer rebuild. Parts and replacement are extra (if required) and can cost up to \$450.00. Silk screening is extra (if required) \$39.99 - \$228.99. Please inform us if you want your odometer set to your original mileage or back to zero. All gauges require calibration once the needle has been removed. Please allow 4-6 weeks turnaround time for service. During periods when we process high volumes of gauge restoration services, the turnaround time may be 2 to 3 weeks longer.

Hand-Laminated Fiberglass Parts Installed in All Eckler's 1963-67 Front Ends

Factory design steel headlamp end plates and header bar are jig-fit for uniform headlamp installation.

Front Ends (Door to Door)

63-64 25-100233^A 1730.99 ea.

65-66 25-100234^A 1628.99 ea.

67 25-100235^A 1732.99 ea.

NOTE: Use Eckler's fiberglass repair materials.

Front Spoiler

- Bolts to all 1963-67 stock front ends with or without bumpers
- Notching of spoiler required when using bumpers
- Gray gelcoat, paint to match

63-67 25-100009^A 188.99 ea.

ECKLER'S

offers you two types of fiberglass body parts, each of which have slightly different benefits.

Choose the one that's right for you...

Body Parts - Hand-Laminated

- Used on all Eckler's manufactured fiberglass since 1965
- Three layer, hand-rolled process eliminates all bubbles, providing a strong, uniform surface
- Gel coat finish ensures smooth, easy sanding
- Less time consuming and less costly to fit to your car—and to prepare for paint
- Ability to produce large body panels with compound curves with no bonding strips required

Body Parts - Press-Molded

- Formed in a large hydraulic press similar to the factory original parts
- Smooth finish on both interior and exterior sides of your part
- Slightly higher cost but closely resembles factory panels

Hoods

• Hand-laminated

6325-100069^A 799.99 ea.

6425-100071^A 799.99 ea.

Coupe

63-66 **25-100256^Δ** **1309.99** ea.

67 **25-100257^Δ** **1319.99** ea.

Press-Molded Front Ends

- Smooth, pressed finish front and back
- Resin pigmented to original factory colors

Manufactured to the most stringent tolerances, these parts are indistinguishable from factory parts in color, configuration, uniformity and fit.

While the majority of the Corvettes produced in 1963 and 1964 were white pigmented fiberglass and 1965 and 1966 were gray, some 1964 models were gray and some 1965 models were white. On special order, all 1964 parts are also available in gray and all 1965 in white pigmented fiberglass.

Jig-Fit Assembled Front Ends

- Precisely assembled in a fixture, ready to install
- Original factory adhesive color and texture
- Includes factory-style headlamp end plates and header bar reinforcement

Completely assembled front ends include inner skirts. A bonding strip is installed along top of inner skirt on 1963 models and an upper seal is used on 1964-67. Header bar is assembled with original style rivets to a bonding strip prior to bonding into front end. Price includes crating charge. Allow five weeks for assembly.

Eckler's Fiberglass Repair Materials

Eckler's Repair Materials will work on all fiberglass types used on 1963-67 Corvettes. These repair materials are not formulated to work on 1973 and later Corvettes with SMC body panels.

Shelf life note: Eckler's repair materials, except for spray gelcoat, have an approximate shelf life of six months, depending upon usage and storage conditions. Eckler's spray gelcoat should be used within 90 days for best results.

Spray Gelcoat

The only product available that will permanently seal errant fiberglass strands. Spray gelcoat's unmatched sealing qualities also prevents body fillers from bleeding through. MEKP hardener included. Usage is approximately two gallons for an entire Corvette.

ALL Gallon *	25-100208 ^Δ	103.99 gl.
ALL Quart *	25-100207 ^Δ	34.99 qt.

Bonding Adhesive

Eckler's "original" bonding adhesive is specially formulated to provide unsurpassed adhesion when bonding or repairing fiberglass. Easy to mix cream hardener is included. Adhesive cannot be used as a surface filler.

ALL Gallon *	25-100202 ^Δ	103.99 gl.
ALL Quart *	25-100201 ^Δ	38.99 qt.

Epoxy Bonding Adhesive Kit

Manufactured by Ellsworth Adhesives, this adhesive is ideal for general repair and bonding of SMC fiberglass. Two-part mixture.

ALL	25-103227 ^Δ	161.99 kit
-----	------------------------	------------

Body Filler

Eckler's body filler is formulated to virtually eliminate intolerable shrinkage, pinholing and bleed-through found in other fillers. Cream hardener included.

ALL Quart *	25-100203 ^Δ	44.99 qt.
-------------	------------------------	-----------

3M General Purpose Adhesive Spray Cleaner

- Excellent for cleaning old adhesive, wax and grease from painted surfaces
- Spray-on application makes large jobs easy

ALL 15 oz.....	25-253647 ^Δ	19.99 ea.
----------------	------------------------	-----------

Restoration Formula Panel Bonding Adhesive

Same color, consistency and texture of the material originally used at the factory (thru the 1972 model). Excellent bonding and finishing characteristics. Adheres to all press-molded and hand-laminated fiberglass. MEKP hardener included.

ALL Gallon *	25-107915 ^Δ	283.99 gl.
--------------	------------------------	------------

Repair Materials for SMC (Sheet Molded Compound Fiberglass)

- Epoxy bonding adhesive

Manufactured by Ellsworth Adhesives. Adhesive is ideal for general repair and bonding of SMC fiberglass. Two-part mixture.

ALL 2-quart *	25-103227 ^Δ	161.99 kit

Headlight Motor Rebuild Service

- Allow 1 week for service
- 1-year limited manufacturer's warranty

This rebuild service is offered for the owner who wants to retain the original motor that was installed in the Corvette. As an option, Eckler's offers new and rebuilt headlamp motors, ready to ship, allowing removal and replacement in one step. Visit EcklersCorvette.com or call for complete details and where to send your parts for rebuild service.

HEI Distributor Conversion

- Converts dated ignition systems to modern HEI technology
- Improves engine performance
- Easy to install
- Tach drive

Now, with a simple distributor swap, you can get all the benefits of HEI technology plus performance enhancements on top of the original HEI. For example, the original HEI had a 38,000 volt module, pickup and coil. This unit provides 50,000 power-packed volts! The original system had bushings in the housing, this model has needle bearings for smoother operation and longer life. Plus, this one-piece distributor has a 4340 hardened steel cam gear for use with all roller cams and brass terminals in the distributor for greater conductivity than the stock aluminum terminals. So when you compare this tach drive distributor to what your car came with, you're getting a tremendous hi-performance distributor that eliminates the points and coil and gives you all the firepower you need for your Corvette's ignition. This unit simply bolts into place, all you have to do is run a 12-volt power lead to the distributor and add upgrades.

63-67**25-161505^A** 157.99 ea.

NOTE: Use P/N 25-188970 plug wire set.

D.U.I. HEI Distributor Conversion

- Converts pre-1975 Vettes to HEI ignition
- 2-year warranty

A smooth distributor curve insures maximum power and mileage while eliminating engine damaging detonation. The D.U.I. distributor produces a longer duration spark which allows you to open up your plug gaps to a whopping .055". The Dyna-Module and 50,000 volt D.U.I. coil work together to give your engine the ultimate spark. A wider gap and a hotter spark leads to more complete combustion. NO add-on spark box is needed. Each D.U.I. distributor is hand-built, not mass produced, and is individually prepped. Housings are polished and lubed appropriately. Shaft plates are welded for durability. Gears are wire brushed and end play is adjusted with a feeler gauge.

63-67**25-103350^A** 377.99 ea.

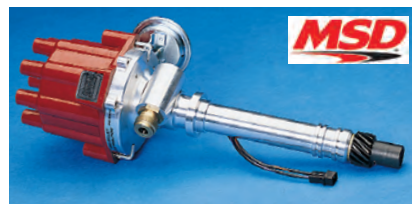

NOTE: Use 25-188970 plug wire set.

MSD Tach Drive Distributor

- Converts to electronic ignition
- Retains original tach drive

Replace your worn out, outdated points distributor with MSD's electronic, magnetic pickup unit. CNC machined from 6061-T6 billet aluminum, this distributor features ball bearings and sintered steel bushing shaft supports for long lasting performance. The mechanical advance is fully adjustable allowing for customized spark curves. Its magnetic pickup never needs adjusting and plugs directly into MSD's high performance ignition boxes. The vacuum advance feature is maintained for driveability and fuel economy, and its tach drive accepts the factory tachometer cable. An optimized spark curve combined with a stronger more consistent spark results in improved fuel economy, increased reliability, and smoother, more powerful engine performance.

NOTE: Must be used in conjunction with a MSD ignition box.

63-67**25-105764^A** 479.99 ea.

Small Body Aluminum HEI Distributors

- No tachometer feature
- Use with 1963-67 small or big block V8 engines
- Provides hotter spark and quicker starts
- Includes external coil and plug wire retainer
- Electronic advance with 26° total advance
- Billet aluminum body
- 50,000 volt output with circuit board design
- Requires 4mm Allen wrench to remove cap and rotor
- Small diameter clears all firewalls
- Requires coil wire kit P/N 25-178550 and wire set P/N 25-188970

Breakerless Electronic Ignition Conversion Kit

- Single wire hook-up makes distributor look 100% stock
- Eliminates points

Convert any 1963 to 1967 GM V8 breaker point type distributor with a windowed type distributor cap to a reliable solid-state electronic ignition, utilizing a fully integrated trigger and power module that fits completely inside the distributor. Unlike competitive systems, no additional wires protrude from the distributor, only the original points wire. The result is a state-of-the-art ignition with an absolutely stock appearance. Emissions legal in all 50 states. No distributor modification, disassembly or removal is required for installation. 3-year warranty.

63-67**25-113682^A** 181.99 kit

Pertronix Ignitor III Electronic Ignition Conversion

- Replaces points and condenser with modern electronic ignition
- Completely hidden inside your stock distributor
- Includes adjustable rev limiter
- HEI gives improved mileage and horsepower
- Huge dwell accuracy improvement
- Magnetic type sensor never requires adjustment
- Must use Flame-Thrower coil P/N 25-126559 or 25-126558
- Simple 2 wire hook-up

There's absolutely no need to contend with the technology of the 60's and before, when you can bolt-in today's electronic timing benefits in the form of the Ignitor! This system gives you a huge improvement in your ignition dwell. Plus, the whole conversion remains under the stock cap, so for restorers the car appears dead stock. Technically speaking, this ignition has rotating cobalt magnets which trigger an electronic switching module commonly referred to as a "Hall" effect integrated circuit. Practically speaking, this means you'll always have perfect dwell regardless of how high you operate in the RPM band.

63-67**25-245725^A** **172.99** kit

Pertronix Ignitor Electronic Ignition System

- Replaces points and condenser with modern electronic ignition
- Huge dwell accuracy improvement
- Bolts in place of points and has simple 2 wire hook-up
- Never requires adjustment
- Use with P/N 25-126558 or 25-126559 Pertronix ignitor coil

There's absolutely no need to contend with the technology of the 60's and earlier, when you can bolt-in today's electronic timing benefits in the form of the Ignitor!

90° Tach or Speedo Cable Adapter

- Smooth, accurate gauge readings
- Increases cable life

For Corvettes with severe tachometer cable binding, install our 90 degree tachometer/ speedometer cable adapter. It allows you to run the cable straight into the adapter, eliminating problems created by cable binding. The adapter attaches to either the stock tach drive coupler on the distributor or the transmission, and requires no modifications to install. A grease fitting is built into the adapter to lubricate the adapter and grease the tach drive gear.

Transistor Ignition Amplifier

- New circuit board
- Correct casting, stampings, and finish

Transistorized Ignitions (TI), also known as Delcotron Transistor Control Magnetic Pulse Ignition Systems, were available from the factory under RPO K66 in 1964-1971 for both small and big blocks. After 1971, these systems could be bought as over the counter parts from your local GM dealership. These special transistor controlled ignition systems were developed for high performance and racing use to replace the traditional point-fired ignition system that came standard on most vehicles.

64-67 **25-243999^A** **429.99** ea.

Replacement Transistor Ignition Amplifier Module

- Fits inside amplifier
- Solid state
- Simple screw in replacement

Transistorized Ignitions (TI), also known as Delcotron Transistor Control Magnetic Pulse Ignition Systems, were available from the factory under RPO K66 in 1964-1971 for both small and big blocks. After 1971, these systems could be bought as over the counter parts from your local GM dealership. These special transistor controlled ignition systems were developed for high performance and racing use to replace the traditional point-fired ignition system that came standard on most vehicles. Later to be replaced with the HEI optional distributors in 1975, these transistorized ignition systems were used as the standard duty high performance Chevrolet ignition systems.

HEI Distributor Remote Coil Wire Kit

- Use with distributor P/N 25-178549
- 14" long
- Wires HEI to remote coil
- Comes unassembled so you can build length of wire

63-67 **25-178550^A** **29.99** kit

Voltage Regulator Mounting Screw and Nut Kit

- Includes 3 screws and 3 nuts

63L-67 **25-160681^A** **11.99** kit

Replacement Starter

- Good quality replacement
- Cast iron nose
- Fits 1966-67 with 427/454 CID

66-6725-308005^Δ 144.99 ea.

Gear Reduction Starters

- Eliminates hard starting problems
- Ideal for high compression or high-performance engines
- Lighter and smaller than stock starter

Far more powerful than any stock starter, plus it's lighter and smaller than the stock unit to make header clearance a thing of the past. And because the Powermaster starter does not act as a heat sink, it is unaffected by high header heat or high underhood temperatures. It has a billet aluminum adapter block and mounting bolts are included for easy installation.

63-6725-114441^Δ 205.99 ea.

Starter Heat Shield

- Insulates starter from heat
- Prolongs starter life

Designed with a layer of high temperature heat-insulating material sandwiched between two sheets of aluminum.

63-6725-102710^Δ 29.99 ea.

NOTE: Use only with Delco style starter.

Starter Motor Heat Blanket

- Insulates starter from heat
 - Prolongs starter life
- Blanket attaches with straps. Ideal protection from exhaust manifolds or headers.

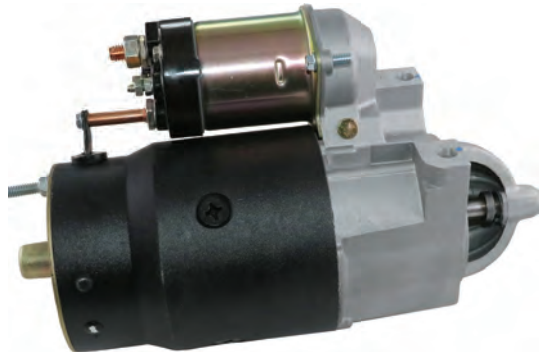

ALL25-253986^Δ 34.99 ea.

Remanufactured Starters

Reproduction Spark Plugs

- OE reproductions
- Cuts radio noise

AC Delco has a "totally correct" spark plug for your Corvette's engine. AC Delco spark plugs are designed to achieve the optimum in engine performance when used in conjunction with AC Delco's total ignition system. The 43, 44, 45, 43S, 44S and 45S reproductions meet the AC Delco standard to give you good service and long life.

MSD 6AL-2 Multiple Spark Discharge Ignition

- Provides more power and faster starts
- Built-in 2-step rev control (no RPM modules)

The new MSD 6AL-2 (Multiple Spark Discharge Ignition) is designed to improve the performance of daily drivers and weekend warrior vehicles. It features an all new housing, digital circuits for higher spark output and a built-in 2-step rev control for street/strip vehicles. It works on any vehicle with a 12 to 18 volt electrical system. MSD-6AL-2 can be triggered using breaker points, magnetic pickup or electronic amplifier outputs.

Moroso 8mm High Performance Spark Plug Wires

- For use with headers custom-fit for Corvettes
- Moroso's "Blue Max" spiral core spark plug wires should be used whenever headers are installed. We've selected the Moroso brand for three very good reasons. First, they are made of the finest high temperature silicone available to withstand the extreme temperatures headers produce. Secondly, Moroso's unique 8mm "spiral core" design delivers the voltage carrying capability of a metal conductor with the radio noise suppression benefits of the stock wires, and these wires are routed just like the factory wires.

HOW MOROSO "BLUE MAX" SPIRAL CORE™WORKS

Reproduction Spark Plug Wire Set

- Best quality reproduction
- Manufactured with Packard wire, same as original GM wires
- Correct lengths and Instructions
- Correct premium boots/terminals
- Kevlar wrapped insulation/superior to fiberglass
- Stainless terminals that won't corrode
- Superior silicone wrap with high dielectric strength
- Best performance value per dollar
- Correct ohms resistance/foot

63-67	Small block.....	25-121156^A	44.99 set
-------	------------------	------------------------------	------------------

Date Coded Spark Plug Wire Set

- Correct reproduction
- Dated coded
- Correct in every way

All original sets of spark plug wires installed by GM when the Corvettes were built from 1961 had a date code. To make your Corvette more original, you must have a set of reproduction wires stating the date. Dates are given build date or vin number. When ordering, please give the VIN or build date to get the correct set of spark plug wires for your restoration.

-------	--	------------------------	-------	-----

Centerforce II Clutch Sets

- Dual friction
- Reduces pedal pressure
- Greater holding capacity

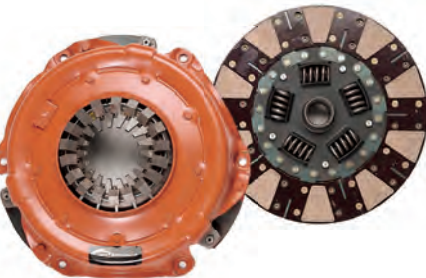

Dual friction kits include the clutch plate and disc, and generate up to 90% more holding capacity over stock systems. Designed for use in engines producing high horsepower and torque output. The Centerforce II system, comprised of a clutch plate and disc, generates up to 60% greater holding capacity over stock systems and is designed for mildly modified vehicles used for street and strip driving.

11" Disc for 1-1/8" x 10-Spline Input Shaft

66-67 427ci **US**.....**25-105687^A** **406.99** set
67 327ci **US**.....**25-105687^A** **406.99** set

10.40" Disc for 1-1/8" x 10-Spline Input Shaft

63-67 327ci **US**.....**25-105688^A** **434.99** set

Billet Steel Flywheel

- CNC machined 33 lb billet steel
- Fits pre-1986 externally balanced small and big block engines
- 168-tooth
- Accepts 10.5" and 11" clutches
- Will fit stock cast iron or aluminum bellhousings

63-67**25-326835^A** **275.99** ea.

Aluminum Clutch Bellhousing

- Officially licensed GM restoration part
- Requires starter with iron nose housing
- Fits 1966-67 big block
- Replaces GM #3899621

66-67 11".....**25-172672^A** **214.99** ea.

RAM Premium Clutch Kits

- 10 spline
- Includes pressure plate, disc and throwout bearing

These matched pressure plate, clutch disc and throwout bearing sets that have been designed for engines that have been mechanically upgraded over stock. These sets are direct replacements for stock assemblies and require no additional effort in driving. The additional torque capacity of these clutches is the result of a much improved clutch disc friction material that can withstand the added power output and aggressive driving style of today's mildly modified street combinations. Each set includes a pilot tool to make alignment of the disc a snap.

Wheel Bearing and Seal Kits

- Quality brand bearings

Front

Front wheel bearing kit services one wheel. Kit includes 1 inner bearing and 1 outer bearing and seal, spindle nut and cotter pin. Races included with all bearings.
63-67**25-108816^A** **49.99** kit

Rear

Rear wheel bearing kit services one wheel. Kit includes 1 each inner bearing, inner seal, outer bearing and outer seal. Races included with all bearings.

63-67**25-108818^A** **54.99** kit

Removeable Transmission Crossmember

- Eases transmission installation
- Precision water-jet cut steel brackets contoured to fit original transmission location
- No complicated measuring or material removal required
- Requires only two quick cuts on either end of the fixed crossmember and a little welding to install

Once this crossmember kit is installed, the normally arduous task of wrestling a transmission into your Corvette becomes much quicker and easier. This kit comes with the brackets, grade-8 hardware and instructions. Compatible with all 1963-75 Corvettes.

63-67**25-844794^A** **194.99** kit

Eaton® Posi-Traction Differential Carbon Fiber Clutch Pack

- Ideal upgrade for high horsepower cars
- Carbon fiber clutches are virtually indestructible and thrive on repeated harsh engagements
- Carbon fiber also eliminates annoying clutch chatter during turns

NOTE: Do not use synthetic lubrication.

To eliminate posi-traction clutch slippage and to assure smooth, quiet operation, Eaton's carbon fiber clutch pack should be your first choice for a stock rebuild or hi-performance upgrade. In addition to more grip, you'll also get greater clutch life with Eaton's carbon fiber technology.

Heavy-duty

- Includes caps, bolts and snap ring
- Manufactured from aircraft quality steel
- Drop forged for extra strength and heat treated

63-67 **25-106649^A** **382.99** ea.

Remanufactured Differential Side Yokes

- Eliminates unnecessary repair expenses
- Lifetime warranty against wear or failure
- Core charge of \$25.00

The stock side yoke ends wear down and deposit damaging metal into the rear end. Worn yokes cause rear wheel camber problems, which also cause tire wear. Our retrofitted side yokes are made from original GM yokes. Once reconditioned, precision machined button inserts are installed in the ends. The button insert itself is hardened and press fit into the yoke. Core charge added.

63-67 * **25-122873^A** **134.99** ea.
 63-67 † **25-122874^A** **129.99** ea.

* Used for yoke with U-bolt attachment

† Used for yoke with threaded cap attachment

Note: Please return cores to Eckler's at 7980 Grissom Pkwy, Titusville, FL 32780 along with a copy of your invoice.

Rebuilt Differentials

- Professionally rebuilt
- Gears set to factory specs
- 1-year unlimited mileage warranty

Each unit is equipped with new Timkin bearings, races and seals. In addition, you receive a new positraction clutch pack. As specified below, differentials are rebuilt with all new gear sets. A \$450 core deposit will be added to the price of the differential. The core deposit will be refunded upon receipt and inspection of a rebuildable core. A deduction on the core will apply for cracked cases, egg-shaped pinion shaft holes, broken ring gear bolts and broken gears. Please specify front yoke diameter (3.75" or 4.25" OL). Note: Cores must be returned within three weeks of invoice date in order to qualify for any refund. Sorry, no exceptions.

Steeroids Rack and Pinion Non-Power Steering Conversion Kits

- Bolt-on installation

The difference between even a brand new stock steering system is remarkable. Kit requires no modification to install and includes a remanufactured GM rack and pinion and all necessary mounting hardware. All steel components are black powder coated and the aluminum components are anodized.

63-66	US	25-254750 ^Δ	1836.99	kit
67	US	25-254745 ^Δ	1836.99	kit

Steeroids Rack and Pinion Conversion Kits

- Bolt-on installation
- 30-year leap forward in steering technology

The Steeroids system completely replaces the original steering system with an up-to-date rack and pinion. The difference between even a brand new stock C2 and a rack and pinion system is remarkable. And best of all, the conversion is completely bolt-on and requires no permanent modification to your Corvette. The kit includes a remanufactured GM rack and pinion, all necessary mounting hardware, fasteners, adapters and hoses. The only item not included is the power steering pump which we assume you have. All steel components in the kit are black powder coated and the aluminum components are anodized.

Steering Box Rebuild Kits

- Great for do-it-yourselfers
- Allows you to keep your original casting
- Provides 16:1 quick ratio for improved response
- Unlike other kits, this one doesn't make you recycle old components

For the Corvette enthusiast who would prefer to keep the original GM casting, we offer a parts kit to rebuild your own box. Most rebuild boxes on the market only have new bearings, races and seals installed. This kit enables you to remanufacture your own steering box with ALL NEW components including: worm and nut, 16:1 ratio sector shaft, bushing kit and bearing and seal kit.

Major Kit

63-67 Complete**25-128660^Δ** **305.99** kit

Minor Kit

Stage I Steering Kit

- Improves steering
- Prolongs tire wear
- Maintains alignment

Return tight, accurate steering to your 1963-67 Corvette with Eckler's Stage I steering kit. These components are built to a closer tolerance for less play and provide grease fittings for extended wear. Heavy duty steering parts maintain alignment settings better for reduced tire wear and improved steering. Included in this kit are heavy duty inner and outer tie rod ends, upper and lower ball joints, and a heavy duty idler arm. Installation requires average mechanical skills and basic hand tools. Once installed, an alignment is recommended.

63-67 **25-122757^A** **24.99** ea.

Ball Joint Dust Boot Covers

- Outlast Rubber Boots

Strong polyurethane boots resist damage from sand, road salt and oils.

63-67 4-piece **25-110807^A** **10.49** set

Non-Power Steering Relay Rod Stud Rebuild Kit

- Includes ball stud, clamp kit and seal

63-67 **25-111594^A** **69.99** kit
 63-67 Seal only **25-122758^A** **29.99** ea.

Rideteck Rear StrongArms

- Lowers vehicle ride height
- Maintains ground and tire clearance, driveline angles, and load capacities
- Bolt-on installation, no fabrication required
- Greatly improves handling performance

*Coil-Overs not included

63-67 OEM chassis **25-374523^A** **1900.99** kit

NOTE: Designed specifically for lowered cars.

Rideteck TruTurn Steering System

- Major handling improvement
- Optimized ball joint angle ensures no binding during extreme suspension travel
- Installed ball joints simplifies installation
- .219 wall DOM tubing for lasting strength and reliability
- Proper coilover placement and ball joint selection
- Optimized arm length makes proper wheel alignment a breeze
- Jig welded for consistent quality
- Black powder coated for lasting appearance and protection

*Coil-Overs not included

63-67 **25-374519^A** **2900.99** kit

Stage I Handling Kit

- An immediate re-connection to the road
- Cost effective parts to refresh handling
- Easy installation

63-67 **25-159753^A** **302.99** kit

Stage II handling package consists of improved sway bars.

See the Stage II steering kit on page 89

Stage III Handling Kit with Steel Spring

- Improved front spring design improves handling and ride
- Rear spring replacement refreshes ride and handling

Springs, like other suspension components, wear so gradually most drivers don't realize they are bad until they notice the car is sagging or sitting uneven. Restore ride height and reduce unwanted suspension movement with new springs. In this kit we, recommend upgrading the front springs to an easier to install, higher spring rate (550lbs.) spring. Its unique design lowers the front end 1/2 to 1 inch for improved handling and the higher rate reduces unwanted nose dive under braking. Refreshing the rear spring greatly improves ride quality by retaining the factory arch design and retains factory spring rate. Installation is easy with average mechanical ability and basic hand tools.

63-67 **25-159750^A** **255.99** kit

Adjustable Coilover Suspension Kit

This kit will lower your front end approx +/- 1" depending on the condition of your current springs. Complete with tubular chromoly steel A-arms with Delrin bushings and new ball joints, this kit will reduce the overall weight of your Corvette. They are black powder coated for years of service. The upper A-arms have a 6 degree positive caster for improved highway stability. Combined with one of the rear systems, you will have control to make any adjustments to fit your driving style.

Kit Includes: QA-1 shocks, 450# Hyperco coil springs, 4 lightweight tubular A-arms with ball joints, 2 upper shock mounting brackets, and spanner adjustment wrenches.

63-67 Single adjustable coilovers **25-253194^A** **2742.99** kit

Shark Bite Aluminum Suspension Spreader Bar

This Shark Bite suspension spreader bar is for small block Corvettes equipped with Shark Bite control arms. With this important accessory, it is now possible to stabilize and stiffen the crossmember. The C2 crossmember is notorious for the flimsy vertical attachment where the upper A-arms bolt on. This weak point allows the upright to settle and flex inward, adversely changing the suspension geometry. With this new kit, owners can spread the sagging vertical mounts back to their proper upright position in minutes and dramatically improve and stabilize the suspension geometry. Installation takes about ten minutes with normal hand tools. The kit comes complete with durable black powder coated left and right fittings, mounting hardware and aluminum spreader bar with spherical rod ends. Fits all small block equipped Corvettes from 1963-67.

63-67 **25-294420^A** **125.99** kit

Aluminum Upper Control Arms

- Improves suspension geometry and increases caster for greater stability and improved bumpsteer
- No modifications required to install
- 14 lbs lighter than originals
- Includes upper shaft with Rulon™ fluoropolymer composite bearings
- Natural finish

63-67 * **25-171667^A** **1125.99** pr.

63-67 W/o ball joints... **25-171664^A** **906.99** pr.

* With hi-performance ball joints

Front Coil Springs

- Stock replacements for standard suspension
- Restores original ride height and original ride quality

63-67 Small block..... **25-108295^A** **79.99** pr.
65-67 Big block **25-108298^A** **79.99** pr.

Grand Touring and Gymkhana F-41 Front Coil Springs

- Powder coated black

Better handling than stock, but less harsh than Gymkhana springs, is the best way to describe the performance of these springs. They are rated at 460 lbs/inch and fit all 1963-67 Corvettes.

63-67 Grand Touring .. **25-122753^A** **84.99** pr.
63-67 Gymkhana * **25-122752^A** **84.99** pr.

* These springs are rated at 550 lbs/inch.

NOTE: Ride height may vary, depending on the type and condition of your original Corvette springs.

Coil Spring Compressor Tool

Make replacing coil springs a quick and safe job with a coil spring compressor. Instructions included.

63-67 **25-253267^A** **59.99** ea.

Coil Spring Spacer

This hard rubber coil spring spacer fits in the lower control arm spring pocket and will increase ride height approximately 1 inch.

63-67 **25-114646^A** **18.99** ea.

Rear Suspension Bushing Kit

- Complete kit to rebuild your rear suspension back to original specs

Rear suspension bushing kit includes: Rear spring mounting kit, upper and lower rear end mount cushions, differential bolt set, trailing arm bolt set, strut rods with bushings, trailing arm retainers, strut rod adjustment assemblies, trailing arm bushings and trailing arm bushing plates.

63-67 **25-114595^A** **210.99** kit

Adjustable Stock Type Strut Rod Kit

Adjustable strut rods have polyurethane bushings for improved ride and camber control.

63-67 **25-122860^A** **169.99** kit

Rear Strut Rod Adjustment Kit

- Allows for correct suspension settings

These strut rod adjusters are the correct way to align the rear wheels and not the hammer and bending of the rods. Judging quality with correct tapered end.

63-67 **25-122849^A** **29.99** kit

Smart Strut and Performance Camber Rod Kit

- Increases rear wheel traction
- Reduces uneven tire wear
- Save money and buy both rod kits

Give your Corvette's rear suspension the competitive edge! The increased adjustability and rigidity of Smart Struts improve suspension geometry, eliminating camber change during suspension travel. This keeps more of the tires contact patch on the ground at all times. The result is improved traction and stability during hard cornering, as well as more off the line traction. Its heavy duty construction will also maintain alignment settings better than the factory components under aggressive driving maneuvers. Kit comes complete with: heavy duty upper strut rod mounting bracket, custom poly-adjustable struts, all hardware and instructions.

Rear Wheel Bearing Assemblies with Matched Rotor and Trailing Arm

- Assembled to tolerances exceeding factory specifications
- Preassembled for ease of installation

This blueprinted unit is ready to bolt-on. It has been carefully assembled using all new factory parts* and has the rotor aligned to the spindle for minimum run-out. To make this a completely bolt-on unit, the rear wheel bearing and rotor have been mounted to a new trailing arm with stainless steel parking brake kit installed. The result is a unit that will give you years of trouble-free service. Unit comes with a lifetime warranty and a manufacturer's unlimited mileage guarantee. It consists of the following parts: spindle, rotor, trailing arm, stainless steel parking brake kit, caliper bracket, parking brake flange plate, anchor bolt, guide plate, bearing support, inner and outer bearing, inner and outer seals, spacers, dust shield, spindle nut and two french locks.

Bilstein Gas Shock Absorbers

- High pressure gas shock
- Our best performance shock
- Available in both heavy-duty and sport versions
- Limited lifetime warranty

Bilstein high pressure gas shock absorbers offer all the advantages of a gas shock, plus construction and performance features that are incomparable. Bilstein shocks feature a seamless, mono-tube construction for fast heat dissipation and finely machined components to yield the most sensitive valving available today. Cannot ship by air.

Heavy Duty

Bilstein heavy duty shocks are made for street driving but provide a little extra for performance type driving.

KYB Gas Shock Absorbers

- Great performance
- Great price
- Excellent replacement shock

KYB high pressure gas shocks are excellent performance replacements for non-Bilstein equipped 1963-67 Corvettes. In terms of performance, KYB's are "guaranteed" not to fade! KYB is an excellent selection for Corvette owners who demand life-long service out of a performance shock. Cannot ship by air.

Koni Adjustable Gas Shock Absorbers

- Manually adjustable
- Settings from firm to soft ride

Koni's low pressure gas charged shock absorbers provide 5 settings that range from luxury car comfort to sports car firmness. At the softest setting, the Koni's will be slightly stiffer than our Delco shocks, and in the most firm position, they will be right in line with our Bilstein shocks. Koni shocks are adjusted by removing them from the car and rotating the shock to the next setting. Cannot ship by air.

63-67 **25-122827^Δ** **174.99** ea.

Rear Composite Leaf Spring

- Outperforms factory original
- Better ride quality than original spring
- Recommended for big blocks

Manufactured by North America's leading manufacturer of racing suspension components, this Hyperco performance-tuned composite leaf spring offers the Corvette owner a great suspension for everyday enjoyable driving. No more harsh snap-back like the original metal spring.

63-67 330 lbs **25-177017^Δ** **435.99** ea.

EZ Ride Composite Rear Leaf Spring

- Outperforms factory original
- Better ride quality than original
- Rated at 200 lbs

Manufactured by North America's leading manufacturer of racing suspension components, this Hyperco performance-tuned composite leaf spring offers the Corvette owner a great suspension for everyday enjoyable driving. No more harsh snap-back like the original metal spring.

63-67 Soft ride **25-191310^Δ** **659.99** ea.

Composite Rear Monospring Kits

A composite monospring restores lost ride height, eliminates leaf spring squeaking, and provides a smooth, comfortable ride without sacrificing performance. Best of all, it never wears out. Weighing only 8 lbs., the monospring reduces unwanted unsprung weight while improving handling performance at the same time. The spring is supplied with complete step-by-step instructions, differential mounting kit, heat shield and 7-1/4" adjustable long spring bolts with new rubber cushions.

For Standard Suspension

63-67 315 lb, SB **25-122862^Δ** **358.99** kit

63-67 340 lb, BB **25-122863^Δ** **358.99** kit

For Hi-Performance Suspension

63-67 340 lb, SB * **25-122862^Δ** **358.99** kit

63-67 355 lbs, BB * **25-122865^Δ** **358.99** kit

For Applications Where Rear End Covers Have Been Changed

63-67 315 lb **25-122870^Δ** **358.99** kit

* NOTE: If you have changed to a GM replacement rear end cover, you must use either a 25-122870, 25-122866 or 25-122867. If you have installed a heavy duty 25-122884 rear end cover, you must use either an 25-122862, 25-122863 or 25-122865.

Composite Rear Monosprings

Eliminate your Corvette's choppy ride, restore lost ride height and eliminate unearthly squeaks and moans, all by replacing your worn out steel leaf spring with a composite monospring. A composite monospring will give you a smooth, comfortable ride and will do so without sacrificing performance. Another benefit of the monospring is it never wears out. Weighing only 8 lbs., the composite monospring also reduces unwanted unsprung weight while improving handling performance at the same time. Direct replacement for 1963-67 Corvettes and is available in four spring rates.

300 lb. Composite Monospring Usage

Replaces a 9-leaf stock spring and rides VERY soft. Suggested for use only on 1963-67 small blocks.

63-67 **25-122796^Δ** **439.99** ea.

330 lb. Composite Monospring Usage

Our most popular spring. Can be used on any 1963-67 small block car. Not as harsh as a Gymkhana 7-leaf stock steel spring. Rides and handles great. Ideal when combined with grand touring front coil springs.

63-67 **25-108659^Δ** **447.99** ea.

360 lb. Composite Monospring Usage

The street/slalom spring is recommended for all big block cars and those wanting greatly enhanced handling. This high performance spring gives better ride than a 7-leaf with far superior handling. Ideal spring to use with Gymkhana (F-41) front coils (550 lbs./inch) or the front transverse leaf spring kit.

63-67 **25-122797^Δ** **454.99** ea.

420 lb. Composite Monospring Usage

Increased stiffness for racers and drag racing. Direct substitute for Daytona steel spring (400 lbs./inch).

63-67 **25-112787^Δ** **447.99** ea.

DID YOU KNOW...

An increased steering or turning radius means the car does not turn as sharply and can make it difficult to maneuver in tight spots like parking lots or drive-thrus. This increased radius can be caused by several different things. One of the common reasons is that wider than stock front wheels are being used. This will increase the track width and in turn increase the steering radius slightly.

BRAKES

visit EcklersCorvette.com for our entire selection of C2 Brake parts and accessories

Wilwood Aluminum Caliper Sets

- Set of 4 calipers • Lighter than OE calipers, less unsprung weight
- Stainless steel pistons
- Square cut O-ring sealing system • Braided S/S hoses and high performance pads included
- Accepts all D8 style brake pads • Bolts directly to stock brackets

Hawk HPS Dual-Pin Racing Disc Brake Pads

- Our best performance street brake pads
- Upgrade over factory dual-pin pads
- Gray dust versus black dust
- Rotor friendly
- Quiet
- Fits front or rear
- Direct fit on L88 dual-pin calipers
- For single-pin pad calipers, use P/N 25-112518

65-67 **25-129533^Δ** **133.99** set

Hawk HP Plus Ferro-Carbon Brake Pads

- High performance material
- Set of 4, does 2 wheels

High performance friction material for high performance street driving.

65-67 Front or rear **25-112523^Δ** **133.99** set

Hawk HPS Ferro-Carbon Brake Pads

- Performance street material
- Emits gray residue, not black
- Set of 4, does 2 wheels

Extremely low dust, high friction, rotor friendly, silent running brake pads. Improved performance over OE pads.

65-67 Front or rear **25-112518^Δ** **109.99** set

Semi-Metallic Brake Pads

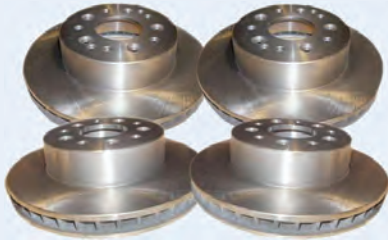

- Excellent alternative to factory pads at a great price
- Sets of 4, does 2 wheels

65-67 Front or rear **25-127590^Δ** **39.99** set

Reproduction Brake Rotors, Judging Quality

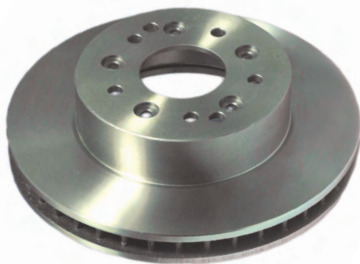

- Judging quality reproductions
- Correct rivet holes and blanchard ground surface

65-67 Set (includes 2 front, 2 rear rotors)	25-375898^A	244.99 set
65-67 Front, 2 needed per car	25-375033^A	64.99 ea.
65-67 Rear, 2 needed per car	25-375034^A	64.99 ea.

Standard Replacement Brake Rotors

- Rotor face machined to factory specs
- Computer balanced to minimize vibration

65-67 Front	25-121881^A	69.99 ea.
65-67 Rear	25-121882^A	69.99 ea.

High Performance Brake Rotors

- Cryo-slotted/drilled
- Bolt-on installation

Cryogenic tempering is a one-time stress relief process that permanently improves the performance and service life of all metals. Cryo-treatment delays the formation of heat checks on the braking surface and gives the rotor an extra level of protection against warping.

65-67 Left front	25-251312^A	136.99 ea.
65-67 Right front.....	25-251281^A	136.99 ea.
65-67 Left rear	25-251315^A	135.99 ea.

Rotor to Hub Rivet

- Good quality reproduction

65-67	25-105295^A	2.99 ea.
-------------	------------------------------	-----------------

Power Slot Brake Rotors

- Exclusive Vac-U-Slot design "wipes" pads clean, evacuates gasses and sheds heat
- Silver cadmium plating provides superior corrosion resistance

Rotors will provide quicker stops, less fade and extended pad and rotor life. Power Slots, because of their super quality castings, deliver optimum rotor wear, balance and reliability.

65-67 Front left	25-128625^A	128.99 ea.
65-67 Front right.....	25-128624^A	128.99 ea.
65-67 Rear left	25-128622^A	127.99 ea.
65-67 Rear right.....	25-128623^A	127.99 ea.

Premium Brake Rotors

- Bi-directional ground finish to minimize noise and extend pad life
- Mill balanced to prevent vibration
- Longer wearing

Premium rotors have the correct metallurgical content, double disc ground finish and exact adherence to factory specs.

65-67 Front	25-109152^A	74.99 ea.

Stainless Steel Parking Brake Shoe Mounting Hardware

- Eliminates parking brake freeze-ups

All interfaces are stainless steel, including the springs and retaining clips. Once corrosion-free parts are installed in the parking brake, freeze-ups are eliminated. All components can be installed without pulling the axle shafts. Shoes and backing plates are not included. One kit rebuilds both wheels.

* Used with 25-113964 bracket

Side Exhaust Header Mufflers with Inner Baffle Tubes

- More aggressive sound
- Quiet inside
- Used with Hooker side exhaust headers

For those that like the big sound and just want a few decibels knocked off, here's the answer. These baffles sound a bit more aggressive than the stock 1-7/8" baffles; the smaller the baffle, the quieter the exhaust tone. Three sizes are available to fit your needs.

2" Baffle

Original

63-67 2" baffle**25-251528^A** **233.99** pr.
 63-67 2-1/4" baffle**25-251534^A** **233.99** pr.

Hedman Small Block Headers

- Improves horsepower and torque

Hedman small block headers have 1-5/8" primary tubes and 3" collectors. They are painted with hi-temperature black paint. Also included are header gaskets, instructions, and all street hook-ups. For small block Corvettes, P/N 25-102906 alternator bracket and A/C bracket P/N 25-102907 should be used if your Corvette is so equipped.

63-66 **US****25-105867^A** **240.99** set

Chrome Hooker Side Mount Headers for Small Block

- Decreases back pressure and increases horsepower
- Premium chrome plating

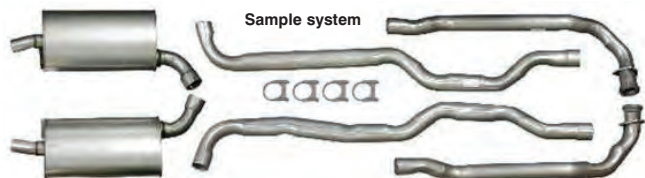

Hooker sidemounts fit any combination of air conditioning, power brakes or steering, and manual or automatic transmissions. Each header set comes with gaskets, bolts, mufflers and instructions.

Aluminized Exhaust Mufflers

- Excellent replacements

Replace your rusted-out exhaust mufflers with our aluminized coated or stainless steel replacements. Aluminized mufflers are made of carbon steel and coated inside and out, and will last 3 times longer than stock. Stainless steel mufflers are constructed of 304 stainless (2) and 409 stainless (2-1/2"). Does not include hangers or clamps. 1963-67 mufflers do not include exhaust tips.

Chambered Exhaust Kits

- Sounds like original side pipes
- Easy bolt-on installation
- Limited lifetime warranty

One of the sweetest sounds ever produced was heard on Corvettes with factory equipped chambered side exhaust. Now you can enjoy the perfect exhaust note without the expense of the side pipe covers. These dual exhaust kits bolt on to the stock manifolds and route just like the stock system. No modifications to the car are required. Kits include stainless steel exhaust tips. Not only will you get great sound, you'll also get improved performance plus a limited lifetime warranty on the chambered mufflers. And unlike other less expensive kits, our kit features heavy-duty 14 gauge pipes. All necessary installation hardware is included. Available in aluminized or stainless steel. Specify manual or automatic transmission.

Holley Performance Carburetor

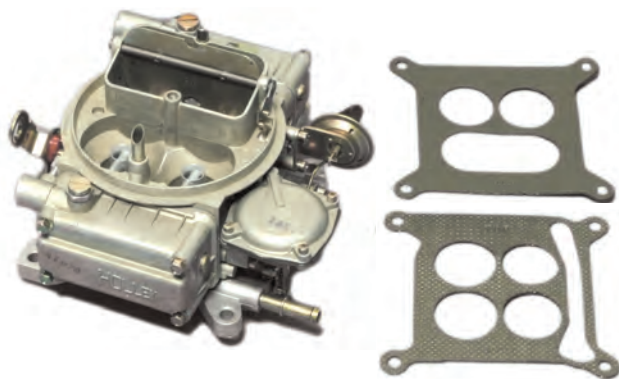

The Holley 600 CFM performance carburetor is a universal fit carburetor for non-EGR equipped Corvettes. It features vacuum secondaries, single inlet fuel bowls with side-pivot floats, adjustable needle and seat, electric choke, PCV and distributor vacuum connections. Not legal for sale or use on pollution controlled vehicles.

Edelbrock 600 CFM Performance Carburetor

Edelbrock's 600 CFM carburetor outperforms the stock Quadrajet and provides better mileage. It works with or without an EGR valve and accepts the Corvette stock throttle linkage and transmission kickdown mechanism. In addition, it has a universal 12 volt electric choke, vacuum/weight operated secondaries, vacuum advance connection, and PCV fitting. This carburetor has a single fuel inlet which requires a new fuel feed line, but the fuel filter and carburetor gasket are included. Use on an Quadrajet-style manifold requires the purchase of the carburetor base plate listed below. Used for small block applications only.

ALL 600 CFM carburetor w/o EGR..... **25-122374^Δ** **364.99** ea.

NOTE: Not legal for sale or use on pollution controlled vehicles.

When ordering, please remember that this carburetor will not fit a stock QuadraJet manifold and some early small bore 63-64 manifolds.

Major Carburetor Rebuild Kits

- All parts meet or exceed original specifications
- Complete illustrated instructions included

Edelbrock Performer Intake Manifold

- Improves off-idle response, dramatic increase in torque

The Edelbrock Performer is an ideal performance replacement for Corvettes with stock small blocks with performance cams and/or headers. The Performer dramatically improves off idle response and low end torque and extends all the way to 5,500 RPM. The QuadraJet carburetor bolts directly to the Performer utilizing all stock brackets, fittings, and cables. For Holley carburetors, the 25-122276 is required to mount on this intake. Rejetting of the carburetor or other modifications are not required. Gaskets not included.

63-67	25-122275^Δ	192.99 ea.

K&N Hi-Performance Air Filters

- Increases air flow up to 57%
- Washable, reusable filter

K&N Hi-Performance air filter increases air flow, improving power and mileage and operates at a higher level of efficiency for a longer period of time than stock filters. Washable, reusable filter will be good for the life of your engine. Sealing grease is highly recommended on all filters.

Tri-Flow Air Cleaner

- Enhances engine appearance
- Improves breathing
- 3" tall element

Add a great new look and increased breathing capability. Fits all Corvettes equipped with the stock Carter, Rochester or Holley 4-barrel carburetor or other carbs with 5-1/8" neck. The 14 inch triangular filter has a chrome plated steel top, flat base and a custom 3-prong spinner style wing nut. A three-inch paper element included.

Small Block Aluminum Radiator

- Fits in stock location
- 25% better cooling than copper/brass radiators
- Original type inlet and outlet

63-67 **US** **25-130500^A** **569.99** ea.

Big Block High Efficiency Aluminum Radiators

- 3 and 4-rows of 5/8 inch tubes (600-800+ horsepower cooling capacity)
- High efficiency 14-16 louvered fins per inch and 3/8" spaced tubes
- 100% TIG welded seams, brazed core, no epoxy
- Includes 16 lb. radiator cap, brass petcock valve, and auto trans. cooler (1/2-20 straight thread G 1/4")
- Driver in (1-1/2"), passenger out (1-3/4"), factory mounting positions, saddle mount
- Overall dimensions 119-1/4" (H) x 29" (W), core dimensions 17" x 22-1/2"
- Limited manufacturer warranty

Your 1966-67 Corvette big block can get hot...really hot. Idling in traffic, 90+ summer days, and just driving can add up. The factory brass radiators were barely satisfactory at transferring heat which is why Corvettes will overheat when you least expect it. Why take chances with your valuable Corvette's engine and step up to a Champion Aluminum Radiator.

A6 Replacement Compressor

- 52% lighter than original A6 compressor
- Ultra quiet and super efficient
- Retains original A6 brackets and hoses
- Less engine drag-creating more horsepower and better fuel economy
- Accepts either super heat or high pressure safety switches

NOTE: To have the warranty on this compressor, a new drier or accumulator is required to show on the invoice at the time of purchase.

Original Style Knock-Off Wheels and 1963-66 Direct-Bolt Knock-Off Wheels

- Completely retooled
- Correct mounting hardware
- All inclusive sets - wheels and hardware

You can decide which one of these great reproduction style wheels best fits your needs. Choose between the original style knock off wheels with the correct mounting style and spinner system, or buy the direct bolt on style knock off wheels. These new style wheels bolt directly to your cars hubs and the hardware is mounted to the wheel adapter. Both have the great original look that GM designed. Each set comes complete even with the lug nuts. Now the choice is yours!

truck freight—requires additional shipping charges

oversize/overweight—requires additional shipping charges

Prop 65 warning for California residents, see inside front cover for details

Lowest Price Guarantee

Eckler's Guarantee is simple: You always get the best quality parts at the lowest price! Show us the identical item advertised in any current magazine, catalog, or website and we'll match our competitor's current price, guaranteed! This offer is available only at the time of purchase and applies to in-stock merchandise only. We can't combine this with any other offer. Tires, restoration services, kits, window glass, cores, reproduction batteries, certain engines, transmissions, used parts, special order parts, and shipping and handling charges are excluded.

Find the Latest Prices on our Website

Prices in this catalog were correct at the time of printing but are subject to change. Visit Ecklers.com for the latest up-to-the-minute pricing as well as hundreds of items not appearing in this catalog. Eckler's is not responsible for pricing changes, errors, or omissions in this catalog or online. Prices are subject to change without notice.

100% Satisfaction Guaranteed

Our commitment to you: If for any reason you are not 100% satisfied with any of our products, return them for a full refund, credit or exchange—your choice.

Best Parts, Best Price

This is not just a slogan! Eckler's is committed to providing the highest quality parts at the most competitive prices. We source and select all of our parts exclusively from the world's leading brand name manufacturers using our massive buying power. This means you get the best there is, at the best prices in the market today.

Shipping and Handling

Check Ecklers.com for current shipping and handling estimates. In the catalog, denotes items that ship via truck, and denotes oversized dimensions or weight, which incur additional charges.

Gift Certificates

Perfect for when you just can't decide. Available in many different amounts from \$25 right up through \$1,000. Redeemable for any items we sell.

Need it Fast?

Have your order delivered within 1 or 2 business days by using Express Shipping! Express Shipping is limited to in-stock, non-oversized items weighing less than 20 pounds. Orders must be placed Monday–Friday before 1:00 p.m. EST. Please contact our sales team for rates.

Same-Day Processing

Standard U.S. order processing time for in-stock items is 24 hours. If you need your order processed the same day, call us Monday–Friday before 1:00 p.m. EST and request same-day processing. For a small charge we'll provide special processing of all in-stock parts the same day.

Limited Warranty

Eckler's will not be responsible for any damage or loss caused by delays, failures, consequential damage, labor, transportation, or any other charges incurred in the replacement or repair of a defective item. Eckler's is not responsible for any consequences resulting from the installation of any parts.
