Bench Seat Covers

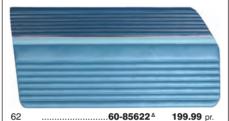

We know that 1962 Galaxie 500 owners have been waiting for authentic, quality interior soft trim for bench seat cars. Our new interior components feature correct Crush grain vinyls that have been accurately color matched to the factory Ford color selections. These interiors feature the correct white accent striping as original. Seat upholstery has the chrome railroad track Mylar stitched into the seat like Ford did them. Door panels feature the exact dielectric pattern with chrome accent striping. We are very proud of our engineering on this product and guarantee your satisfaction with these show quality interior products. We offer all the soft trim you need for 1962 Galaxie 500. Available in Black, Red, Blue and Chestnut.

Vinyl Rear Side Panels

· Available in black, two-tone blue, champange, palomino, red, two-tone turquoise, and white

Finally available for your 1964 Galaxie 500 2 door sedan are these new reproduction rear side panels. They are available in original colors with the correct "chrome" trim attached. All are made to exacting standards and these are absolutely beautiful panels. Like the originals, there is some variation in shade with different batches of vinyl. For that reason best results are achieved by purchasing front and rear panels at the same time. Unless you have black panels matching originals, or new panels acquired at different times can require dying.

1965 Galaxie 500/500XL

Looking for factory correct seat upholstery for your 1965 Galaxie? MAC's offers bucket seat covers for your 500XL, and bench seat covers for your 500. Both are meticulously reproduced featuring all the correct details, and, of course, correct for 1965 Sierra grain patterns. These are premium quality reproductions!

Available Colors:

NOTE: Due to printing limitations, these colors may appear different from original.

Door Panels

We have gone to great lengths to correctly reproduce door panels for both the 500 and the 500XL for 1965. Both feature the correct Sierra grain pattern. All the correct pleats and contours are made exactly the way Ford did them years ago.

500 Door Panels

65	Door panels (front)	310.49 pr.
65	Side panels hardtop (rear)60-85591 ^Δ	231.99 pr.

65	Door panels convertible	(rear) 60-85590 ⁴	125.49	pr.

500XL Door Panels

Photo shows the original aluminum insert in position on this 500XL panel. Our door panel does not include the insert.

Interior Paints

Choose from our vast selection of original color match interior paints. All paints are sold in 13 oz. aerosol cans, and are color matched to original Ford samples for an EXACT match. We recommend the use of our vinyl preparation spray for the best adhesion and absorption of paint. We have listed under each sample the applicable years, model, and color used originally for each color paint. Paints can be used on: plastic, vinyl, and metal interior trim.

NOTE: Due to printing limitations, these colors may appear different from original. These paints are an exact match to original colors.

Crater Grain 1960-70

Tier Grain 1971-72

MAC's has reproduced original "Starline" Grain material used in Galaxie (excludes 62/63 500XL). This material has been reproduced in painstaking detail in the original parchment color. For 1960 Galaxie models, we offer the original Black and White Polka-dot vinyl. You won't find this anywhere else as we are the first to offer this obsolete "hard-to-find" material.

Exact replacement headliners for all models of Ford and Mercury. Our headliners feature the original grain materials as well as a selection of all the original factory COLORS. All headliners are cut exactly for each vehicle and feature pre-stitched rod loops. We offer the highest quality, best fitting headliners on the market! NOTE: Due to printing limitations, colors may appear different from original. These headliners are made to match original colors.

Headliner Insulation

Insulate your roof and provide a better fit when installing your headliner. Don't forget, most headliners will require a removal of back glass and may need replacement of rear window seal. See weatherstrip section.

Headliner Installation Tool

Cardboard Sun Visors

New cardboard sun visors are made exactly like original. These are the standard type non-padded sun visors. Can be dyed to match and used on all models except convertible.

Dash Pads

MAC's has correctly reproduced original 1963 and 1964 Full-Size Ford Galaxie dash pads. This concours reproduction features correct Crush grain vinyl formed to the original specifications with original foam backing. This part fits all models in 1963 and 1964 and is available in black OEM vinyl but can be dyed to match your original color. This is the complete pad and includes the original mounting hardware for front leading edge and detailed installation instructions. Manufactured in the USA

63-64 Black, Galaxie...60-36198^Δ 466.99 ea.

- · Vinyl wrapped foam
- Replaces original or upgrade from a plain metal dash
- · Works withoutriginal hardware (not included)
- · Black vinyl can be dyed any color

This is a brand new reproduction dash pad for the iconic '63-64 Ford Galaxies and other Full-Size Fords. It can be used to replace originals, or is a nice addition to cars with a plain metal dash. It uses a vinyl skin molded to high tech soft flexible foam that has a much better resiliency than the older semi-rigid offerings that are common on the market. Each pad is fitted to a shop check fixture that is a genuine steel dash shell removed from a factory vehicle.

63-64 Black, all body styles..................60-87854^Δ 399.99 ea. 63-64 Red, all body styles................60-392356^Δ 399.99 ea.

Pillar Post Molding Seals

These are the small black rubber seals located at the edge of the interior pillars between the dash and pillar posts.

Can't find what you're looking for?

Horn Ring Button

This premium quality horn ring button features the traditional "Cobra GT350" emblem graphic. It is designed to fit the woodgrain steering wheel (60-38401) found on certain Galaxie and Full-Size models for the 1966 model year. It was originally found on Shelby Mustangs only.

142.99 ea.

All

15" Wood Grant Steering Wheel

Grant classic wood steering wheel features a three spoke design in chrome. 15" in diameter and a 4 1/8" dish. Has the look and feel of a rare factory woodgrain wheel without the price. Requires adapter for your application, sold separately.

Grant Elite Steering Wheels

Grant Elite steering wheels feature a 3 or 4 spoke design in polished aluminum and a hand-stitched/leather-grained black vinyl grip. 14" in diameter and a 3.5" dish. Requires adaptor for your application (sold separately).

0-81948^Δ **192.99** ea.

Grant Steering Wheel Installation Kits

This installation kit is necessary when installing a Grant steering wheel. Kit includes complete detailed instructions, a die cast hub, grade 5 hardware and matte black trim pieces.

Trunk Mats

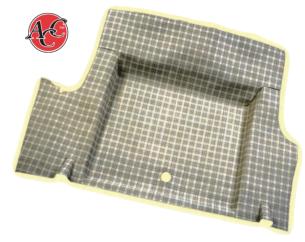

- · Factory hole locations
- · Original-style patterns
- · Correct patterns
- · Die cut/molded
- · Exact fit
- 6.5 ounce vinvl
- · Fire safe (vinyl mats)
- Top quality

MAC's offers top quality trunk mats for most to all models of Galaxie. Full-Size, and Mercury Marauder. All mats are made using original style patterns and are die cut to fit your trunk floor as original. All mats can be special ordered in either Plaid or Spatter vinyl. Originally, many years of Fords were available with either Spatter vinyl or Plaid print. Please specify Plaid or Spatter when ordering. We do not offer anything but the best quality in trunk mats. There are lower grades of trunk mats available elsewhere but we refuse to sell them to you. Our trunk mats are the most original trunk mats available! Most mats can be special ordered in either Plaid or Spatter Vinyl. Special orders are not returnable. Made in the USA.

Windshield Edge Garnish

This is the bottom of the windshield garnish molding that is normally deteriorated and needs replacement. On cars with the hidden windshield wipers, the bottom edge of the windshield glass is exposed (it is glued in from the back). This molding gives the bottom edge a finished appearance. Comes in a 60" length, cut to fit your application. Plastic with a U.V. stabilizer added for long lasting service.

Top Vent Window Rivet Removal Tool

- · For vehicles with vent window
- · To help remove original rivets
- · Includes tool and 4 rivets

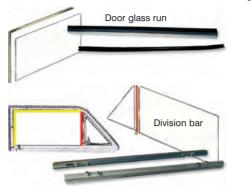

Finally the perfect tool for that tough little job of removing the original rivets. The kit was designed for Mustangs and includes top seals, the tool, and 4 rivets. The seals are for a Mustang, but the tool and rivets will work for other models. The cost is low enough that even if you can't use the seals it is well worth it. You can give the seals to someone with a Mustang and gain a friend in the process.

Rear Marker Light Bezel

- · Die-cast as original
- · Triple chrome plated to perfection

Available exclusively through MAC's. Die-cast as original, and triple chrome plated to perfection.

License Plate Light Lens Gasket

Fits all models except wagon.

Marker Light Gaskets

· Foam body to lens gaskets

Now available are the foam body to lens gaskets used on 1970 Galaxie rear quarter panel marker lights.

Sunburst LED Taillights

Ultra bright LED taillights for the 61-64 Galaxie with Sunburst effect!! LED modules replace your existing incandescent lamps for far brighter and redder taillights. New LED modules are at least 5 times brighter than regular incandescent lamps. Unique sunburst lighting effect during turn signalling. Lamps light full bright during braking and "sunburst" during turn signal activation. Lights run dim when driving lights are on and go to full bright when brake is applied. No false turn signaling during braking like other kits! Everything you need to convert a car.

Convertible Tops with Plastic Rear Window

Our convertible tops utilize 36 oz. coated vinyl over top of cotton Sateen lining. All materials are reinforced at the stress areas too! We use Pinpoint grain as original. All colors are keyed to the original Ford shades. Matching binding is used for all materials, and polyester bonded Dacron thread is utilized. Comes with a 6-year manufacturer warranty (pro-rated). Your satisfaction guaranteed! Available in black or white. Please specify color when ordering. Do not clean plastic windows with paper towels, scratching damage to windows will occur.

Note: No instructions are included. We recommend that these tops be installed professionally for best results and to protect your warranty.

· 36 oz. Vinyl coated on cotton sateen lining

· Seams are dielectrically heat sealed

· Cut to exact standards for superior fit

visit MacsAutoParts.com for our entire selection of 60–72 Engine parts and accessories

BluePrint® means fun reliable horsepower that you can drive every day. Their experience means that BluePrint® is the best choice for your crate engine. But more importantly—you want to get that horsepower from a solid, reputable company that does the job right and stands behind it.

During their history, BluePrint® has continued to build high-performance crate engines, and has always tried to give the buyer exactly what they wanted. That's another hallmark of BluePrint® Engines - they build engines for all needs and budgets.

BluePrint® 347 Stroker Crate Engine

- Every BluePrint® engine is backed by their exclusive 30 month, 50,000 mile warranty
- · Includes valve covers, painted oil pan and brass freeze plugs
- · 415 HP and 415 lb ft torque
- · Dyno tested and shipped with results
- · Compression ratio: 10.0:1
- Hypereutectic pistons
- Aluminum heads
- · Cast steel crank
- · Roller cam

Block stats: Hand-picked

seasoned blocks bored .040 over. Square and parallel decked. Align honed main bearing bore. Cylinders honed on computer controlled machine to within .0002 straightness and roundness. Cylinders are sonic tested for thickness.

NOTE: Not for use in pollution controlled vehicles

If you've been shopping, keep in mind that most crate engines DON'T come as complete as the premium engines on our site. Only these premium crate engines come complete with fuel system, ignition system, plugs, wires, and the water and fuel pumps. Also, know that you can opt for either forged or cast components on most models.

Most of our buyers are spending a lot of time on their car. Spend a little more time looking for an engine, and you'll see the BluePrint® difference!

BluePrint® 331 Stroker Crate Engine

- · 375 HP and 390 lb ft torque
- Compression ratio: 9.7:1
- Aluminum heads
- · Hypereutectic pistons
- · Roller cam
- · Cast steel crank
- · Includes oil pan, timing cover, valve covers and brass freeze plugs
- · Dyno tested and shipped with results
- Every BluePrint® engine is backed by their exclusive 30 month, 50,000 mile warranty

Engine Installation Kits

Wondering how to switch to a big block from your original small block? Look no more, our installation kits take the pain out of engine swaps. Specially made block plates and insulators allow conversion without excess time or money, these work!

351 Windsor V8 Oil Pan Conversion Kits

This dual-sump oil pan kit includes the major components you will need to install a 1969-97 351W Ford engine into your classic car or truck. This dual-sump oil pan design is often required for proper steering rack and crossmember clearance. Included is a 5 quart capacity steel oil pan, oil pick up tube, oil dipstick and tube, as well as a main cap stud. Choose your style; the oil pan is available with a standard black finish, durable zinc plating, or bright chrome. Oil pan gasket and oil pan bolts are not included.

Cobra Finned Aluminum Oil Pans

We have the original style Cobra "T" finned aluminum oil pans for small and big block engines. Originally designed for Shelby Cobra Roadsters but can be used on your Ford and Mercury. These small block oil pans feature a 7.5 quart capacity. Features "COBRA" lettering on both sides of pan and polished aluminum fins.

Harmonic Balancer

Original equipment balancers use a nitrile rubber dampening medium between the inertia ring and the outer ring. This rubber breaks down over time, and in doing so reduces the effectiveness of the dampener to cancel out damaging engine harmonics. Replace yours today and give yourself peace of mind.

Throttle Cable

• Faithful reproduction of the original, OE Ford number C5AZ-9A758-N

This accelerator cable has been something many enthusiasts have been asking about for years. Universal replacements have their place, but we are thrilled with the quality available here. The length, materials, and construction are all true to the original Fomoco part, so this will provide years of trouble-free service while looking great. You will never again have to worry when mashing down on the go-pedal! It is correct for all '65 Full Size Fords with 289s, '66-67 Full Size Fords with 289 and 390 2bbl, '68 Full Size Fords with 302 and 390 2bbl, as well as '65-68 Full Size Mercurys with the 390 2bbl.

High Performance Air Cleaner Assemblies

High Performance Air Cleaner Elements

Oval Air Filter Element

Oval air filters fit all models with oval air cleaners. Dimensions are 20.76" long by 9.76" wide, 1.5" high. Fits dual four barrels and 3x2 barrels.

PerTronix Billet HEI Distributors

carb. Ford and Mercury

The HEI system uses the coil in cap technology for a cleaner, self contained installation. The tower cap allows for aftermarket style spark plug wires and affords better contact between the cap and plug wires. Distributor features a new aluminum housing machined from A384 alloy and comes complete with dielectric strength cap, solid brass terminals, low resistance center coil brush and high performance mechanical advance curve kit with precision stamped weights and center plate. Legal in all 50 states. (CARBEO #D-57-5) Limited 1 year warranty. Cap measures 6.295" wide and 9.482" from intake mating surface to top of coil. May be used with our universal 8MM plug wire kit #60-74255.

Looking for Serpentine Pulleys?
Visit MacsAutoParts.com for our complete parts listings.

PerTronix Billet Distributor for FE Engines

This plug-n-play billet distributor for FE engines is compatible with any inductive ignition system coil, but high RPM performance can be improved when using the low resistance (0.6 ohm) Flame-Thrower II coil. If a multi-spark CD ignition box or a PerTronix Second Strike box is desired, this distributor is compatible.

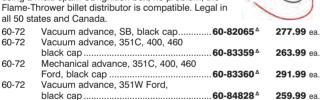

352, 390, 406, 427, 428......**60-83897**^Δ

305.99 ea.

PerTronix Billet Distributor for Small Block

These plug-n-play billet vacuum advance and mechanical advance distributors are for small block and big block Ford applications. Provides maximum ignition performance and easy installation. Features the patented Ignitor II electronic ignition module and a CNC machined 6061 T-6 polished billet housing and deck. PerTronix electronics is also compatible with any inductive ignition system coil, but high RPM performance can be improved when used with a low resistant (0.6 ohm) Flame-Thrower II coil. If you are using a multi-spark CD ignition box, no problem, the Flame-Thrower billet distributor is compatible. Legal in all 50 states and Canada.

Distributor Vacuum Line Kits

Our distributor vacuum line kits have been made to match the original Ford lines in every way! We have vacuum lines available for most Full-Size Fords and Mercurys. Please specify year, engine size, single or dual diaphragm, and transmission type when ordering

PerTronix Ignitor Hi-Performance Ignition Coils

More spark energy, with voltage to burn! These new 40,000 PERTRONIX volt Flame-Thrower coils allow higher voltage which allows larger spark plug gaps for added power, smoother response and better fuel economy. A great companion to the Ignitor ignition system and high performance spark plug wires.

PerTronix Flame-Thrower II Ignition Coils

Improved high performance Flame-Thrower II coil increases to 45,000 volts and features low 0.6 ohm resistance. This coil is compatible with capacitive discharge systems (CD box). When used with the Ignitor II ignition, creates a 479% improvement at 3000 RPM over stock coil. More spark energy, with voltage to burn! This new Flame-Thrower coil allows higher voltage, which allows larger spark plug gaps for added power, smoother response and better fuel economy. This coil is used with Ignitor II ignition systems and cannot be used with the standard ignitor.

PerTronix Ignitor II Ignition Systems

Millions have upgraded their

point-style ignitions with the Ignitor electronic module, gaining horsepower, quicker starting and longer plug life. Ignitor II takes it a step further by adding a powerful new microcontroller, that controls the dwell period, for the best possible spark over the entire RPM range. Ignitor II offers enhanced performance levels only found in more expensive "box-type" ignition systems. It fits entirely inside the distributor for the stock look, installs easily, and you'll never change or adjust your points again!

ZDDPlus Oil Additive

Today's readily available motor oil is formulated specifically for new cars and their roller camshafts. An additive, ZDDP, has been reduced over the years to a level now where using modern oil in a flat tappet equipped engine can cause excessive wear on your camshaft. ZDDPlus Restores ZDDP (ZINC) to the optimum level that existed when your classic car was designed. Adding a 4 oz. bottle each time you change your oil will significantly reduce camshaft wear. It's compatible with all the new formula, high quality oil, so add ZDDPlus to your oil routine and give your engine the protection it deserves. Use one 4 oz. bottle per oil change.

Centerforce Clutch Systems

- · The best performing clutch you can buy!
- · Allows for stock installation
- · Unparalleled frictional performance
- · Performs better than stock clutches
- · 30% More holding capacity than a stock clutch

New Centerforce brand clutch systems are the best performing clutches you can buy for your classic Ford. Allows for stock installation with unparalleled frictional performance without heavy pedal feel. Performs better than stock clutches due to the use of centrifugal force which actually increases holding power as RPM increases, and offers 30% more holding capacity than a stock original equipment clutch. Notes: Use 60-75463 or 60-75464 for correct throw-out bearing. See Note below on the 60-75462 kit.

Factory Ford Shifter Body Pins

Correct pins to fit between the shifter arm and the shifter rods for your 60-64 Galaxie 4-speed. Set includes: 3 pins with nuts, washers and cotter pins.

5-Speed Conversion Shifter Lever

This shifter arm can be used for non-stock 5-speed conversions that desire a stock appearance lever. For use with 5-speed Tremec conversions. Non functional lockout handle. Made in the USA. For 5-speed shift ball, order part # 60-74607.

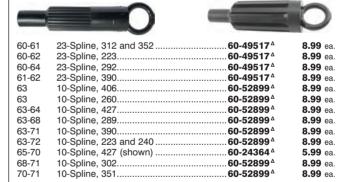

Galaxie Shifter Arm

This shifter arm is a reproduction of the original. It was unavailable for many years, so don't wait on this previously hard to find item. It fits 1962-65 Galaxie and Monterey 4-speeds with console. It includes the reverse lock out.

Clutch Alignment Tools

Made to assist you in lining up the clutch disc with the pilot bushing, it is indispensable when changing the clutch.

Clutch Throw-Out Bearing and Hub Set

Includes hub and bearing, Mercury.

60-61**60-51320**[△]

Clutch Release Lever Shaft Bushing

New and improved, made from a lubricant fortified plastic compound, it requires no maintenance and for a simple and fast installation, it has alignment tabs to help with installation.

Oversize/overweight—requires additional shipping charges

Clutch Throw-Out Bearings

Now you have a choice. If your hub is in good shape, re-use it and save some money. All you have to do is simply press the old bearing off and press our new bearing on.

Transmission Identification Code Chart

The data plate for your Ford is on the driver's door or post. To figure out what the original transmission your car left the factory with, look for the code on this data plate listed under "transmission." Refer to the chart below to see what the codes stand for. To learn more about your data plate, see the vehicle information section.

AOD Transmission Shift linkage

· Made in the USA

65-68

This kit allows a 84-93 A.O.D (Automatic Over Drive) transmission to be actuated by a factory 65-73 Mustang automatic floor shifter (not included). This combination is extremely popular in custom applications. It can be used with other shifters but will require modifications. The lever and shaft assembly in the A.O.D. must be replaced in order to ensure correct spacing and ratio with shifter. This does require higher-than-average mechanical skill. See our website for installation information.

167.99 ea.

Shift Collars

Original Ford and reproduction shift collars.

Third Member Assemblies

Units will include new gears, new bearings, new seals and new differential. Third members are now built with stock cases, brand new Yukon brand nodular iron cases and pinion supports available, see next page. Units are sold less the pinion yoke. These units are warranted against defects for 12 months and unlimited miles. Unlike other suppliers our units are sold without a core charge, a real convenience. Your choice of ratios and differentials.

Grizzly Lockers

Yukon Grizzly Locker for Ford 9" differential with 28, 31 or 35 spline axles. Mechanical positive-locking differentials have been the staple for drag racing, circle track racing, off road use and a variety of other performance applications for decades. The latest in locking differentials. The Grizzly Locker features a forged case, 8620 internals and a patent pending design which reduces common locker failures. These units provide maximum traction and strength for many performance applications.

C4 Automatic Transmission Assemblies

- · Heavy-duty clutches
- Street strip valve body
- · Pro shift servo
- Deep aluminum pan
- · One year warranty
- · Select from pan fill or case fill

Ford had a tough little transmission with the C4 when it debuted in 1964. Performance Automatic took over from there and turned this compact 3 speed into a unit that can withstand horsepower! They offer the country's most respected performance transmissions and warranties that can't be beat! Performance Automatic introduced the Super Streeter transmission line many years ago to satisfy the demands of a growing segment of street machines. The Super Streeter is equipped to handle horsepower. Firm, crisp shifts, heavy-duty clutches and bands, along with complete installation instructions, are just some of the features standard

Performance Automatic Street C6 Transmission Assemblies

- · Handles up to 500HP
- · Heavy-duty clutches
- · Street, strip valve body
- · High performance bands
- New steel pan
- · One year warranty

Since 1966 the C6 transmission has withstood the test of time. A real workhorse, this unit is a one piece design that is configured for small blocks, big blocks and FE engines. Performance Automatic has the ticket for these transmissions with superior clutches, bands and valve body circuits. They know Fords and can make an awesome C6 for you.

C6 Auto Transmission Inspection Plate

A nice reproduction of a commonly missing part. Helps keep dirt and debris out of the bellhousing. Zinc plated

Performance Automatic Street C4 Transmission Packages

- · Handles up to 550HP
- · Heavy-duty clutches
- Lifetime warranty
- · 2200-2600 Stall torque converter
- · Pro fit bellhousing
- · High performance band
- · 6-Pinion power planet
- · Hardened input shaft
- · Street strip valve body
- · Deep aluminum pan
- · High performance band
- · Dipstick and fill tube

Performance Automatic has been modifying Ford transmissions for over 35 years. No one builds more, no one builds better. Their C4s can handle gobs of power year after year. Only the best components are installed to provide years of performance driving. Put Performance Automatic's C4 in a Street Smart Package and you're guaranteed forever.

60-72	Small block 289/302/351W 60-87237 ^Δ	3814.99 kit
60-72	Big block FE 352/390/406/427/42860-87239 ^Δ	4539.99 kit
60-72	Big block 429/460 60-87238 ^Δ	4539.99 kit

Performance Automatic Street AOD Transmission Packages

- · Handles up to 450HP
- · 2200-2400 Stall torque converter
- TV pressure cable
- · Lifetime warranty
- · Chrome pan
- · Heavy duty clutches
- Street strip valve body
- Heavy duty 3/4 clutch pack
- Wide band diode pack
- Dipstick and fill tube

Performance Automatic's AOD transmission is a proven winner when it comes to non-computer controlled 4-speed overdrives. Upgraded internals like an extra wide overdrive band, diode sprag and extra 3-4 clutches combined with a shift improvement package make this an excellent swap into an earlier Ford. Dyno tested and given a lifetime warranty, these units are perfect as a replacement on any restomod.

Performance Automatic C4 Bellhousing

- · Cast from high strength aluminum alloy
- · SFI 30.1 certified
- · Add on for C4 transmission assemblies

For almost a decade, Performance Automatic has produced an incredibly versatile line of Pro Fit bellhousings. What makes this bellhousing so unique is that it is part of the Performance Automatic Pro Fit System.

This bellhousing is CNC machined to accept the 157- or 164-tooth flexplates and starters thus eliminating any guesswork for the retailer and end user.

Performance Automatic Street C4 Transmission Block Plate Upgrade

· Manufactured from .060 steel

Now one plate, one part number fits all 289-351 Ford engines whether manual or automatic transmission equipped 157 or 164 tooth flywheels! Protect your expensive starter, flywheel and torque converter with a block plate that ensures perfect starter, flywheel alignment and correct torque converter back spacing. Ventilation holes are provided to ensure adequate air circulation.

Every time we rev our high-powered Ford engines, the poor mounts are stretched to the point of tearing apart. Add to that, every little oil leak seems to find its way to the sensitive rubber part of every mount, while exhaust and engine heat combine to cook mounts to an early grave. Yet, these motor and transmission mounts have the vital tasks of keeping our drivetrains properly centered and safely anchored under every condition, while also isolating engine vibrations from the chassis and passenger compartment. Have a heart and replace those worn and weakened motor and transmission mounts today!

Remanufactured Power Steering Cylinder

The remanufactured power cylinder listed below is sold on an exchange basis. Your rebuildable core must be returned in the rebuilder's original package. The \$75.00 core fee will be refunded if your acceptable exchange is received within 90 days of purchase date.

Power Cylinder Rebuild Kits

60-64 Includes both the seal kit and rod end mounting kit, does not include boot, Ford and Mercury..

.60-33485 17.99 kit

Power cylinder seal kit. 60-64 13.99 kit

Power Steering Cylinder Boot

63-64 Accordion boot and insulator kit, includes 2 insulators, 2 washers, accordion boot and clamp,

63-64 Elbow boot and clamp kit. Ford and Mercury......

.60-351034 13.99 kit

Power Steering Cylinder Piston Rod End Mounting Kit

Ford and Mercury.....60-296814 **22.99** kit

Complete Power Steering Control Valve Rebuild

20-piece, includes ball stud and seal kit, Ford and Mercury.

60-334864 61-64

Power Steering Control Valve Seal Kit

15.99 kit

Power Steering Control Valve Sleeve

When you are replacing the ball stud, be sure to check the sleeve for wear. If it's worn, your new ball stud won't work properly and it's a lot easier to replace it now than to have to tear your control valve down again later.

22.99 ea.

Power Steering Pumps

Saginaw pumps run much quieter and are capable of generating more pressure and flow than stock Ford pumps. Pump upgrade kits include the correct pump, bracket, and pulley for your application.

Remanufactured Power Steering Pump Rebuild Service

Due to lack of rebuildable cores we must rebuild your original power steering pump. When sending in your Eaton pump, DO NOT SEND THE RESERVOIR. Your rebuilt Eaton pump will not include the reservoir, only the pump is being rebuilt. Eaton pumps were made in 2 styles—"front mount" and "rear mount". These are not interchangeable.

Order on our MacsAutoParts.com and a service form with complete instructions will be emailed to you.

Power Steering Pump Aluminum Mounting Bracket

This is the aluminum mounting bracket for the power steering pump for all V8s except the 429. Ford and Mercury, 1970 Mercury with 390 and 428, 70-71 Ford with 390 and 428. Made in the USA.

Power Steering Control Valve Socket Housing

Reproduction power steering valve socket housing. Made in the USA.

Power Steering Control Valve End Cap

Reproduction power steering control valve end cap. Made in the USA.

Power Steering Pump Adjusting Brackets

This is the power steering adjusting bracket for all 1967-69 Ford engines.

67-69	Small block	60-75365△	106.99 ea.
67-69	Big block	60-75366△	126.99 ea.

Remote Power Steering Reservoirs

This is the best setup available, with your choice of smooth or ribbed styles. Our remote power steering reservoirs are much more than empty cans; the double O-ring sealed breathable cap relieves positive and negative pressure while keeping your engine compartment clean. Forget foaming and fluid turbulence with our innovative internal return tube. The mounting hardware is completely hidden! Includes male AN fittings on the bottom of the reservoir. Will require hose fabrication. NOTE: Bracket should be installed at center of reservoir.

60-72	Smooth	. 60-83652△	213.99 ea.
60-72	Ribbed	. 60-83653△	202.99 ea.

Tilt Steering Column Upper or Lower Tube Bearing

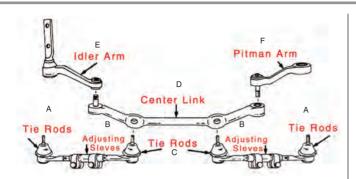

- · For tilt column only
- · Used on upper and lower positions
- 1-1/2" O.D. x 1 1/16" I.D. x 1/4"

Have grinding when you turn your steering wheel, or can feel resistance? The bearings, especially the lower one are a likely suspect. They get dirt in them, or lose their lubrication and they no longer do their job. It's a good idea to replace both while you are at it and you

will really notice the difference. Carefully inspect surrounding surfaces while your column is apart. Any burrs or missing areas will shorten the life of your new bearing.

A) Outer Tie Rod Ends

Correct replacement outer tie rod ends are available for most models. Made in the USA.

Galaxie Lowered Coil Springs

New lowered coil springs are custom built to allow lowering your classic Ford from one to three inches. We have our coils built using the original Ford print specifications for load and height and have engineered the springs with the lowered height without compressing or cutting a coil. These are made the right way. Get your lowered leaf springs to go with them for the ultimate lowering package. Specify 1, 2, or 3 inch drop when ordering. Custom made, please allow 2-3 weeks for delivery. Made in the USA!

Steering Gearbox Coupler

- · Quality reproduction part
- 11/16"-36 Spline x 3/4" smooth bore

Using a 2" straight extension, called a coupler, to extend the steering box, rack and pinion shaft or the column shaft, can sometimes eliminate a

universal joint. The coupler can be welded or pinned to the un-splined end of a shaft. The 1"- 48 and 1" DD couplers have a 1-1/4" hole that will accept either an adapter to reduce inside diameter to 3/4" smooth or another splined or 3/4" DD coupler. The coupler assembly would have to be pinned and, or welded together. Welding the coupler is acceptable because there are no moving parts to damage, and the coupler's steel is less susceptible to heat damage from welding. Couplers are available in the same spline and Double D sizes as our universal joints.

......60-75368△

19.99 ea.

Steering Gearbox U-Joint

- · Quality reproduction part
- · 3/4"-DD x 11/16"-36 spline

Borgeson u-joints are machined from stainless steel in our factory on state of the art CNC equipment. Ongoing engineering and testing ensures our components meet or exceed current automotive production vehicle requirements. Any of our 4 Double D (a round shaft with two flats) sizes or 14 different spline size yokes can be combined to mate components from many different manufacturers. They operate at angles up to 35°. For example, with our components, you could easily connect a GM column to a new Mustang II rack and pinion or a Ford column to a Saginaw box. Similar to OEM u-joints, the staked needle bearing caps prevent loosening and adjustment malfunction.

76.99 ea.

Steering Gearbox Rag Joint

- · Quality reproduction part
- · 11/16"-36-Spline x 3/4"-DD shaft

On some factory applications, a flexible coupling or rag joint was used to attach the column to the steering box when there was perfect alignment. If the original column or box is changed, the stock coupling may not work. Borgeson offers the largest variety of spline and DD sizes to fit most applications. Flexible couplings are only available in steel and should only be used when there is a perfect alignment between the connecting shaft and

steering box.

Front 4-Piston Disc Brake Conversion Kit

- · Rotors
- · Calipers
- · Master cylinder
- · Proportioning valves
- · Wheel bearings
- · Flex hoses
- · All necessary mounting hardware
- · Brake pads (organic)

We offer a complete front disc brake conversion kit for 1960-66 Galaxie. This super value kit has everything you need to totally convert a production drum brake equipped car to factory 4-piston disc brakes. All parts are new and made to original specifications. This 45 piece kit comes complete with detailed installation instructions. We recommend professional installation.

NOTE: Original steel wheels may not work with this kit. May not clear 14" wheels made for drum brakes. This part not eligible for volume discounts.

Single Piston Disc Brake Conversion Kits

This kit features special adapter plates that let the customer utilize their stock spindles. The advantage to this is the customer does not have to remove the spindle (no spindle tools for ball joint separation or re-installation needed) and does not have to have the front end

re-aligned, saving time and expense. Additionally, this kit uses a smaller, lower profile caliper that allows the use of most factory 14

inch wheels. This kit works with the factory 5-lug drum brake applications only. All disc brake kits come with detailed instructions and will require custom lines to be run from the master cylinder to the calipers. We recommend professional installation.

	and 1/4" brake lines	60-73878△	62.99 ea.
60-72	For dual bowl master cylinders	60-73874△	103.99 ea.

Remember that the metal brake shoes are usually faced with brake linings of different length. The shoe with the shorter lining is called the "primary" shoe and it goes on the front side of your brakes, toward your headlights. Before you install new brake shoes, be sure to check the condition of the grease seals. It's good insurance to replace them now and save yourself the trouble later.

Relined Brake Shoes

Always measure your drum inside diameter and your brake shoe width to be sure you are purchasing the correct set of shoes. The relined brake shoe sets listed below are sold on an exchange basis. Your rebuildable core must be returned in the rebuilder's original package.

The \$40.00 core fee will be refunded if your acceptable exchange is received within 90 days of purchase date.

Power Brake Booster and Master Cylinder Assembly

Since there is a shortage of cores, you will have to send your original unit in for us to rebuild. We will disassemble, clean and replace any defective parts and bench test the unit for proper operation. Please remove all switches, fittings and attaching hardware before shipping. If your master cylinder has a metal screw-on cover, it will be replaced with a plastic cover, so if you want to keep your original cover, do not send it in. Include your daytime phone number so we can contact you if necessary. Usual turnaround time is 3 to 4 weeks from the date we receive your rebuildable unit. Our power brake booster assemblies are intended for replacement of malfunctioning OE units only. They are not intended for conversion from manual to power systems.

If your master cylinder is the heart of the brake system, then the wheel cylinders are surely the muscles. They directly convert hydraulic pressure into the mechanical motion that presses the brake shoes against the rotating brake drum surface, stopping the vehicle with a huge amount of friction. If a wheel cylinder freezes up or begins to leak, the entire system ceases to function properly. We have all experienced the frustration of bleeder valves that are stuck, or worse, that break. Be sure your brake system is in tip-top shape with brand new wheel cylinders! Remember, you must verify the wheel cylinder bore size before ordering!

Heat Riser Valves and Spacers

Heat Riser Valves

Don't call the salvage yard to see if they have a rusty, corroded heat riser for your car! If you have a '60 or '61 Ford or '61 Mercury with a 352 we have a reproduction heat riser valve for you.

Heat Riser Spacers Only

If you decide not to add an original looking heat riser, we also have a low cost alternative—our spacer. No more stacking gaskets to take up the space, our spacer fits perfectly so your exhaust hooks up easily!

Mega Copper Silicone High Temperature Gasket Sealant

Heat resistant up to 700°F. Hi-temp sealant is used to replace cork, rubber, silicone, felt and other cut gaskets to form a leak-proof seal. Resists oil, grease, water, antifreeze mixture and transmission fluid. More flexible than conventional gaskets, it can be used on water pumps, exhaust manifolds, valve covers, timing gear covers, transmission pans, water neck outlets or any place a high-performance gasket is needed. 3 oz. tube.

60-7260-23701^Δ 7.99 ea.

Exhaust Manifold Hardware

Exhaust Hangers

- · Have correct steel and rubber construction
- · Riveted metal tabs

The engineers knew what they were doing when they designed the exhaust hangers for the '63 big Fords. What they came up with provided the correct vibration and noise insulation, and kept the exhaust system stationary in all types of driving conditions. Unfortunately universal hangers are what a lot of people have had to use, and they don't match up to the original function. Now we are happy to have these correct hangers that look like the originals and work like what the engineers intended.

Hardtop and Sedan 2-1/2" Aluminized Dual **Exhaust System with Turbo Mufflers**

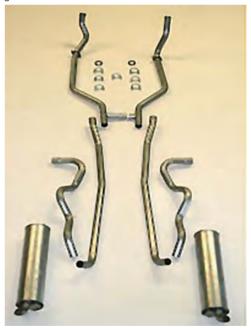

- · From stock long cast iron header-style manifolds back
- · Two stock looking turbo mufflers in the original location
- · Aluminized for long life and good looks

This system fits 2- and 4-door hardtop and sedan, but won't fit convertibles or station wagons. It features the original pipe bends, muffler shape, and location. Unlike the original, ours has 2-1/2" aluminized pipes with mandrel bends and turbo mufflers. This configuration produces a low, throaty tone without drone at cruising speed. It works with original hangers (not included), but you can purchase universal hangers from us or locally. This is an extremely high-quality exhaust system, and will compliment even the nicest cars. You would be hard-pressed to find a local exhaust shop that could produce something close for any price. The best part is you should never need another exhaust system, no matter how your choose to use your car.

Carburetor Rebuild Service

Which is worse on a carburetor...years of rough service, or sitting around a garage while old gas turns to varnish in tiny jets, ports and orifices? Who knows? But we do know that top quality rebuilt carburetors will eliminate all of those typical carburetor problems and provide you with smooth, reliable performance for years. Send us your carburetor to be professionally rebuilt. We have looked for years for a high-quality rebuilder to come forward and stand behind their craftsmanship and we've finally found exactly that! These units return live-engine tested and restored to an O.E.M. appearance and include:

- · Master rebuild kits installed
- Floats
- Needle and seat
- Gaskets
- · Choke cover
- · Fuel filters (when originally equipped)

Since we have no cores we must rebuild your exact carburetor. Send us your complete rebuildable unit and we will completely clean, inspect and rebuild it. Include your daytime phone number so we can contact you if necessary. Usual turnaround time is 3 to 4 weeks from the date we receive your core. The rebuilding price listed below assumes the entire assembly is intact and in decent condition. If any major parts are missing, if the unit is not rebuildable, or if the cost will be greater than the prices listed below, we will advise you.

Carb Spacer Plate Gaskets

Carburetor Needles and Seats

This new design needle and seat will cure the many ills of a conventional needle and seat. It helps to eliminate "flooding," dirt and rust sticking to the needle and gives a more consistent fuel level. All this adds up to better fuel economy and as an added bonus, it will outlast any currently available needle and seat. It is precision made and the inverted flare seat provides positive sealing and improved fuel control. The needle contains a high quality "fluorocarbon" alcohol resistant rubber disc that rotates in the end of the needle, thus ensuring a positive seal every time. Install one in your carb and you'll reap the benefits from day one.

Carburetor Choke Thermostats

These are not run-of-the-mill generic chokes. They are calibrated to specific carb tag numbers. If you are lucky enough to still have the original tag, you can match the numbers up and get the correct choke for your car. If no tag is present, match up the years, engine size and type of carb to get the correct choke. Either way, you'll have a choke that will help your car start more easily, run better and it might even get better gas mileage as a result.

ETHANOL (E10) INFO, ADVISORY

PLEASE NOTE: With Ethanol (E10) fuels being widely used, we are doing all we can to provide the very best alcohol-compatible parts currently available. The long-term effects of this additive upon our classic vehicles are yet to be realized.

With any new carburetor or gasket kit, we strongly recommend a high-quality filter and that it be changed on a frequent basis, as well as using our fuel stabilizer 60-52310, for any long-term storage.

FiTech Fuel Injection Kits

· Replaces your single 4 barrel carburetor with precise fuel injection technology

· Works with factory or aftermarket single 4-barrel intake manifolds and air cleaner assemblies

· Uses same throttle and transmission linkage as 4150 Holley carburetors

· Supports normally aspirated, supercharger, turbocharger and nitrous

· Instant starting and throttle response (even after long term storage)

· Improves mileage, offers superior all-climate drivability

Never buy a carburetor again! FiTech Fuel Injection is dedicated to engineering, developing, and producing the most advanced and affordable electronic fuel injection systems on the planet. This system replaces your single 4-barrel carburetor with precise fuel injection technology. It works with factory or aftermarket single 4-barrel square bore intake manifolds and air cleaner assemblies. You will enjoy the way it eliminates hard

starting, sputtering, cold start difficulty, and interior fuel smell. Also unlike a carburetor you will see instant starting & throttle response, even after long term storage along with improved mileage and superior allclimate driveability. This system is so advanced that it self-tunes in minutes with no laptop required. It is truly an investment in the future enjoyment and reliability of vour vehicle

FiTech Go EFI 2x4 Dual-Ouad Fuel Injection **Master Kits**

- · Fits factory and aftermarket (Edelbrock, Holley) 2x4 4-barrel V8 intake manifolds and air cleaner assemblies, Note: does not include intake
- · Uses same throttle and transmission linkage as 4150 Holley carburetors, instant starting and throttle response (even after long term storage)

Dual guad EFI! Nothing says muscle like 2 big 4-barrels on a V8. FiTech EFI has made it simple with their Go EFI 2X4 625HP self-tuning system. This kit is a bolt on for the most popular manifolds including the Edelbrock line of dual guad manifolds WITHOUT any adapters! They fit and look like they belong there because they were designed to fit from the start. Our normally aspirated kits are good thru 625HP, but our Go EFI 2X4 POWER ADDER kit can handle you guys with the bigger cubes and Roots superchargers. One throttle body handles all of the brains while the second holds 4 additional injectors, and the IAC motor for idle stability. These can also be used in cross ram and tunnel ram configurations. No boost with these please!

FiTech Inline Frame-Mount Fuel Delivery Kit

- Use this kit with any aftermarket EFI conversion kit that supports up to 600-625HP
- · Kit includes a 255LPH fuel pump
- Pre and post fuel filters
- Necessary hose ends
- · Billet fuel pump
- · Clamp and 25 feet of EFI rated hose

This kit features a 255 L, PH external inline fuel pump capable of handling up to 600 HP. Select this option for your fuel delivery system and you will have a 255 L, PH inline high pressure, high volume EFI pump that will provide enough fuel delivery for up to 600 HP. Kit also includes fuel lines, fittings and two billet fuel filters and enough premium quality hose for an inlet and return line. The filters include a 100 micron pre-filter and a 30 micron post filter. Note that when using this pump a return line to the fuel tank is required.

FiTech Fuel Injection Fuel Command Center

- · Simplifies adding EFI fuel system
- · Supports enough fuel to feed 800 HP
- · Will not starve for fuel even if on a steep incline

The FiTech Fuel Command Center assembly is mounted in your engine compartment. It can also be mounted anywhere on the vehicle's chassis if necessary. The conventional fuel line that originally went to your carburetor is connected to the "IN" port of the Fuel Command Center. A supplied high pressure hose is plumbed from the Command Center to the inlet port on your EFI throttle body. When the engine is running the Fuel Command Center pump supplies high pressure (58 PSI) fuel to the EFI throttle body.

Holley Street Warrior 600CFM Universal Carburetor

- · Performance upgrade for stock to mildly modified V8 engines
- · Calibrated for excellent street performance right out of the box
- · Vibratory polished aluminum for good looks and long lasting shine

Holley has been the world leader in carburetors for over 100 years. We are proud to announce the newest member of our carburetor family- the Street Warrior. The goal in designing the Street Warrior was to take all of those years of experience and build the ultimate performance street carburetor for your daily driver that would not break the bank. Don't let the low price fool you. The Street Warrior uses the latest technology and quality products that Holley is known for. Constructed from aluminum and calibrated to run great right out of the box. The Street Warrior is a great replacement carburetor for your daily driver or your weekend cruiser. Perfect replacement carburetor when your original style is no longer available. Replaces Holley, Edelbrock, Carter AFB, and Autolite style carburetors with 5 3/16" x 5 5/8" bolt pattern.

Classic Holley 750 CFM Carburetor with Electric Choke

One of the most widely used Holley carbs of all times - the 0-80508S! Its dual feed fuel inlets assure you get all the fuel you need and its 750 CFM of airflow makes it the perfect performance upgrade carb. Its vacuum secondaries and electric choke make it super easy to use on a wide range of vehicles. Don't trust your performance to just anyone, Holley is the only modular carburetor company that has been in business for over 100 years and

has powered every NASCAR champion since the 60s.

Mr. Gasket Fuel Line For Holley 4160 Series Carburetors

- · Chrome plated 3/8 in copper
- Hex design fittings
- Fits most Holley 4160-style carburetors with primary metering block and secondary metering plate

This is the perfect fuel supply line for dual-inlet Holley 4-barrel 4160 Series carburetors. It has generous 3/8" tubes to

supply plenty of fuel, and the threaded fittings have the necessary 8-21/32" centers for the 4160. The bright chrome plating of the gas line kit adds the special "touch of class" to your engine compartment. It's constructed with copper tubing, brass fittings and silver brazed connections. The "hex" design provides wrenching area for easier installation of fittings. It does not include inverted flare fittings. If your carburetor requires 7/8-20 threaded inlet, please use Holley part #26-26 fittings.

Electrolysis Protected Radiator Cap

This radiator cap features a sacrificial magnesium anode that protects aluminum and other soft material engine components from electrolysis. Electrolic metal erosion (EME) is slowly destroying your engine components and attacks timing chain covers, radiators, heater cores, mainfolds, freeze plugs, head gaskets and even cylinder heads, causing premature failures. By allowing EME to attack the sacrificial anode, this cap protects your engine while driving or in storage. Stop electrolysis!

Flex-A-Lite Dual Electric 12" Fan Kit

It pulls 2500 CFM and totally eliminates the need for the stock fan and shroud.

Electric Fans

60-72

The ages old method of circulating air underneath your hood with an engine driven fan has never been very efficient. Modern cars use an electric fan mounted in a shroud attached directly to your radiator and now you can too. Our new kits come in 3 diameters, so simply measure your radiator to decide how big you want to go.

All of our fans are "pullers", meaning they mount on the engine side of the radiator. Their CFM rating is constant, so even at parade speeds your engine will stay much cooler.

Each kit includes:

- · Fan and mounting hardware
- · On, off switch and mounting hardware
- · Wiring harness, wire ends and wiring loom
- · Installation instructions

All the applications listed below are for the 60-37441 pulley. This is a single groove, 6-1/8" OD pulley with an original stamping number of C5OE-8509-A, and is painted gloss black.

Water Wetter

Is your engine running hot? Cool it off with Water Wetter. Adding one 12 oz. bottle to 12 to 16 quarts of coolant can drop the operating temperature up to 20°. Not only that, you will be reducing rust, corrosion and electrolysis in your cooling system. It's modern science for your classic car.

*HAZARDOUS MATERIAL—can only be shipped by ground, surface within the U.S. because of government regulations.

FlowKooler® Water Pumps

Now you can easily bolt-on a higher flow water pump that will reward you with a cooler running engine and eliminate horsepower robbing characteristics of your O.E.M. pump. Featuring improved impeller design and enhanced efficiency, the FlowKooler® pump could very well be the solution to your search for the ultimate in cooling for your classic Ford.

Water Pumps

Water circulating throughout your engine is critical to its longevity. Don't take a chance on an "iffy" water pump, choose from our complete selection of new or remanufactured pumps and get that water moving to keep your engine cool! All of the water pumps listed below include the mounting gaskets. Also see our "TOP OF THE LINE" FlowKooler® water pumps (above).

292 and 312 V8, Ford and Mercury.........60-28816^Δ 292 and 312 V8, This greatly improved version does have a concours correct housing scoring points for authenticity, but the improvements made inside make this the best pump for your classic. It utilizes modern ceramic shaft seals for their superior sealing ability and the pump shaft bearings have been replaced with a combination of ball and roller bearings that do a much better job than the original double row of ball bearings ever did. This pump offers you the best of both worlds by combining modern quality and reliability inside while looking completely original from the outside.

Mega Copper Sealant

The solution to those times when a gasket just doesn't seal-our gasket in a tube! This is the same type as used in many places on most new cars built today. It replaces cork, rubber or any other type of cut gasket to form a leak-proof seal. Exceeds O.E.M. standards, resists oil, water, antifreeze mixture, grease and transmission fluid, use it on thermostat housings, water pumps, exhaust manifolds, valve covers, timing gear covers, transmission pans, water neck outlets or any place a high performance gasket is needed.

ALL 3 oz. tube, Ford and Mercury *60-23701 ^Δ 7.99 ea.

*HAZARDOUS MATERIAL—can only be shipped by ground, surface within the U.S. because of government regulations.

Replacement Fan Blades

These fan blades might also work for other applications not listed below. They measure 17" in diameter, with a 5/8" center hole. Cannot be used on those vehicles with a fan clutch.

visit MacsAutoParts.com for our entire selection of 60–72 A/C and Heating parts and accessories

This all new Perfect Fit ultra high performance air conditioning system is a robust heat/cool and defrost total climate control system that replaces the old heater/defrost box. This system is designed specifically for your 63-64 full size, not a generic system. The factory heater panel controls the system. Floor and dash A/C and heat with dehumidified defrost provide the driver with total airflow and control and superior passenger comfort in all climates. Large separate heat and A/C coils are very important features exclusive to the Perfect Fit series. If you want air conditioning for your car, no other system compares.

Perfect Fit Features:

- · Designed to outperform original and competitor systems
- No rubber A/C or heater hose on interior side of firewall
- Latest most advanced OEM-style blower assembly
- Large separate cooling and heating coils like OEM
- · Easy to follow photo illustrated instructions
- · Floor and dash heat/de-humidified defrost
- Compressor hi/low pressure safety switch
- Highest quality OEM control cables Stock heater control panel utilized Specifically designed for your car
 Smooth firewall for a clean look
- In- or under-dash A/C vent OEM-style doors Full 3-year warranty
- .60-83980 ^Δ

Gano Filter Heater Core Filter

Rust scale and gasket material can collect in the heater core forcing one to replace the heater core at great expense. This Gano filter installs in the hose that connects between the engine and the heater input. It catches rust scale and gasket parts before they can clog the heater core. This is a permanent accessory that can be disassembled, cleaned and replaced.

Heater Inlet Collars and Connectors

This rubber bellows sits on top of the heater box and no one ever pays any attention to it until they find bits of rubber on the passenger side floor. Even in the nicest car, this part is almost always

dry-rotted and falling apart. Our new reproduction is made of high quality rubber and includes the built-in metal squeeze clamp on top for an airtight connection.

Horn Assemblies

Exact Reproduction. One of the great things about owning a special old vehicle is riding around 'tootin' and wavin' at the people you encounter. Unfortunately time really takes its toll on electrical components, especially horns, which severely limits the 'tootin' and wavin'. It takes healthy high and

low pitch horns to recreate the great sound your pride and joy had from the factory. Now we have the opportunity to have these very high quality reproductions of the originals at a reasonable cost. Unlike a lot of other replacement horns, these are die-cast metal, bolt directly to the original brackets, and have the correct stamped steel cover. If you only need one. this new version won't look out of place with your original.

60-64	Low pitch (shown)	.60-3935044	39.99 ea.

Turn Signal Switch Repair Kits

The most common problem with turn signal switches is that the self-cancelling feature no longer operates. After every turn you have to manually turn off the switch. The reason for this is usually a broken actuator arm. If that is the case in your car, we have just the repair kit you need. It consists of a new actuator arm for both sides,

2 wires that need to be spliced into the switch and the required fasteners.

60-64	Ford	24.99 ea.
63-64	Mercury	24.99 ea.
65-67	Ford and Mercury	28.99 ea.

Ignition Switch Cylinders and Keys

To remove the ignition lock cylinder, insert the key and turn to the accessory position (all the way to the left). Insert a paper clip in the small hole on the face of the cylinder and depress the release pin. Continue turning counterclockwise to pull the cylinder out. To replace with a new lock cylinder, insert the new cylinder and turn the key clockwise until vou hear a click. That's it!

Engine/Trunk Compartment Lamp Kit

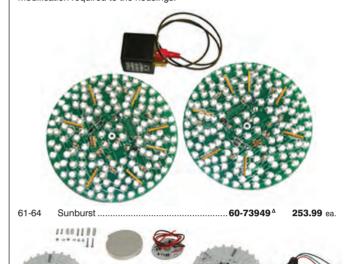

This exact reproduction of a popular OEM accessory from the sixties includes a hammer-tone gray finish housing, a bulb and enough wire to connect it to any 12-volt power source. Its motion activated mercury switch takes care of turning it on and off. Add this period correct accessory to your 60-72 Ford or Mercury and let there be light!

Ford and Mercury..... .60-34793 28.99 kit

LED Taillight Kits

Replace those dim taillights with this LED kit! New LED technology creates lights that are far brighter than original bulbs, draw less current, and last far longer. Units plug into stock sockets and fit under stock lenses, to allow your car to look original until you use the lights. Easy plug in installation, no modification required to the housings.

Taillight Socket

Reproduction of original. Metal socket with double contacts. With wires, Galaxie, Full-Size Mercury..... 60-31707^a **6.99** ea.

Instrument Cluster Voltage Regulators

This part is located on the back of your instrument cluster. When it goes bad all of your gauges will give erroneous readings.

USA-630 AM/FM Stereo Radios

In addition to many great features, this radio has some serious power: 300 watts (75W x 4)! It also has an iPod interface with a 3-1/2' cable. Navigation for the iPod includes artist, song, album, and playlist, all controlled with the buttons on the radio. With

its black bezel and chrome knobs, this radio has the correct nostalgic look but with all the features you have become accustomed to in your modern car. Since it fits in your dash with no modifications at all and complete wiring directions are included, installation is guick and easy.

Features include AM/FM/USB flash drive player, digital clock, 16-station presets (4 AM, 1 FM), USA/Euro tuner, USB port for flash memory, power antenna lead, MP3/WMA playback, separate bass and treble, left and right balance control, CD changer control, electronic volume, front to rear fader and tuning controls, 4-channel RCA pre-outs, loudness compensation, digital EQ, USB port for flash memory MP3/WMA playback, an alpha-numeric display for MP3/WMA files, and 2-channel RCA input for iPod, MP3, or satellite radio. RDS tuner shows station, song, and artist on LCD display.

Redi-Rad Radio Mobile Device Adapters

- · Allows you to play your mobile device ('Smart' Phone, MP-3 player, satellite radio receiver, etc.) Through your existing functional FM radio/stereo
- · Mounts easily under dash out of sight
- · No modifications to car or radio required
- · Connects using standard 'Motorola' antenna connections
- · For factory or aftermarket FM Radios and stereos

RediRad provides the auxiliary-input you want without yet another radio replacement or dashboard modification: Enjoy your favorite music using any smartphone, portable CD, i-device, MP3 player, or satellite radio dock through your existing functional factory or aftermarket stereo system! If your radio tunes local FM signals, choose RediRad model FM to seamlessly enjoy the 'AUX IN' capability you want without replacing your existing system! An 'AUX' cable of sufficient length is provided to plug into your headphone jack. There is no broadcast interference. If you have only AM you're still in luck; we also offer an AM-only version which works with 6 or 12-volts.

ALL	For 12-volt negative ground		
	FM radios and stereos	. 60-377481 △	99.99 ea.
ALL	AM-only version	. 60-94996 △	99.99 ea.

Important Installation Information:

All stereo equipment in this section require a 12-volt negative ground. Use of any other ground will destroy the radio. All of these radios are engineered to fit the original dash opening with no cutting, grinding or snipping. All brackets, wiring and plugs, mounting hardware, a chrome bezel and original-looking chrome knobs along with installation instructions complete the package. All of our radios carry the manufacturer's 2-year limited warranty.

Rocker Molding Clip Set

Original style molding clips require a larger hole in the rocker panel than the new style clip, If your car has the original holes in the rocker panels, use the original clips. If your car never had moldings and does not currently have holes, then you can choose between either set. You will drill smaller holes with the new style.

Rocker Panel Molding Clips

These are the original stamped clip you need.

Radio Hardware

Wire grommet, for antenna lead wire.

61-67 **.....60-27075**^Δ **5.99** ea.

Upholstery Hardware

We offer high quality hog rings and pliers for those who are skilled at installing their own seat covers. However, if you have never done this job before, we recommend that you take our premium upholstery kits to a professional trim installer for best results. Their many years of experience have taught them countless techniques for getting the proper fit without unnecessary wrinkles, sags, or other little imperfections. Unless you are experienced at installing reproduction automotive upholstery, search for a professional installer near you.

ALL Upholstery ring set, 100-piece......**60-55449 3.99** set

60-67	Door trim panel clip set, 50-piece,		
00 07	Ford and Mercury	60-30680△	11.99 set
68-72	Door trim panel clip set, 50-piece,		
	Ford and Mercury	60-41856△	15.99 set

Exhaust Manifold Hardware

Fiberglass Loom

Exhaust manifolds give off a tremendous amount of heat. That can wreak havoc on wiring or even fuel lines. Protect them with our new high heat resistant fiberglass loom. It simply slides over the hose and keeps the heat at bay.

International Orders

Most of our items are available for our International customers (except hazardous materials). We would be more than happy to give you a shipping estimate by email at Intlsales_eck@ecklers.net or by phone at (321) 269-9651.

Online at MacsAutoParts.com

You'll find our entire range of 60–72 Ford and Mercury parts on MacsAutoParts.com and we're always adding NEW PRODUCTS, so check back often!

SAVE THE SHIPPING

Two Locations for FREE In-Store Pick Up!

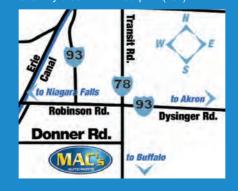

To improve your shopping experience, we can ship your order to either of our showroom locations— MAC's in Lockport, New York, or Eckler's in Titusville, Florida—and get the added benefit of FREE in-store pick up. Place your order by phone or online and we'll contact you when it's ready to pick up. Excludes drop-ship and truck freight items.

DON'T FORGET, if you choose to pick up your order at either location, the shipping is on us.

Lowest Price Guarantee

MAC's Guarantee is simple: You always get the best quality parts at the lowest price! Show us the identical item advertised in any current magazine, catalog, or website and we'll match our competitor's current price, guaranteed! This offer is available only at the time of purchase and applies to in-stock merchandise only. We can't combine this with any other offer. Tires, restoration services, kits. window glass, cores, reproduction batteries, certain engines, transmissions, used parts, special order parts, and shipping and handling charges are excluded.

Find the Latest Prices on our Website

Prices in this catalog were correct at the time of printing but are subject to change. Visit MacsAutoParts.com for the latest up-to-the-minute pricing as well as hundreds of items not appearing in this catalog. MAC's is not responsible for pricing changes, errors, or omissions in this catalog or online. Prices are subject to change without notice.

100% Satisfaction Guaranteed

Our commitment to you: If for any reason you are not 100% satisfied with any of our products, return them for a full refund, credit or exchange—your choice.

Best Parts, Best Price

This is not just a slogan! MAC's is committed to providing the highest quality parts at the most competitive prices. We source and select all of our parts exclusively from the world's leading brand name manufacturers using our massive buying power. This means you get the best there is, at the best prices in the market today.

Shipping and Handling

Check MacsAutoParts.com for current shipping and handling estimates. In the catalog, denotes items that ship via truck, and denotes oversized dimensions or weight, which incur additional charges.

Gift Certificates

Perfect for when you just can't decide. Available in many different amounts from \$25 right up through \$1,000. Redeemable for any items we sell.

Need it Fast?

Have your order delivered within 1 or 2 business days by using Express Shipping! Express Shipping is limited to in-stock, non-oversized items weighing less than 20 pounds. Orders must be placed Monday–Friday before 1:00 p.m. EST. Please contact our sales team for rates.

Same-Day Processing

Standard U.S. order processing time for in-stock items is 24 hours. If you need your order processed the same day, call us Monday-Friday before 1:00 p.m. EST and request same-day processing. For a small charge we'll provide special processing of all in-stock parts the same day.

Limited Warranty

MAC's will not be responsible for any damage or loss caused by delays, failures, consequential damage, labor, transportation, or any other charges incurred in the replacement or repair of a defective item. MAC's is not responsible for any consequences resulting from the installation of any parts.
