1964-1987 El Camino

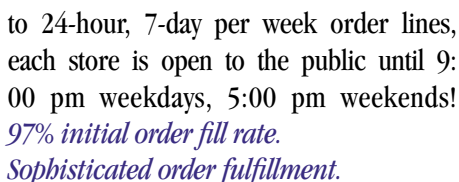

NPD[®]
NATIONAL PARTS DEPOT

2003 Edition

To some extent, so many of the variables of your restoration depend on the supplier you select for your parts. In fact, slow, undependable, expensive parts suppliers have put a premature end to more than a few hopeful restorations. Let us show you how at virtually every turn in your restoration, NPDP® helps move you ahead with the right parts at just the right time - and price, from emblems to fenders.

At the heart of our speedy service are four strategically-located, fully-stocked warehouses. If you refer to the color-coded map, you'll see that no matter where you live, chances are one of our warehouses is close enough to deliver your parts in just 1-3 business days - *UPS ground!* In fact, most of our customers take delivery in 1 to 2 business days. In addition

Our four warehouses are FULLY-stocked with everything you see in this catalog. While we can't assure that every item will be in stock at all times, each warehouse boasts a remarkably high rate of initial order fulfillment - a 97% average! If one of our warehouses is out of an item you need, our computer helps us complete your order by drawing on the inventory of the other three. In the event of a true stock-out, the computer continually

checks stock for the arrival of back ordered items and flags them for immediate shipment. It will also archive your invoice data and purchase history, so if a problem arises we can troubleshoot or trace your order.

OPEN
24/7
HOURS DAYS

Lowest overall shipping rates. Free UPS ground shipping over \$300.

We pay the shipping charges on UPS ground orders over \$300! *(except oversized orders will incur additional fees)*. If your in-state order is below \$300, you'll pay a mere 5%, with a \$6.50 minimum. Out-of-state orders below \$300 are charged 10% with a \$6.50 minimum.

*Make sure you check out our
expanded coverage of 73-83
Chevelle/Malibu and 73-87
El Caminos. Look for
even more parts to
be added in the
future!*

Canadian orders add 15% to total order with a \$10.00 minimum. If that's not enough to make you smile, truck shipments are billed based on actual shipping charges, not a flat fee. UPS 2nd Day Air, UPS Next-Day Air, US Parcel Post, Federal Express, APO, FPO & overseas shipments are all easily handled upon request. We accept Visa, MasterCard, Discover, American Express and Western Union QuickCollect as payment.

Operating on Your schedule:

24-Hours a day, 7-Days per week!

Phone the closest warehouse toll-free, any time, any day, and you'll reach a live person - not a recorder. A knowledgeable parts person will build your order, estimate shipping & delivery times, and if necessary, assist in compiling an order. Place your order before noon, Monday through Friday, and your parts will be packed and shipped by 5:00 pm that very afternoon.

Our pricing advantage. Low overall prices vs. "guaranteed pricing"

At a time when many are offering "guaranteed lowest pricing" we like to remind customers that this can be a misunderstood phrase. It seems to imply that a company has prematched the lowest price on every single part in the marketplace, thereby guaranteeing you the lowest prices. In fact, operating under a pricing guarantee, you could still place a 50-item order and pay more for every single part. The guarantee kicks in only if you are the rare person to do the required research and make a documented price challenge on each item for which you

overpaid. Mindful of those who haven't the time or energy for this worthy pursuit, we take it upon ourselves to see that our pricing is as low as practical, across the board. If it looks like we are getting beaten on a given part, please let us know - chances are there's a good reason, such as quality differences.

Industry-leading quality.

Having our roots in the restoration business, NPD® is well aware of what it takes to build a show-winner. Replacement parts must be of the highest caliber, in materials as well as workmanship. All the products listed in this catalog represent the best in their categories,

with the infrequent exceptions listed as non-concours, and priced at a substantial discount. We proudly participate in the General Motors Restoration Parts licensing program, offering licensed reproductions throughout this catalog and whenever possible. When you see this GM official licensed product emblem on the parts you buy, it means those reproductions meet or exceed GM's quality standards. Of course, if a part meets our standards, rest assured it's the best reproduction available for your classic. NPD® will continually strive to offer only those products which adds to the authenticity & value of your classic.

Thanks for shopping with NPD®.

Authentic Restoration Upholstery

Whether you're a concours restorer or a weekend warrior, we'll ship you the sturdiest, most accurately reproduced Chevelle, El Camino or Malibu upholstery made. Upholstery guaranteed to perform as well on the highway as it does on the show-circuit. The first thing you'll notice when you unpack your new upholstery is the vibrant color and rich grain achieved only with the very finest vinyl. Precise needle-work, crisp dielectrics and old-fashioned craftsmanship — all contribute to original fit, appearance, and durability.

Expect to see all the OEM design cues, whether it's the "Chevrolet" insignia on the '64 rear seat back, or the '69 "basketweave" insert. As-original, '64 seats feature Seville grain; '65-70 feature Madrid grain & '71-72 feature Madrid bolsters with Elk grain inserts. '68 & '69 upholstery comes with

vinyl-covered seat buttons. **Fair pricing structure.** You will not be penalized for ordering less than a full set. Your piece-price is simply the price of the full set minus the piece you don't need. See the chart below for pricing & color selection.

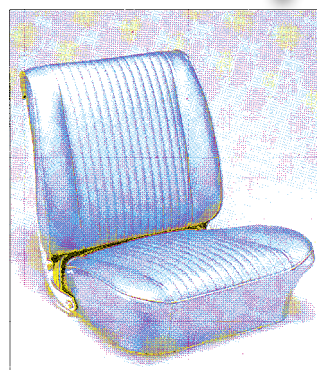

"...guaranteed to perform as well on the highway as it does on the show-circuit."

Headrest covers and seat foam are not included but are available on page 6.

TECHNICAL NOTE: All vinyls meet or exceed federal fire codes including FMVSS302

Guide to ordering upholstery:

- ☛ **Front** = upholstery for both front buckets or front bench seat
- ☛ **Rear** = upholstery for coupe or convertible rear seat
- ☛ **Full Set** = upholstery for both front buckets or front bench seat plus upholstery for coupe or convertible rear seat.

1973-1980 Upholstery

Guide to ordering upholstery:

- ✎ **Front** = upholstery for both front buckets or front bench seat
- ✎ **Rear** = upholstery for coupe or convertible rear seat
- ✎ **Full Set** = upholstery for both front buckets or front bench seat plus upholstery for coupe.

Looking for correct upholstery for your 1973-80 Chevelle, El Camino or Malibu? Stop searching and check out our newest offerings! We have 1974-77 front bench and rear coupe upholstery, plus just released: 1973-77 Malibu swivel bucket upholstery! Also newly available is 1978-80 front bucket and bench upholstery, plus coupe rear upholstery is also available! From P.U.I. the same manufacture that produces our 1964-72 upholstery, so you know the quality, durability, and authenticity are second-to-none. 1974-1977 upholstery is a bench front with armrest. It has sewn inserts of Elk grain vinyl and buttons, headrest covers and armrest covers are included. 1978-80 bench upholstery is 50/50 split w/o center armrest, includes headrest covers.

THE MODERN SEAT FOR THE CLASSIC CAR.

Tired of not getting support from your vintage seats? Upgrade to a FloFit seat - your back will thank you. These custom seats have proven side bolster architecture and an orthopedic-designed bottom and back cushion. Designed with performance in mind - with a built-in thigh extension for those with longer legs, and a 4-way adjustable headrest. Here is a complete list of features:

- Four-way adjustable headrest • Ergonomic three panel backrest
- High density foam side bolsters • Vibration absorbing seat bottom suspension system
- Scientifically shaped adjustable thigh extender • Single pull recliner mechanism
- Custom installation bracket for a perfect fit • 2 year warranty

With a FloFit seat, you get the added safety of what was missing from most classic muscle cars: A headrest! In most accidents, whiplash is often the result of no support behind the head, allowing your head to snap backwards.

Cloth Flofit

64-87 Black, Blue, Burgundy, Grey, Tan (specify year) \$499.95

Vinyl Flofit

64-87 Black, Blue, Burgundy, Grey, Tan (specify year) \$569.95

Leather Flofit (adds 2 weeks to delivery time)

64-87 Black, Blue, Burgundy, Grey, Tan (specify year) \$899.95

Rear Seat Cover

64-87 Rear cloth/vinyl cover \$419.95

64-87 Rear leather cover \$599.95

OPTIONAL: Also available with each FloFit seat are the following special-order options (may incur a 10-day delay):

Lumbar support - \$39.95 Armrest (cloth/vinyl) - \$69.95 Seat heating unit - \$149.95 Armrest (leather) - \$99.95

SHIPPING NOTE:

Each seat carries a \$12 shipping fee. Not eligible for our free shipping with \$300 order. Drop shipping from manufacturer may take longer than 1-3 business days. (68-87 owners: specify if car originally had bench seat or buckets.)

64-68	White, paintable.....	C-14875-115B	49.95

Hog Ring Cutter

Best hog ring cutting tool on market. Shears with a full-bypass cut rather than compression, so it cuts through the hog ring like butter. Nose of cutter is specially designed to draw itself down onto tightly closed rings and cutting edges are selectively heat-treated for exceptional tool life. Features soft rubber handles. Great tool for anyone who expects to do more than one upholstery job.918-1 14.95

Seat Foam Units

Restore the true factory look and feel of your seating with our concours-quality seat buns. Pressure injected, correct-density foam buns, molded to attain the original seat contours. One seat includes a top and a bottom.

15 Minutes To A New Looking Dash

Before Dash Cap

C-14656-104B

After Dash Cap

Dash Cap is the budget-friendly way to make an original-looking, long-lasting dash repair. This 1 piece unit is **countoured and textured to look exactly like your original dash.** It installs right over your damaged or cracked pad in less than 15 minutes, involving nothing more than a screw driver and supplied adhesive. Just prep the existing dash, apply the adhesive, and fit the Dash Cap over the old pad -- you'll be suprised at the professional results. Available in black only but may be dyed to match your interior.

TIRED OF TRYING TO COVER UP THAT TEAR IN YOUR DASH?

Maybe you're tired of trying to see past the glare from the sun on your dash? The Dashmat is here to help combat those woes. Available as a carpeted dash cover, these beautiful covers are custom fitted to your particular dash. They are available in a variety of colors.

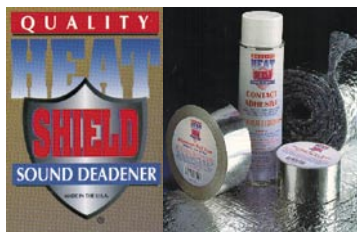

Dash MatsC-DM 29.95
Colors Available: Beige, Black, Caramel, Claret, Cocoa, Crystal Blue, Dash Blue, Gray, Navy, Red, Smoke, Spruce, Taupe.

KEEP YOUR PACKAGE TRAY FROM GETTING SUNBURNED!

If you want to keep that rear tray from getting damaged by the sun or maybe you want to cover up some nasty cracks, this rear tray cover is the answer. It is custom made to fit exactly where it is supposed to go. Available in the same colors as the dash mat. Give your salesperson your year, make and model and they can get you a rear tray mat right away!

Rear Tray MatsC-RDM 29.95

HEAT SHIELD

Your car isn't the space shuttle, but it can benefit from NASA technology! This product is not only resistant to heat up to **700 degrees F**, it reduces noise up to **60 decibels**! You can use it as a hood liner, under carpet insulation, behind door panels, and many other areas.

Typical Chevelle installation requires:

• Under Carpet - 2 sheets • Door panels - 1 sheet • Headliner - 1 sheet • Under hood - 1 sheet	
4'x6' Single sided sheet.....	970-1A 24.95
Contact Adhesive.....	3M8080 14.95

Retrofit Your Audio to Ken Harrison, Kenwood or Blaupunkt - With no dash modifications!

Audio

Automotive audio has moved almost completely away from the small-nosed format used in the 60s & 70s to a more horizontal, integrated design. Unfortunately, these high-tech units won't fit the dash of your 1964-1987 Chevelle, Malibu or El Camino, nor will the few remaining small-nosed units—without extensive modifications to your dash. So, how do you get state-of-the-art sound without destroying your classic's dash?

You're looking at the answer. Factory-approved technicians have modified the case and knob configuration of these brand-new AM/FM cassette decks so they'll fit your original dash perfectly. A support bracket is added for factory-style mounting. Installation instructions and 1-year parts & labor warranty are included. Sound like a great solution?

And we haven't forgotten all of the late model

DIN radio owners! 1986-1987 El Camino owners can have either a tape or a CD player. These Blaupunkts have the latest state-of-the-art features and fit with no problems. We even have an optional wiring harness available on page 12 for ease of installation. For all of the 64-85 owners, these radios will fit with major modifications to your dash.

Ken Harrison's 44 watt Monster

Features: PLL tuner • 30 station presets (18FM/12AM) • preset scan • AFSN • auto reverse • hard permalloy tape head • 4-way fader control • seek up/down tuning • separate bass & treble • antenna lead • tone control • LCD w/green night illumination • 44 watts • Chrome or Black face!

Banner Notes

When installing a new radio or speaker system, make sure to use all of the supplied wire and special connectors. Instead of crimping connectors, you may want to solder the wires together for a solid connection. A major cause of interference and poor reception is cheap wire and/or bad connections.

Also remember that the maximum wattage input of a speaker does not mean that should be the amount of wattage you need from a radio. Most speakers have a recommended RMS rating. All of our speakers are matched to the radios that we sell.

We welcome Visa, MasterCard, Discover, Amex, and Western Union Collect as payment

C-18008-103A ▲

C-18008-103B ▲

Dual speaker unit fits original dash with no modifications.

Obtain stereo separation through your original mono speaker port with our dual speaker assembly. Both speakers are mounted to a specially designed plate & bracket system for easy installation into your original dash speaker location. (See note for '70-72 stereo applications)

JVC 12-Disc CD Changer & Remote

Worlds smallest 12-CD Changer. Self-contained remote is compatible with all head units. **FEATURES:**

1-bit DAC • Full-floating mechanism • High precision 3-beam laser pickup • Track error recovery system • CD Text capability • 8fs digital filter • Smart eject • Hang mounting capabilities • Fast CD access (6 seconds) • Tray move indication • See through magazine • Angled mounting capability • J-link connection.

KSFR40 CHANGER CONTROL FEATURES

• Up/down CD access • Disc/track LCD display • Track skip/manual/serach • Intro scan • 2-mode random/repeat play/intro scan • Power on/off • BBE on/off switch • Wired and wireless remote • Last position memory • Variable output level control • Frequency variable in 0.2 MHz steps (88.1-89.9 MHz).

.....	18D806-2	354.95
-------	----------	--------

1-Bit DAC. The Digital Analog Converter eliminates zero-crossing or sound distortion, so the fidelity is far greater than the resistance-ladder type DAC. All components are made of heat resistant materials for greater durability. **BBE.** Based on careful analysis of sound behavior and the physical characteristics of the human ear, BBE sound processing accurately shapes sound to ensure maximum realism. With clear high frequencies and crisp vocals, you can be assured that the sound you get is the closest possible to the original recording.

\$246.50/pr

Our pre-assembled door and quarter trim panels are designed to make your life easier. For starters, the hard-to-find door top rails (garnish rails) have been reproduced and are integrated into the panels -- so one of the most tedious parts of replacing door and quarter trim panels has been done for you! The difficult task of attaching windowfelt weatherstrips has been done as well. The only thing left for you to do is transfer your old door panel emblems (see heading 14691 for emblems.) The panels used in the manufacture of these assemblies are the very same show-winning reproductions we sell separately. Dielectrics, mylar trim, vinyl color & grain match original designs. Available in all upholstery colors.

Due to their simplicity, we do not offer '64-67 panels pre-assembled
Color availability:

'68 Black, Blue, Ivy Gold, Light Blue, Pearl, Red
'69 Black, Dark Blue, Dk Met Green, Lt Blue, Lt Green, Parchment, Red, Saddle
'70 Black, Brite Blue, Dk Met Green, Gold, Pearl, Red, Saddle

'82 Black, Navy Blue, Camel, Silver
'83-84 Black, Maroon, Navy Blue
'85-87 Black, Maroon, Dark Blue, Gray, Saddle

'68-72 "GOLD EDITION" Panels

These door panels are made with the same quality and craftsmanship you have come to expect from PUI. In addition, they are now available with GM-style cardboard inserts.

These inserts give the pleated areas a defined "square-edge" look, therefore enhancing the design and originality of the panel.

These are sure to please the die hard enthusiast as well as the weekend restorer.

The 1968 panels also include the door panel molding, and the 1970-72 doors include the vertical door button. Call your sales person for more details.

Standard Door & Quarter Trim Panels

Like our concours upholstery, our door and quarter trim panels are manufactured with one purpose in mind -- to duplicate the factory parts as closely as possible. In addition to authentic appearance, these panels feature crisp, precise dielectric stitch rules and water-resistant back boards. Colors this vivid and correct grains this rich are achieved only by using 36-ounce vinyl -- heavier than factory spec. All mylar chrome appearance trim is dielectrically applied as-original, and is of the highest quality to prevent fading, cracking or peeling. Applicable holes are die-cut for easy installation.

Panels are available in all upholstery colors for '64-81 coupe, convertible & El Camino. Currently, only the upper portion of the panel is available.

14686 PAD, Front Armrest

All our pads are far superior to the molded urethane pads currently on the market. We offer the only truly correct reproduction 64-67 armrest pads — original-vinyl & foam construction with a metal base. 68-72 pads also feature correct foam fill and vinyl covering, but the internal base is hard molded plastic. Correct color & grain selection for each year.

HEADLINER BOARD, Uncovered

Finally a quality headliner is available for 78-81 Malibus! Replace your sun-dried or missing board with a new one, made from ABS plastic. The material side is rough textured to allow the material to install easily. Teamed with one of our headliners and adhesive, you have a new headliners with looks that are tough to beat! This product carries a \$20.00 shipping fee and is not eligible Towards \$300.00 free shipping.

78-81 2-door only.....C-HLB-101A 99.95

El Camino and Malibu Headliners!

Made from a vacuum formed ABS plastic for El Camino models and covered with the appropriate colors and fabric, this replacement one piece headliner is easy to install and comes with all instructions. We've even included the plastic clips that break so easily when you remove the old, sagging headliner. Our new Malibu liners can be used with the above headliner board.

Carpet

The Restoration carpet that offers durability as well as authenticity for your collectible.

No other brand of carpet makes it into more classic or muscle-car restorations. Trim shop professionals request it because of the perfect fit and original 1 or 2-piece construction. Restorers request it for the OEM color selection and perfectly original appearance. Hobbyists know it's so easy to install they can do it themselves. We stock these molded carpets in all original colors and configurations for all the classic '64-87 GM A-Body and G-Body cars. This includes Chevelle, Malibu, El Camino. We also stock carpets for all '67-81 Camaro & Firebird F-Body cars.

Construction. As-original, our carpets are made of 80/20 Rayon/Nylon loop or Cut Pile and pressure-molded using a thick poly-backing to fit the floor pan. The drivers side heel pad is correctly molded of heavy-duty rubber and dielectrically attached to the carpet as original. A 1/2" thick jute pad comes pre-attached to the underside. The carpet is made in halves just like the original, with matching trim sewn on to on the visible edge. Please specify year and color.

Logo Carpet Mats

Protect your carpet without sacrificing the look of your interior. These mats are made to match your carpet in color and texture with a **color-keyed, embroidered** "Chevelle" "Malibu" or "El Camino" logo. Made from the same yarn as our molded carpets for an exact color match. Features a heavy-duty rubber backing with carpet grippers. **Chevelle** and **Malibu** mats come in 4-piece set with embroidered "CHEVELLE" or "MALIBU" logo on both front mats. **El Camino** mats come in a 2-piece set with embroidered "EL CAMINO" logo on each.

64-87 Chevelle 4-pc set.....	SEE NOTE	69.95
64-87 El Camino 2-pc set	SEE NOTE	49.95
73-83 Malibu 4-pc set	SEE NOTE	72.95

NOTE: 64-72 are 80/20 loop.

73-87 are cut-pile.

Specify when ordering.

Also, please specify year & color.

Color availability is the same as molded carpet sets - see above.

Custom Vintage Floormats

These fantastic mats are designed to look "as if" they could have come stock in your classic - with factory-original styling and construction. Molded in thick 100% colored vinyl, each mat in a four-mat set is a custom-tailored for the position it will occupy on the floor of your vehicle. Sure-Grip cleats grab the carpet for a no-slip hold. Each mat is handsomely embossed with the officially-licensed General Motors trademark for your choosing. Rugged and durable but easily clean-able with soap and water, you'll enjoy years of use from this great product.

Deep, crisp embossments.

Car Covers

Bag it.

You don't have to be a neatnik to wince at the idea of dumping your clean car cover in the trunk with the spare tire and tools! Protect it and stay neat with this storage bag made from Kimberly-Clark fabric.

945-2A \$14.95

Protect it!

All of our car covers feature pre-installed scratch-proof grommets which will accept the installation of our CoverLock. We recommend the purchase of one of these locks, since it can complicate a crooks life just long enough to save your valuable car cover. The kit includes a 7-foot plastic-coated steel cable which runs under the car and through the grommets (twice), brass lock and 3 keys.

945-1A \$9.95

NOAH® is the cover made from the new generation of material from Kimberly-Clark. It takes Evolution 4 to new levels.

- ✓ Using three layers of patented technology bicomponent fibers that offer high strength, with superior softness for the ultimate in finish protection and gloss retention. NOAH® is extremely soft and pliable in all environments for ease of handling and fantastic protection for the finish.
- ✓ NOAH® offers true water resistance. It won't allow rain, snow or sleet to penetrate cover. It keeps your car drier even

in a driving rain. Keep in mind that these covers are water resistant (not water proof).

- ✓ Excellent barrier protection is breathable to allow moisture vapor and condensation to escape
 - ✓ Excellent barrier protection is breathable to allow moisture vapor and condensation to escape.
 - ✓ The best in UV resistance. Both material and threads are designed and tested to resist UV degradation.
- These tests show a resistance four to five times greater than non-Kimberly-Clark materials. This means the covers will last longer in outdoor use & are backed with a four year mfr. warranty. All this plus the features you've come to expect from Kimberly-Clark: Quick drying, non-mildewing. Resistant to environmental hazards— not harmed by acid rain, bird droppings, tree sap, leaves and insect fluids. Non-stretching or shrinking means custom fit covers hold their shape retaining their fit over years of use.
- Made in the USA!

Banner Notes

Our outdoor car covers are water-resistant (not waterproof). In light to medium strength showers, they will keep your car dry and protected. In a driving or persistent storm, water may intrude through stitched seams, or pass through the fabric itself. No breathable car cover that we have tested to date has been proven to be 100% impervious to water under such extreme circumstances. A non-breathable "100% waterproof" cover, however will trap moisture that evaporates up from the ground beneath the car, and can cause possible damage to your paint. Therefore, while a breathable cover is not waterproof by strict definition, it is a preferable compromise to a waterproof cover that can not breathe.

GROMMET, Antenna

Snap together grommet prevent car covers from tearing at the antenna hole.

.....945-3A

2.50

At over 25 lbs the DuraFin Heavy Canton Flannel cover is not what you'd call

an everyday cover. Designed with the serious car collector in mind, it's heavy weight and chemical coating protect expensive paint jobs from the everyday enemies of a stored auto—cat claws, bike handles, careless kids, to name a few. The material—an extra-heavy ivy gold cotton flannel, accounts for roughly 75% of the weight. The rest comes from an extremely effective protectorant called DuraFin, which coats the outer layer of the cover to create a water-resistant yet breathable home for your classic.

The Good Part. Your paint sees nothing of the DuraFin—all that touches the surface is soft, 100% tufted cotton. Even the best hand-rubbed lacquer finish suffers none of the "hairline effects" left by regular covers. **Custom-made** for each year and model to assure a snug fit. For total coverage a heavy gauge elastic trim draws the cover against the tires. Lock grommets for use with our CoverLock are installed. Matching antenna sleeve is not included, but is available separately.

EVOLUTION® 4

@> O S E O 700+

Now with UV protection!

EVOLUTION® 4 is a breakthrough fabric from Kimberly-Clark with some very unique properties. Its 4 layers offer 3 types of protection:

- ✓ **Outer layer** stands up to everything from Ultra-Violet radiation & battery acid to bird droppings.
 - ✓ **Middle 2 layers** provide a fluid and moisture barrier that allows air to circulate through to the car.
 - ✓ **Inner layer** is soft enough to pamper the most delicate finishes and waxes.
- Custom Fit.** Whatever year Camaro you own, we sell an EVOLUTION® 4 cover made specifically for that

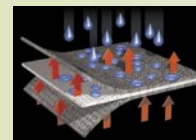

model—made to fit snug and look perfect, right down to the mirror pockets.

- ✓ **Non-Stretching, Non-Shrinking.** You buy a custom-fit cover for an exact fit—why accept less when you don't have to?
- ✓ **Breathable.** Both moisture and trapped heat can escape through this fabric. Important for classics because non-breathable covers can cause paint and interior damage.
- ✓ **Quick Drying.** Moisture is never actually absorbed by the EVOLUTION® 4 fabric.
- ✓ **Non-Mildewing.** Even if you fold this cover up wet and store it away, EVOLUTION® 4 will not rot or mildew!
- ✓ **All-Temperatures.** From sizzling summers to below-zero winters EVOLUTION® 4 fabric stays soft and pliable to do its job.

The DURAVENT features a revolutionary Microporous film sandwiched between two layers of soft but tough polypropylene. The pores in this film are small enough to prevent liquid penetration, but large enough to allow moisture vapor to pass through. In fact, this cover construction is **76% more water resistant and 42% more breathable than Tyvek®**—the house wrap material! With a lifetime warranty, the DuraVent® will provide many seasons of carefree protection.

- ✓ **3-layer**, 8-ounce spun bond polypropylene construction, with durable, double-stitched, overlapped seams.
- ✓ **Outer layer** offers protection from sun (UV protected), pol-

The Ultimate Waterproof Cover

lution and dirt. ✓ **Middle layer** is a breathable, microporous film technology that prevents liquid and dust penetration, but allows moisture vapor to pass through.

- ✓ **Inner layer** protects delicate finishes from scratches and dings.

Custom Fit. Your Camaro will be as "snug as a bug in a rug." Each cover is patterned for a great fit, and includes neoprene elastic sewn into the front & rear hems for a tight drawdown. Mirror pockets included.

Non-Stretching, Non-Shrinking. This fabric keeps its shape even after tremendous abuse. **Breathable.** Moisture and heat will escape through this fabric, preventing paint and interior damage. **Quick Drying & Non-Mildewing.** This fabric simply will not absorb water—so it can't rot or mildew!

Correct Double-Seam Vinyl Tops. Only \$69.95

Even if your Chevelle, Malibu or El Camino was not shipped from the factory with a vinyl top, no one will know after installing our exact replica.

Like the original, ours features dual seams stitched with heavy-gauge dacron-bonded thread then dielectrically heat sealed.

These correct levant grain tops are available in original Black or White for 64-72, Coupe, El Camino or Sedan.

• **\$69.95** Please specify year, bodystyle & color.

Convertible Top

When It Comes To Soft Tops, Nothing Beats Old-Fashioned Craftsmanship.

Your trim professional will thank you for supplying our show-quality soft top for installation.

If it's time your A-body had a new soft top, consider the benefits of installing our show-quality kit.

Our tops are made with 32 oz. pin-point-grain vinyl, matching the original not only in appearance, but in weight -- which means it behaves as intended by GM. (Super-weight tops might sound impressive, but they're prone to excessive wrinkling, are harder to manage, and don't give as well). Cotton bow pockets are dielectrically bonded to the inner mildew-resistant lining of the top, like original. Since these tops are made by an original equipment manufacturer -- all bonding procedures performed during manufacture are dielectric -- as specified by Detroit. Polyester-bonded thread is used in all stitching processes to assure seam integrity.

A 36-month guarantee against cracking, leaking, separating and excessive shrinking is included with your purchase. Color selection is limited to original **Black or White**, with other colors available on a special-order basis.

Please specify year, color & rear window style when ordering.

Prices:

64-67 tops feature correct brass zippered plastic rear windows. Rear window components are dielectrically bonded to the top vinyl - not glued. **CH-CT**

64-65	With full-vue rear plastic window, black.....	189.95

Convertible Top Boots

We are proud to offer the finest top boot available in today's restoration market. Made in the USA from 36 oz. American vinyl, these boots exceed the manufacturing specs of the originals. Assembly is aimed at close replication, from correct grains, double-turned bindings, exact rubber and/or plastic reinforcements and die-cut pads.

64-67 boots accept, but do not include mounting clips. **68-72 boots** feature the original plastic "tuck strip" for mounting. *Please specify year & color.*

• **64 \$99.50 • 65-72 \$79.95**

American Racing "Torq-Thrust II"

Want that muscle car look but modern wheel sizes and traction? Look no further.

These Torq-Thrust II's are offered in 6 popular sizes to accommodate the most compulsive enthusiasts! 15x8, 15x10, and 16x8 wheels may require modifications to wheel wells. Center caps are included, lug nuts sold separately.

15x6 Torq-Thrust II	C-5803-256	209.95
15x7 Torq-Thrust II	C-5803-257	219.95
15x8 Torq-Thrust II	C-5803-258	219.95
15x10 Torq-Thrust II	C-5803-250	249.95
16x7 Torq-Thrust II	C-5803-267	229.95
16x8 Torq-Thrust II	C-5803-268	239.95

Not eligible for free shipping with \$300 order—\$7.00 per wheel shipping charge will be applied to your order.

American Racing "Torq-Thrust D"

Bring that muscle car look back to your car. These are the same type of wheels that were used on the Trans-Am Racing cars of the 1960's. Available in 4 popular sizes. 15x8.5 and 15x10 wheels may require modifications to wheel wells. Center caps are included, lug nuts sold separately.

15x6 Torq-Thrust D	C-5803-356	204.95
15x7 Torq-Thrust D	C-5803-357	204.95
15x8.5 Torq-Thrust D	C-5803-358	219.95
15x10 Torq-Thrust D	C-5803-350	239.95

Not eligible for free shipping with \$300 order—\$7.00 per wheel shipping charge will be applied to your order.

NPD® highly recommends LUG-CENTRIC balancing on these wheels.

Bearing Packer

May be used with any standard grease gun to professionally pack new bearings or to repack old ones. When repacking, it's designed to force the old grease completely out of the bearing as it replaces it with new grease. Works on bearings with inside diameter as **small** as 1/2" and outside diameter as **large** as 4-1/4"

914-1 10.50

We welcome Visa, MasterCard, Discover, Amex, and Western Union as payment.

U.S. MADE, SFI-APPROVED RALLY WHEELS

WARNING: Do your wheels have this stamp?

Backside offset is the distance from the mounting surface of the wheel (surface that contacts the hub) to the back edge of rim. Pay careful attention to backside offset information when ordering.

Manufactured from scratch — don't confuse them with the remanufactured wheels currently on the market. "SFI" approved to meet all requirements for use on the highway. Powder-coated in gray for an original finish.
Not eligible for free shipping with \$300 order— \$7.00 per wheel shipping charge will be applied to your order.

REPRODUCTION MAGNUM WHEELS

Now you can own the very special 5-spoke Magnum wheels originally offered on '69-'70 SS models. Discontinued by GM many years ago, this popular option is back in production -- and on our shelves!

Each wheel is assembled to .025" vertical & lateral tolerance and welded 360". The finish is an improvement over factory: electrostatically powder-coated silver/gray with painted, satin-black windows.

Trim ring & cap are not included. Not eligible for free shipping with \$300 order— actual shipping cost will be applied to your order.

Trim ring and center cap not included, but are available separately.

TIRE SHIPPING NOTE: Tires are not eligible for free-shipping with \$300 order. \$7.00 per tire shipping charge applied to order. 1-3 Day shipping time estimates do not apply.

The year was 1967. In search of a musclecar tire to help their "SS" series battle the competition, GM turned to Firestone's Wide Oval. For the next 6 years the Wide Oval stood atop GM's high-performance duty-roster with Goodyear's wide treads. New Firestone Wide Ovals will add more than authenticity to your restoration. Their design and construction remains true to the originals; 2 ply polyester + 2 ply fiberglass, but they're produced with *today's materials & technology!* Limited to stock on hand, so at these great prices hurry and get your set before they run out! (See shipping note)

THE AUTO DOLLY

The Auto Dolly makes working on your classic car, truck, or almost anything with 4 wheels alot easier! Just support the 4 wheels with one of our Auto Dolly sets and moving your car becomes a cinch! You can roll your project anywhere in the shop without ever starting it up! It features a 1/4" thick steel plate and 4 zinc-plated bearing castors. They can support up to 6000 lbs. (using the set of 4) and are available in 8" and 12" wide sizes. So make your life a little simpler with the use of the Auto Dolly, you'll be glad you did!

8" wide set of 4	989-1	144.95
12" wide set of 4	989-2	159.95

**Foil cap crooks

system!**

5859 ANTI-THEFT SYSTEM, Rally Hub Cap

Rally wheel caps represent a rather stiff investment - but not to everyone. **Some people manage to get them for FREE!** When you leave your car unattended there is absolutely nothing keeping a thief from walking off with all four of your caps!

Protect yourself with this inexpensive and ingenious cable & ring system. No modifications to rings are necessary. One kit does all 4 wheels.

SPEEDBLEEDERS® by Russell Performance

The best way to preserve your braking system is to bleed the brakes at least yearly. This places fresh fluid in the caliper & wheel cylinders where heat normally breaks it down. Since bleeding is such a pain, most of us simply don't comply with this type of rigorous maintenance schedule. Finally, there's an innovative product that makes it easy!

How does it work? Permanently replace your bleeder screws with **SpeedBleeders®**, open the bleeder 1/4 turn, place a hose on the nipple and into a catch cup, then pump the brake a few times. An internal check ball allows air and fluid to escape but prevents the back pressure from sucking in air! Close the valve, snugly but not too tight, move on to the next cylinder. As always, check your fluid level before and after bleeding each corner and always use fresh, high-quality brake fluid from a sealed container.

3/8"- 24 x 1", pair	932-59	10.95

DRUM TO DISC Conversion Kits

Stop faster, stop safer in your classic Chevelle or El Camino. This conversion kit, from the nation's premier muscle-car braking authority, includes everything needed to make the switch from drum to disc. No welding necessary, just bolt-on parts using standard tools and easy to follow instructions.

Front Brakes

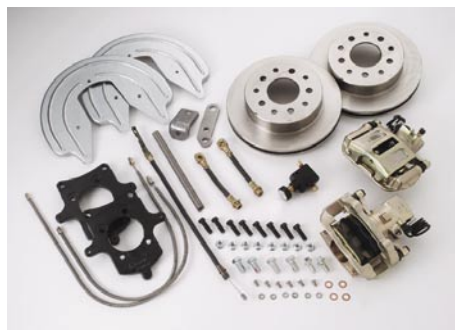

Kit includes: Calipers, Pads, Proportioning valve & adapter lines, Mounting brackets, Seals & Bearings, Stock vented rotors, Splash shields, Spindles, Hoses, Master cylinder, Booster (power kits), all Hardware, Instructions.

Due to the heavy weight of this kit, a flat \$36.50 shipping charge will be added to all orders destined within the lower 48 states - actual shipping will apply to other orders.

64-72	W/manual brakes	C-5800-1B	849.95
64-72	W/power brakes	C-5800-2A	899.95

Rear Brakes

Kit includes: Calipers with built-in parking brake, Rotors, Splash shields, Flexible hoses, Rear axle lines, Adjustable proportioning valve, Pads, Hardware, Mounting brackets, all accessories.

Due to the heavy weight of this kit, a flat \$36.50 shipping charge will be added to all orders destined within the lower 48 states - actual shipping will apply to other orders.

65-72		C-5801-100A	695.00
-------	--	-------------	--------

A-Body kit shown here

Front Disc Brake Conversions with 2" drop spindle

National Parts Depot now offers a complete Front Power Disc Brake Conversion Kit with 2" Drop Spindles. For performance disc brakes and a lowered stance, these kits have it all. New 2" Drop Spindles, 11" rotors, calipers and pads, flex hoses, power booster/master cylinder and all the necessary mounting hardware with complete installation instructions.

Due to the heavy weight of this kit, a flat \$36.50 shipping charge will be added to all orders destined within the lower 48 states - actual shipping will apply to other orders.

64-72		C-5800-140A	1225.00
73-77		C-5800-141A	1225.00

Note: For 15" or larger wheels sizes

Superduty Performance Front Power Disc Brake Conversion Kit

Our "Superduty" Front Power Disc Brake Conversion Kit bolts directly to the drum brake spindle on your '65-'72 A-Body, and features 2-Piston Aluminum Calipers with heavy duty pads, 12" turbo-slotted rotors, braided stainless hoses. Like our other complete disc brake conversion kits, you'll get everything needed to "bolt-on" real performance brakes: 9" booster/master cylinder, adjustable proportioning valve, mounting hardware and installation instructions are included.

Due to the heavy weight of this kit, a flat \$36.50 shipping charge will be added to all orders destined within the lower 48 states - actual shipping will apply to other orders.

65-72		C-5800-20A	1195.00
-------	--	------------	---------

Note: For 15" or larger wheel sizes, requires the use of vehicles original drum brake hub.

pounds a pair over your existing iron calipers, plus better stopping power from 2 pistons instead of one! Can be used on OE single piston disc systems, or on our conversion kits on this page. Includes high performance pads for superior braking response and minimum dusting.

Kit includes 2-piston calipers in cast aluminum w/ stainless steel pistons, H/P pads.

69-76		C-5800-40A	395.00
77		C-5800-41A	395.00
78-88		C-5800-42A	395.00

Extreme Duty Front Power Disc Brake Conversion kit with Force 10

This is as serious as front brakes get! Includes: 4-Piston Aluminum Calipers with stainless pistons, 13" turbo slotted rotors, high performance pads, booster/master cylinder, and braided stainless hoses.

Due to the heavy weight of this kit, a flat \$36.50 shipping charge will be added to all orders destined within the lower 48 states - actual shipping will apply to other orders.

64-72		C-5800-25A	1650.00
-------	--	------------	---------

NOTE: Kit bolts directly onto vehicle's original equipment drum brake spindle. Requires drum brake hub. Requires 17" or larger wheel sizes.

O.E. Disc Brake Upgrades

Add performance to your A/G-body's original disc brakes with our "Short Stop" upgrades kits. Each kit includes turbo slotted rotors, high performance pads and the correct hardware to install better braking on your existing disc brake system.

69	With single piston, O.E caliper	C-5800-30A	310.00
70-78	With single piston, O.E caliper	C-5800-31A	270.00
79-81	With single piston, O.E caliper	C-5800-32A	270.00
82-87	With single piston, O.E caliper	C-5800-130A	270.00

New 7" and 9" Booster/Master Cylinders for Muscle Car "A" Bodies

Available with 9" or 7" power booster and dual bowl master cylinders, these new assemblies are perfect for the street machine or for going to power assisted brakes. Each assembly includes brackets and pushrod for GM applications.

64-72	9" Booster/Master with brackets	C-4901-120A	289.00
64-72	7" Booster/Master with brackets	C-4901-121A	279.00

Order your new booster-master with our adjustable proportioning valve and you can dial in the best brake bias for your car!

Adjustable proportioning valves allow you to adjust brake bias for the correct rear line brake pressure that's just right for your vehicle. Turn to page 29 to find the equipment you need!

QUICK CHANGE CALIPER KIT, Front

Upgrade your OE discs with our new quick change caliper upgrade kit! Force-10 calipers will shed up to 7

Note correct end flare & spring shielding.

Brake Lines

All lines are made of seamless, double-annealed tubing, pressure tested to 6000 PSI. Exact duplication of original line pattern is insured by computerized manufacturing. Ends are flared as-original to correct OEM configurations. OEM-style color-coded fittings and stainless spring steel gravel guards included where original.

NOTE-1: Front to rear lines come in 1 or 2 piece configuration. 1 piece lines are bent in half for shipping.

NOTE-2: Dimensions refer to thread sizes.

Complete set, includes the following:

- ✓ Master cylinder line, 1-pc
- ✓ Front set, 2-pcs
- ✓ Front to rear line, 1-pc
- ✓ Rear axle set, 2-pcs

73-87	Lower, oversize	C-6174-3	21.50

Del-A-Lum (pronounced della-loom) suspension bushings achieve improved suspension control that can be utilized for street, strip, road racing, and oval track.

Del-A-Lum bushings provide :

- Zero deflection without suspension bind.
- Perfect for all types of driving.
- Smooth movement up and down.
- Grease fittings provide full lubrication.
- Internal grease grooves transfer lubrication throughout the bushing which promotes bushing life and assures a quiet ride.
- Aluminum housing provides easy press installation. (These directly replace your stock bushings).
- Plastic internal inserts rotate for smooth control arm movement.
- Plastic thrust washers control fore and aft movement without binding up the suspension.
- Bushings average life span is about 120,000 miles. (Bushings have a lifetime warranty through Global West)
- Del-A-Lum bushings are NHRA legal in **ALL** classes.

ROTOR CONVERSION Performance Tubular A-Arms

Allows conversion to 11" or 12" spindles and rotors

Sure, your GM A-Body goes fast...but, does it stop fast?! Stock 10" brake rotors were not designed for today's (or even yesterday's) modified performance cars, so it's Hotchkis to the rescue with their new Performance Tubular A-Arms. These rugged arms solve inherent performance braking problems by allowing you to convert to GM's larger performance 11" or 12" spindles and rotors.

Maintain the optimum tire contact footprint with your stock or lowered A-Body. Creates an improved negative camber curve, has increased caster for more stability, and is engineered to minimize ball joint angle during suspension travel. Will not work on disc conversion kits, must use tall spindles from B-body or 1970-81 F-body.

Includes ball joints, offset cross shafts, polyurethane bushings with grease fittings.

64-72	(All GM A-Body)	C-6165-100K	559.95

Front Tubular Control Arm Kits for Disc Brake Conversions:

Global West's tubular upper control arms are specially designed for 64-87 A-bodies using taller GM spindles. Using stock upper control arms with GM tall spindles will not work properly. Suspension geometry will be off, alignment will require over 1-1/4 inches of shims (if you're lucky) with probable steering column or exhaust interference. Global West is the first to pioneer tubular upper control arms (1984) with proper geometry, using tall spindles.

Benefits and Features:

- No frame modifications.
- Will not interfere with exhaust or steering column
- Uses normal alignment shim pack
- Additional caster built into the upper arms (needed for straight line stability)
- Improved camber curve for handling. (Negative Roll System)
- Stock or offset upper control arm shafts may be used.
- CNC machined components.
- Ball joint angles are corrected to accommodate new geometry.
- Round tube design provides superior strength.
- Load carrier upper ball joints offering increased strength over original stock 4 bolt.
- Allows 11 and 12 inch disc brake upgrades.
- **Cross bar technology** stops upper arm from collapse during brake and cornering loads.
- Positive bump stop eliminate possible over-travel of ball joints.
- Jig fitted and heliarc welded for the utmost strength.
- Powder coat finish
- Control arm will accept stock, polyurethane, or Del-A-Lum Bushings. (We recommend Del-A-Lum bushings - see Del-A-Lum bushing header on the next page)
- Control arms carry a lifetime warranty (Through Global West).

6165 CONTROL ARMS, Tubular

64-70	Basic kit; use w/GM tall spindle...	C-6165-130A	449.95
64-70	2nd stage; use w/GM tall spindle	C-6165-131A	594.95

6200 FRONT END REBUILD & O-HAUL KITS

Tired of looking for all the pieces to rebuild your front suspension? Look no further. National Parts Depot has put together two kits to help you get the job done right on the first try. Our rebuild kits contain upper and lower ball joints, upper and lower control arm bushings, outer tie rod ends and sway bar links. The overhaul kits contain all of the rebuild kit parts plus inner tie rod ends, tie rod adjusting sleeves and an idler arm.

Rebuild:

Front & Rear Suspension

Enjoy The Ride of the Future!

KYB utilized a "floating compression head" to divide dampening chores between High-pressure N2 gas and special all weather fluid. The result is a ride that continually self-adjusts as needed. Each shock is pre-compressed for easier installation. Detailed instructions, bushings, and hardware included.

CHEVELLE PERFORMANCE SWAY BARS KITS

All Sway bar kits come with polyurethane bushings & mounting hardware

High-Performance Aftermarket Sway Bars

Sway bar diameter and shape dramatically affects body roll. Uncontrolled, the weight transfer that causes body roll will cause a variety of handling problems, some of which could prove dangerous during hard maneuvering.

Our front and rear bars are designed to work together to decrease body roll and increase cornering force. High-carbon steel construction with FORGED ends, (never buy a bar with welded-on ends) provides maximum resiliency and low distortion. POLYURETHANE end-link and mounting bushing kits, (included for front bar) provide quicker handling response and longer wear. All mounting hardware included.

64-72	Front 1-1/8" dia. bar kit	C-7241-100	109.95

Rear Suspension

5381 BUSHING SET, Rear Axle Control Arm

Rubber. Contains 2 OEM rubber replacements w/shells & sleeves. 1 set required per arm, except for 64 upper which requires 1/2 set per arm. (Not pictured)

64-77 PairC-5381-100 29.95
78-87 (4 needed)C-5381-105 9.95

Polyurethane. Complete sets include all polyurethane high-performance bushings with correct sleeves & shells (exc 64 upper) for both upper and lower axle control arms. 64 8-pc kit, includes thrust washers. Retain and re-use old shells on upper arm bushings.

.....C-5381-101 99.95
65-88 8-pc kit, includes thrust washers. C-5381-102 99.95

5382 BRACE SET, Crossmember Reinforce

Exact repro of the braces GM retrofitted to '64-67 A-Bodies beginning in 1965, when it realized that acceleration loads were causing stress fractures in the control arm bracket and frame areas. Bolt to the frame mounts of the lower and upper control arms, recommended for 4-speed and performance models. Won't affect ride height, may require slight exhaust system modification on some models.

64-67 Pair, in red oxide primerC-5382-120A 84.95

5382 HARDWARE KIT, Rr Axle Control Arm

64-72 1 req'd to mount both upper control arms or both lower control arms, or all four control arms if triangulation braces are used. Kit contains (4) grade-8 1/2"-13x4" bolts, (4) nylock nuts, (8) AN washers.C-5382-150K 19.95

GLOBAL WEST SUSPENSION SYSTEMS

"SUSPENSION FOR HIGH PERFORMANCE AMERICAN MUSCLE CARS"

Rear control arms are probably one of the first performance suspension components most people upgrade. Unfortunately this is also the first place most make a mistake. Choosing the correct bushing for the application is the biggest problem. Over the years there has been a lot of hype about polyurethane bushings. Polyurethane bushings do have their place, however it depends upon what you are going to do with the car. The problem we have with polyurethane is unless you are drag racing, polyurethane binds up the rear suspension. The rear suspension can not articulate. This creates rear suspension handling problems and causes the car to ride rough over bumps. Most people notice the ride change. It's too bad you are led to believe this is handling. What you are really feeling isn't handling, you're experiencing suspension bind. The only way we have found to provide rear suspension performance suitable for handling and performance street driving is by using a spherical bearing at the frame side and our Del-a-lum bushing on the rear end side. The aircraft spherical bearing allows rear end articulation without bind and the Del-a-lum bushing controls deflection. The result is smooth suspension movement without bind or deflection. We have proven this concept time and time again on the race track and street applications. Therefore, we offer three different control arms for your application. We offer polyurethane control arms just like all the rest. (Recommended for drag racing only). Second, we offer a spherical bearing (frame side) and polyurethane (rear end side) control arm. And, third, we offer a spherical bearing with a Del-a-lum bushing as the ultimate control arm used in all applications. This would be the best choice. Note: Almost all of the other manufactures of rear lower control arms use polyurethane bushings. While Global West offers polyurethane control arms also, their primary reason for using them is to be competitive in the industry. However, polyurethane bushings create a tremendous amount of bind for street and handling applications. They will not recommend polyurethane equipped control arms for street or handling applications.

- ✓ Jig fitted
- ✓ Provides for sway bar attachment
- ✓ Powder coat finish finish

- ✓ Rear control arm designs are all made out of 2" inch round roll cage tubing.
- ✓ Tig (heliarc welded)

Global West coil springs are designed to compliment their suspension products or be used alone. Each set of springs are specifically designed for certain suspension setups ranging from stock to all out auto crossing competition. Unlike other manufacturer's products, Global West springs are also designed for use with the tall GM disc brake spindle. Another factor to take into consideration when building your high performance Chevelle or El Camino are the rear springs. If you are using tubular lower rear control arms, you are going to want to use the Global West coil springs.

HOTCHKIS PERFORMANCE SUSPENSION

PERFORMANCE-RATED COIL SPRINGS BY HOTCHKIS

These performance-rated springs are designed to give your A-Body a controlled, firm ride without harshness. Once installed, vastly diminished body roll will dictate quicker steering response, more stability and better overall handling. They'll lower your ride-height approximately 1 inch from factory springs, but require more force to compress. Short free-height should allow for easy installation without spring compressor. Dark gray powder-coated for a durable finish.

1967 models: Rear coil springs could have featured a double or single pigtail. The double is more common, however if your application calls for the single pigtail, order the 64-66 style rear springs. (C-7502-100A)

WARNING: These springs are significantly stiffer than factory-spec springs. Not appropriate for drag racing since weight transfer is minimized. Installation note: Make sure tops of front springs are seated for correct ride-height.

Rugged Rear Control Arm System Bolts In With No Modifications to Your Car

This same principle was employed by GM on select high-perf models, but some would say they used inadequate arm designs and employed the braces sporadically.

What if you could dramatically decrease the rear-end flexion that wreaks havoc on your Chevelle or El Camino's performance? Our new Hotchkis Performance system accomplishes the following:

- ✓ Elimination of wheel hop
- ✓ Straight, consistent launches
- ✓ Improved cornering
- ✓ High-speed stability
- ✓ More positive feel

The system consists of .125-inch thick-walled, 4-sided upper and lower control arms, linked at the mounting points by sturdy tubular braces. Arms are TIG welded, with polyurethane bushings and zerk fittings for easy maintenance. All arms and braces are black powder-coated for durable good-looks. Purchase the following components separately or in one complete kit:

Upper Arm set. Runs from differential housing mount to crossmember mount.

64-67	Upper arms, pair	C-5382-110A ¹	239.50
68-72	Upper arms, pair	C-5382-111A ¹	239.50

Lower Arm Set. Runs from axle mount to frame mount. By themselves, these lower trailing arms will provide for proper anti-sway bar functioning. Designed to accept OEM-type/mounting sway bar. We suggest our C-7241-6 (7/8" bar) for best results.

64-72	Lower arms, pair	C-5382-110B ¹	249.95
-------	------------------	--------------------------	--------

Upper to Lower Brace set. Connects the upper control arm with the lower control arm at the frame mounting points making them better able to take the loads transmitted to them through the arms.

64-67	Brace set, pair w/hardware	C-5382-110C ²	119.85
68-72	Brace set, pair w/hardware	C-5382-111C ²	119.85

6-Piece Set. Complete high performance rear suspension package containing all the above-listed upper & lower control arms, upper-to-lower control arm braces and all hardware necessary for mounting. All together the entire 6-piece package provides the rigid, triangular rear arm structure necessary for the smooth transfer of power from the axle to the road. Installation will not alter factory dimensions or suspension geometry.

64-67	C-5382-110K	597.50
68-72	C-5382-111K	597.50

^{Footnote 1} - If installing individually use 1 C-5382-150K hardware kit.
^{Footnote 2} - A minimum of 2 inches clearance is required between the inside of the lower trailing arm mount and the muffler.

Replace coil springs when...

- The ride height of the vehicle drops below factory specs
- There is evidence of coil clash (coils hitting each other)
- Suspension bumpers are damaged.

What will replacing sagging coils accomplish?

Among other things...

- Restoration of original ride height and attitude (Read below)
- Restoration of original steering ease and response
- Maintenance of wheel alignment (realign after spring installation)
- Elimination of abnormal tire wear.

▼ READ BEFORE ORDERING SPRINGS ▼

Please order carefully. The cost of installing, removing and returning springs ordered incorrectly can put a real dent in your wallet.

THE BIG QUESTION: Is your car original? The ordering charts in this section are designed for cars in their build-sheet configuration. If your car has non-original tires or wheel size, engine size, trans-type, leaf arch, non-accessories like AC, PS or PB - or even seats, our chart may not help you obtain the correct springs for your car. All these factors affect the cars overall weight and center of gravity, and must be taken into account **before** ordering coil springs.

Understanding how new coils can affect the height of your car. Assuming all variables which affect ride height are set to original specifications, you can still expect your car to sit **higher** after installing new OEM-type coil springs than before, since your old springs are undoubtedly tired. In addition, since ride heights of the '60s & '70s were typically higher than current models, more space will appear between the tire and the fender than you may now be accustomed to.

Tilt Steering Column

Want to have a tilt steering column for your Chevelle? National Parts Depot is proud to introduce a complete column setup for your Chevelle. Available in plain steel and polished steel, everything that is needed is offered right here.

Make sure to purchase the mounting bracket, u-joint and wiring adaptor for a complete setup. Columns come with new tilt lever, turn signal lever and hazard knob. '69 owners need to purchase an ignition switch, as these columns do not a provision for a key; switch must be custom mounted.

THE GRIFFIN™ DIFFERENCE

Why Aluminum? 3 big reasons:

1. Aluminum radiators are roughly 60% lighter than an equivalent copper radiator.
2. Tube-to-fin contact is increased, resulting in better efficiency with less "rows" or tubes.
3. Resistance to damage.

Radiators

American-Made Chevelle Radiators

Look up your car's year, engine size and cooling requirements in the top chart, then use the order number to double-check the dimensions and specifications in the bottom chart. We want to make sure you receive the correct replacement radiator for your classic. All our radiators and heater cores are made in the USA with American-made components. Don't settle for less than the best for your Chevelle, El Camino or Malibu!

*Warranty limited to repair or replacement by manufacturer at the place of purchase of radiator which, within warranty period, is determined to be defective. No labor or freight charges will be covered.

C-1069-01A

1069 WATER PUMP, Chrome-Plated

Our polished and show-chromed pumps offer more than good looks. They're fully rebuilt with new hubs, impellers, premium-quality bearings, seals, gaskets, back-plates & screws. The hub, bearing cavities, seals & impeller are treated with locktite. Finally, the hub is checked for correct height, pull-off and alignment, then the pump is Vacuum tested to exceed OEM specs.

OEM-TYPE BELTS

OEM-Type Belts Officially licensed by GM

GM logo and original part number stamped right into belt, as-original

Just like the original GM belts. Feature cloth-wrapped construction (where applicable), indented GM logo, part numbers and codes. Manufactured to exact blueprint specifications.

NOTE: OEM-type belts may be special ordered depending on application.

Chrome Bolt Kits

For restorers who want the look of show-chrome without abandoning original-style fasteners, our chrome hex-head bolt kits are sure to please. Grade-8 hex-head bolts have been double-nickel chrome-plated then polished to a brilliant lustre. Each kit includes all chrome-bolts and washers to install the components specified. 12-point wrench recommended for installation. All exterior and under-hood chrome hardware should be treated with a protective dressing for maximum life.

INSTALLATION TIPS:

Always use a 12-point wrench when installing plated hex-head bolts. Our head sides are un-polished to achieve snug wrench fit. When using chrome-plated locknuts always wax threads to prevent seizing. A light dressing will keep chrome hardware looking good while preventing rust.

GASKET, Valve Cover

	283, 307, 327, 350, 400 (cast iron or alum)		
	each	C-0289-105A ⁴	92.95

*Head Gasket notes:

¹ - may be used on 400ci Race Engine with up to a 4.155" max. bore w/minimal chamfer. No steam holes for 400 engine.

² - may be used on 400ci Race Engine, no steam holes.

Will also work on aluminum blocks w/liners.

³ - is extra thick to reduce compression and correct piston-valve clearance problems. May be used on 400ci motors and alum blocks w/liners.

⁴ - is recommended for forced induction motors. Heads must be O-ringed for used with these gaskets.

Engine Kits

0002 CHROME ENGINE BOLT KITS

Engine bolt kits include bolts and washers for: Intake manifold, valve covers, water neck, water pump, timing cover, fuel pump, oil pan, distributor hold-down, headers or standard exhaust manifolds. Kits are also available to mount each individual component mentioned above- see component listing.

Fuel Lines

Exact duplication of original line pattern is insured by computerized manufacturing.

3002 FUEL LINES

All lines are made of seamless, double-annealed tubing, pressure tested to 6000 PSI. Ends are flared as original to correct OEM configurations. OEM-style color-coded fittings and stainless spring steel gravel guards included where original.

You'll notice certain items in our catalog are marked OUT or CALL. OUT means the stock has been permanently exhausted. A part marked OUT may reappear in reproduction form if it hasn't already, but no guarantees if or when. CALL means the supply has been indefinitely interrupted. Parts marked CALL may be restocked at any time.

Boost your performance by as much as 20 horsepower! It's as simple as changing your air filter. All K&N filters come with a Million Mile Warranty. That means that you will never have to replace your filter again. And considering that the average car owner changes their filter once a year, the costs of 5 years worth of filters averages around \$50! With the K&N filter, all you have to do is clean it every 50,000 miles. Wondering where the horsepower comes from? Instead of using paper or foam material, a special cotton fabric is sandwiched between the pleated aluminum screen wires. The pleated design provides five times more filtering surface. The cotton/screen wire filter is then saturated from the factory with a formulated air filter oil.

The dirtier the filter gets, the better it performs. Up to 1/8" of dust can cover a K&N filter before performance is affected. That's the amount that is accumulated in an average of 50,000 miles. With more horsepower, long lasting performance and a simple install, what more can a person ask for?

-------	--------------	-------

Transmission

4007 TRANSPAK, B&M

The next step beyond the Shift Improver Kit. Improve your transmission for maximum performance. Improved manual control (except powerglide) is available for downshifting or holding in a lower gear, which a stock transmission will not allow. Choose between heavy duty and high performance street for shift quickness and firmness.

68-81	Turbo 350	C-4007-10A	56.95
80-86	Turbo 350 C	C-4007-11A	56.95
65-87	Turbo 400	C-4007-12A	56.95
62-73	Powerglide	C-4007-13A	56.95

4007 SHIFT IMPROVER KIT, B&M

Eliminate soft and sloppy shifts with a B&M Shift Improver Kit. The kit can be installed in one of 2 stages, heavy duty and street/strip, so you have the option of how firm the transmission will shift.

68-81	Turbo 350	C-4007-1A	26.95
65-87	Turbo 400	C-4007-2A	26.95

4007 TRANSMISSION OIL PAN, Aluminum

Add more life to your transmission with a B&M finned aluminum pan. Powerglide and Turbo 350 pans add 3 quarts extra capacity, while the Turbo 400 pans add 2 additional quarts. More fluid combined with finned pans helps promote better cooling and a longer transmission life. Pans include drain plugs and mounting hardware.

Turbo 350	C-4195-1D	109.95
Turbo 400	C-4195-2D	115.95
Powerglide	C-4195-3D	105.95

NEW DUAL EXHAUST SYSTEM!

Finally a correct dual exhaust system for 68-72

Chevilles is available. Pressure-bent from 14-gauge aluminized tubing to duplicate the originals in every detail! Designed to be used with our C-3705A-112P chrome tips. Available w/ and w/o resonators. (Resonators correct for 1970-72 models only) Includes headpipes, tailpipes and mufflers. Hangar kit, packing and tips sold separately.

68-69	BB w/o resonators	C-3600-105A	434.95
68-69	BB w/resinators	C-3600-106A	434.95

3616 HANGAR KIT, Dual Exhaust

For us with our Big Block dual exhaust system. Includes muffler and tailpipe hangars, clamps and hardware.

Banner Notes

Transmission Maintenance:

Keep in mind that automatic transmissions should have their fluids flushed every 30k miles and that the filter needs to be changed at the same time. Always use the suggested fluid that is stated in your owners manual or service manual.

Remember to always have your flywheel cut or turned when you replace your clutch and pressure plate. Glazing will occur otherwise and that causes clutch chatter, clutch chirping or in the worse case, slippage. You should also replace your pilot and release bearings while you have the transmission out of the way.

Speedometer Cables

GM original speedometer charts list drive and driven gears for original rear and tire combinations. But what about someone with a gear or tire different than stock? This formula will help in determining the approximate number of teeth required for the driven gear (C-4337) to give proper speedo readings.

$$\text{Driven gear teeth} = \frac{(\# \text{ of drive gear teeth}) \times (\text{Axle ratio}) \times (\text{Tire revolutions per mile})}{1000}$$

$$\text{Tire revolutions per mile} = \frac{63360}{(\text{Tire outside diameter in inches}) \times 3.14159}$$

Just plug in the number of teeth on the drive gear inside the transmission (8,9,18) multiplied by the axle ratio (3.31, 3.55, 3.73 etc.) and multiplied the tire rev's per mile, then divide all that by 1000. The result, such as 21.75 is the approximate number of driven gear teeth required for proper speedo readings.

This formula is provided as a guide for customer use. Please do not ask your salesperson to do the work for you!

Battery

Deltran Battery Tender® Charges and Maintains!

Don't damage your battery with a regular charger. The Battery Tender maintains your battery's charge at a constant 13.2 volts without boiling the fluid off. Not just a trickle charger - its a 1.25-amp constant-current Super Smart Battery Tender®. So advanced it fully charges your battery then maintains the full charge indefinitely by automatically switching from full charge to a storage charge. It won't overheat your battery. It won't "cycle" your battery — something that will shorten its life. It even adjusts for temperature!

Unique micro-chip circuitry prevents shorting or sparking even if you touch the clips! Store your car or boat for the winter? Remove the battery and leave it hooked to the Super Smart Battery Tender® all winter long. You'll have a fresh, fully-charged battery when you need it - without sacrificing your battery. Great for boat or cycle batteries as well! 6V & 12V models available.

12 Volt	919-1	49.95
6 Volt	919-2	49.95

Designed for either short or long term storage. Plug it in and forget it until next season!

Battery Tender® Jr.

More compact unit than the Battery Tender® with 750 mAmp current. This unit will fully charge a battery easily overnight and maintain the charge just like it's larger brother.

12v	919-4	34.95

Restoration Batteries Authentic to The Last Detail.

Get perfect cranking and perfect judging with 100% correct reproductions of the **Delco DC-12** and **R-59**, Group 24 batteries. Each battery is shipped with a dry charge. This allows the battery to be stored for extremely long periods without harm—as long as it's stored in a cool, dry place. Add acid and follow charging instructions to activate.

Script on photographic models painted white for illustration purposes. Responsibility for determining applicability and ordering correct battery rests with buyer. Before ordering use measurements, amp rating and photo to be sure this battery will fit and work properly in your Chevelle. No returns on batteries ordered incorrectly.

Note: Our Delco batteries come with a 48 month pro-rated warranty (90 day conditional free replacement from date of invoice) from the manufacturer. The manufacturer handles all warranty claims direct with the customer. NPDP® cannot mediate warranty claims. All required warranty information is included with each battery.

DC-12 Tar Top

Features all original markings and details. 12 volt, 450 amp. Used originally on '64 & '65 Chevelles without 283 or 6-cyl engines, and on '66's with 327 or 396 engines. Group 24, measuring 10.25"L x 6.75"W x 9"H.

Performance Parts Plug Wires

These Packard Electric, Official GM Performance wires are for hi-perf SB (w/rear-mounted dist only) performance applications. They feature 8mm dia. red cable w/contrasting white logos and black boots, 60-ohms per foot resistance, double-wall silicone construction, silicone boots for superior heat protection. Excellent noise suppression prevents interference. 10" coil lead and four wire separators included. Female H.E.I. cap boots.

• SB w/90° plug boots w/"Chevrolet" & bowtie logo.		C-2239-12	95.37
• SB w/135° plug boots w/"GM Performance Parts" logo.		C-2239-13	95.37
• SB w/90° plug boots w/"GM Performance Parts" logo.		C-2239-14	95.37

Official GM Performance Parts heavy-duty solid core wires feature stainless-steel conductors and hi-temp silicone insulation. 90° plug boots provide clearance for manifolds and headers. (Solid core wires may generate electrical interference, do not use with H.E.I., electronic rev limiters or similar devices.)

• SB/BB w/o H.E.I. w/90° plug boots.....	C-2239-10	33.90
--	-----------	-------

Note: These wires are cut-to-fit, and crimping pliers must be used to install 90° ends

Date-Stamped Plug Wire Sets

HOW TO ORDER:

Look up your correct application in the listing below. After obtaining your base part number, simply add the **year** of the car followed by a **1** or **3** to indicate it's production quarter.

If your car was built between **September & February**, order **3rd** quarter. If your car was built between **March & August**, order **1st** quarter.

For instance, if you own a 1966 Malibu 6 cylinder with no air conditioning, built in June of 1966 your part number would be C-2339-**A661**. Construct your ordering number

Now you can own 100% correct reproductions of the noise suppression wires that came on your car — right down to the date stamp! Wires are all-black as original with date stamp & “Packard TVR Suppression” or “Packard Radio TVRS.”

YEAR	APPLICATION	BASE#	YEAR	QUARTER	PRICE

2361 DISTRIBUTOR, H.E.I., New

Factory installed on 5.7L HO engines (w/o fuel injection), this complete assembly may be used on all small blocks. It's a good choice for most performance applications, especially for those switching from pre-75 point-type distributors. Features conventional centrifugal weights and vacuum advance mechanisms, with a spark curve suitable for most emission-exempt vehicles. Early model installations may not fit without firewall modification. Complete with magnetic pickup, module & coil. Official GM Performance Parts C-2361-02.....346.95

12297 SEPARATOR, Performance Wires

Fits 8mm and 9mm performance wires. Sets include 2-4 wire, 2-3 wire and 2-2 wire separators in Blue (B) or Red (C). Specify color code at end of part number. 64-87 Set of 6.....12297-3.....3.95

2339 PERTRONIX WIRES, Spark Plug

These spiral wound stainless steel alloy wires feature a carbon impregnated fiberglass center core, low 500 ohm per foot resistance, silicone jackets to resist high temperatures, moisture, oil, and chemicals, EPDM (Ethylene Propylene Diene Monomer) rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks, fiberglass reinforcing braid for added strength and flexibility and a lifetime warranty. These wires are 7.0 millimeters in diameter and have plain black jackets with no printing on them to give your car a stock appearance.

PERTRONIX INC

2361 DISTRIBUTOR, H.E.I.

Experts agree that good H.E.I. ignition systems rely on a good module and a good coil. We believe that the combination of a great module and a great coil makes the *Flame-Thrower* distributor the best. Look at these improvements over an original GM HEI distributor:

- ✓ Operates without misfires up to a minimum of 7500 RPM.
- ✓ Produces 67% more energy in the coil.
- ✓ Spark breakdown time is 45% faster, resulting in more accurate timing.
- ✓ Delivers twice the energy across the spark gap.
- ✓ Spark duration and more energy to the spark allow wider plug gaps increasing flame kernel growth.

All distributors come with a limited one year warranty and are available with either a black or red colored cap with an optional machined finish body. Comes with a Flame-Thrower coil and module that are perfectly matched for the distributor.

Pertronix Ignitor

Bring your Chevelle's

ignition system up to date and beyond with the most advanced solid-state electronic breakerless ignition conversion kit available.

Installation of the **IGNITOR** will provide a stronger, more consistent spark over your original breaker type

system and you'll never have to change your points again!

IGNITOR is a precisely-engineered solid-state system consisting of permanently-mounted magnets for each cylinder. Rotating along with the rotor, these magnets trigger an electronic chip (Hall cell) which is embedded in the switching module. Firing down to zero RPM, it switches TWICE the energy of conventional systems. Requires no “black boxes” or complex wiring. All components fit inside the distributor and the only visible difference outside are two wires exiting the distributor body in place of one. The entire system is immune to dirt, oil, heat & moisture. ✓ Add up to 20 HP ✓ Eliminates minor tune-ups ✓ Increases spark plug life 2 to 3 times ✓ Improves fuel economy ✓ Maintains constant timing ✓ Fast starts in cold weather. **Before purchasing, be sure your car has an original Delco single-point distributor.**

PERTRONIX INC Ignitor II

Ignitor with more power!

The Ignitor II can adjust dwell for better performance at any RPM.

It develops 4 times the energy of points and 3 times more energy than the original Ignitor. Pair with a new Flame-Thrower II coil for a 250% better spark energy than a stock coil.

All Ignitor II's come with a 30 month guarantee, and can use stock or Flame-Thrower II coil. (See 12029-4A, 4B, 4C).

2480 HARNESS, Front Light

Plugs into the Dash Harness at the firewall. **More information on specific harnesses:**

'64 Circuits included are alternator, horn relay, headlights, parking lights, horns, and voltage regulator.

'65-67 Circuits included are alternator, horn relay, headlights, parking lights, battery junction, horns, and voltage regulator.

'68-69 Circuits included are alternator, horn relay, headlights, parking lights, side marker lights, battery junction, horns, voltage regulator, and brake warning light wire.

'70-71 Circuits included are alternator, horn relay, headlights, parking lights, side marker lights, battery junction, horns, voltage regulator, temperature and brake warning light wire. There were minor differences concerning A/C on non-gauge applications.

'72 Circuits included are horn relay, headlights, parking lights, side marker lights, battery junction, horns, voltage regulator, brake warning and wiper wires. Alternator wires are not included in this harness. (Note: 72 was the first year that the alternator was relocated to the Engine Harness).

2481 HARNESS, Engine

This harness plugs into the Dash Harness at the firewall.

For owners with H.E.I. ignition, add an H to the end of the part number and \$10.00 to the price to get a harness made to work with H.E.I. distributors. More information on specific harnesses:

'64-65 Circuits included are wipers, ignition coil, temperature, heater blower, starter, and oil pressure (warning light cars only, as factory gauge cars utilized a mechanical capillary tube oil gauge).

'66 Circuits included are wipers, ignition coil, temperature, heater blower, starter, and oil pressure (warning light cars only, as factory gauge cars utilized a mechanical capillary tube oil gauge). Air conditioned cars also contained the AC relay, AC resistor, AC compressor and AC power lead wiring.

'67 Circuits included are brake warning, wipers, ignition coil, temperature, heater blower, starter and oil pressure (warning light cars only, as factory gauge cars utilized a mechanical capillary tube oil gauge).

'68 Circuits included are wipers, coil, heater blower, starter, tachometer (gauge cars only), and oil pressure (warning light cars only, as factory gauge cars utilized a mechanical capillary tube oil gauge). Idle stop solenoid wiring may appear in some harnesses depending on emission requirements.

'69 Circuits included are wipers, coil, heater blower, starter, tachometer (gauge cars only), and oil pressure. Idle stop solenoid wiring may appear in some harnesses depending on emission requirements.

'70-71 Circuits included are wipers, coil, heater blower, starter, temperature and oil pressure. Transmission Controlled Spark (TCS) and all the applicable wires are in this harness. 1970 cars equipped with TH400 automatic transmission will contain the transmission kick down wiring. 1971 cars equipped with TH400 automatic transmission use a separate kick down wiring harness that plugs into the Engine Harness.

'72 Circuits included are wipers, coil, heater blower, temperature, oil pressure, tachometer (gauge cars only), starter and alternator wiring (1972 was the first year the alternator wires were incorporated into the Engine Harness and in 1973 alternators were internally regulated). Transmission Controlled Spark (TCS) and all the applicable wires are in this harness. Cars equipped with TH400 automatic transmission will contain the transmission kick down wiring.

2483 HARNESS, Clock

This is a separate harness for 1964-1972 that plugs into the Dash Harness and allows the dash mounted clock to operate. Some clocks were mounted on the console and would be wired by the Console Harness.

64-65	Dash mounted clock	C-2483-100A	8.95
68-69	Dash mounted clock	C-2483-104A	8.95
70-72	Dash mounted clock (exc "SS" dash)	C-2483-105A	8.95

2483 HARNESS, Tachometer

This harness wires the tachometer. Technically only 1964-1967 used a separate harness, however for reference purposes the location of the tachometer wiring is also included below. *Modifications must be made for cars which have been converted to HEI distributor -- such exceptions must be special ordered to assure the correct harness connector for the tachometer lead (ask your salesman).* **More information on specific harnesses:**

***64-67** These years used separate dash or steering column mounted tachometers requiring a separate harness.

***68-69** The tachometer wires were included in the Engine Harness for gauge equipped cars.

***70-71** The tachometer wires were included in the Dash Harness for gauge equipped cars.

***72** The tachometer wires were included in the Engine Harness for gauge equipped cars.

NPD® is Chevelle wiring headquarters. No one beats our Factory Fit harnesses for originality and ease of installation.

2487 HARNESS, Rear Body Lighting

This harness completes the rear lighting of the car. The Rear Body Light Harness includes the light sockets for the rear of the car as well as leads for dome lights, backup lights, fuel tank, and courtesy lights. Courtesy lights are standard on convertibles, optional on coupes. 1964-1967 applications used a flat intermediate ribbon cable harness that plugged into the Dash Harness and extended from the Dash Harness along the floor under the driver's seat to a plug in the trunk area above the left rear wheel well. This ribbon cable harness is not available. The Rear Body Light Harness plugged in at this point and continued the wiring to the rear of the car. Starting in 1968, this ribbon cable was replaced by an available Intermediate Rear Body Light Harness. **More information on specific harnesses:**

***64-67** Harness plugs in at the rear wheel well and extends into the trunk compartment. The Dome Light Harness plugs into this harness, as well as courtesy lights. The tail light wiring is an integral part of this harness. Convertibles, El Caminos and coupes are all wired differently.

***68** This year uses two harnesses to complete the rear body wiring. The Intermediate Rear Body Light Harness plugs into the Dash Harness at the driver's side kick panel, and continues to the rear quarter panel. The door jamb wires are built into this harness. The Dome Lamp Harness for all hardtops will plug into this harness. The Rear Body Light Harness plugs into the Intermediate Rear Body Light Harness and connects to all trunk and rear light panel components. Convertibles, El Caminos and coupes are all wired differently. Convertibles used separate harnesses for the power top. There are also known situations where the Rear Body Light Harness was a one piece harness which plugged into the Dash Harness at the driver's side kick panel and continued to the trunk and rear light panel components.

***69** Uses two harnesses to complete the rear body wiring. The Intermediate Rear Body Light Harness plugs into the Dash Harness at the driver's side kick panel, and continues to the rear quarter panel. The door jamb wires are built into this harness. The Dome Lamp Harness for all hardtops will plug into this harness. The Rear Body Light Harness plugs into the Intermediate Rear Body Light Harness and connects to all trunk and rear light panel components. Convertibles, El Caminos and coupes are all wired differently. Convertibles used separate harnesses for the power top.

***70-72** Uses two harnesses to complete the rear body wiring. The Intermediate Rear Body Light Harness plugs into the Dash Harness at the driver's side kick panel, and continues to the rear quarter panel. The door jamb wires are built into, and the dome lamp will plug into this harness. The Rear Body Light Harness plugs into the Intermediate Rear Body Light Harness and connects to all trunk and rear light panel components. Convertibles, El Caminos and coupes are all wired differently. Convertibles had the power top wiring incorporated into the intermediate Rear Body Light Harness.

9275 HARNESS, Air Conditioning

This is a separate harness that connects the air conditioning components under the hood to the controls under the dash in all years except 1966 where the air conditioning wiring is included in the Engine Harness. From 1967 on, the harness passes through a rubber grommet which is an integral part of the harness. Minor differences exist in the 1970 and 1971 Front Light Harnesses for AC cars.

10277 HARNESS, Dash

This is the main harness in the car and contains the fuse panel. The Engine and Front Light Harness plug into the Dash Harness at the firewall. The Dash Harness wires plug into all major components under the dash. **More information on specific harnesses:**

'66-72 A/C cars require the Dash Harness to be specifically manufactured to A/C specs.

'70-72 The Dash Harness for "SS" cars and Monte Carlo's contained round gauges versus a sweep dash, therefore, the Dash Harness is significantly different for these applications.

C-8153-109A

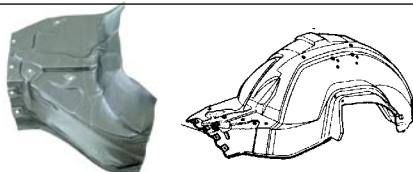

8153 WHEELHOUSE, Fender

Excellent repros of the steel factory wheelhouses. Our repros have holes pre-drilled only in positions all the models for that year had in common, so the restorer may have to drill one or two holes (better too few holes than too many). Some 68-72 Chevilles & El Caminos had plastic wheelhouses. Battery tray holes must be tapped on those models.

Fender

Original fenders come primed and ready to install & paint. Whether you are installing original or reproduction panels, we strongly recommend trial-fitting before prepping.

Reproduction fenders are manufactured to match originals in both appearance and fit. Like the OEM panels they come primed and ready to install & paint. We strongly recommend trial-fitting before prepping.

8000 HOOD PANEL

66 Standard	C-8000-103A	299.95
66 SS	C-8000-103B	299.95
67 SS. Stamped with steel tooling, and Electro-Deposit Plated just like the panels we get from GM. This excellent repro is a direct replacement for the factory SS hood, but will give any 67 Chevelle or El Camino the bold appearance of a SuperSport.	C-8000-104B	359.00
68-69 SS. Excellent reproduction of the original SS hood. Features the distinctive twin domes with openings at the rear, which will accept original or repro chrome louvers (C-8055-105A). Stamped with steel tooling, this hood is a dead ringer for OE, right down to the corrosion-resistance Electro-Deposit plating. NOTE - Originally, GM produced the 68 and 69 hoods as different part numbers due to a 1969-model-year design change necessitated by an improved hinge set-up. This hood is the 2nd-design and must be used with the 2nd design (69) hinges.	C-8000-105B	379.00

Floor Pans

AMERICAN-MADE STRUCTURAL & BODY REPAIR PANELS

Our US-made panels are stamped from cold-rolled top-draw steel, and it shows in the deep, crisp impressions and correct radiuses. Structural parts like floor supports and braces are made to equal or exceed OEM in strength. You'll find all appropriate welds, cage nuts, holes and studs when you install these parts.

Spot Weld Cutter Saves More Than Time!

Attach this ingenious tool to any ordinary drill and it becomes a valuable time-saver! It cuts around welds to a specified depth so only the outer piece of metal is holed. Easy to use; simply find and punch the center of the spot weld to be cut, then carefully drill the tool through the outer panel. A centering pin within the tool is spring-loaded to help limit the drilling depth. Usable at a maximum 900 rpm. 911-1 is an economy grade cutter for small jobs, while 911-2 is hardened and precision ground for more cuts. Both feature a 1/4 hex shaft. 911-3, our premium cutter, is made from M2 high strength steel with a larger cutting area for bigger jobs where more panel cutting and longer life is needed.

911-1	\$7.95
911-2	\$15.99

Quarter Panel

Factory-type quarter panels come primed and ready to install & paint. Whether you are installing original or reproduction panels, we strongly recommend trial-fitting before painting or sanding.

**THIS ITEM
MUST BE
SHIPPED
BY TRUCK**

Full-face quarter repair panels offer a cost-effective way to achieve a factory-new appearance by replacing only the outer face of the panel below the belt line. The lack of sail panel makes them even more sensible for convertible restorations. Wheel openings are fully detailed to accept moldings. Primed in black semi-gloss.

**THIS ITEM
MUST BE
SHIPPED
BY TRUCK**

80% quarter repair panels offer a cost-effective way to get a factory appearance. Features complete original equipment coverage except for door jamb and sail pillar areas. Tail panel fits with no additional body work. Wheel openings are fully detailed to accept moldings. EDP in black semi-gloss.

2-piece-design trunk floor sections w/braces

These US-made pans feature thicker metal and crisper stamping than any other A-Body trunk floor on the market. Both RH & LH sections include the correct body brace- not welded on. You cannot mix-and-match these 2-piece trunk floor sections with our other 3-piece-design trunk floor sections.

68-72	RH, w/body brace, W29" x L42", US-made (UPS-able).....C-12981-108R	99.50
68-72	LH, w/body brace, W33.5" x L42", US-made (truck item).....C-12981-108L	99.50

From 1963-1967, the El Camino bed floor measured 73-1/2" from front to back. This measurement changed in the 1968-1972 years to 79-1/4" from front to back. (These are the measurements from the front of the bed floor to the rear lip up to the tailgate) From 1973-1977, the measurement again changed to 80-3/4". The width of the beds also tapered out as you moved to the rear of the bed floor. From 1963-1967, the front measured 59-3/4" and the rear measured 64-3/4". The years of 1968-1972 measured 59" in the front and 64-1/2" in the rear. The years of 1973-1977 measured 51" in front and 57" in the back. Please make note of this and take advantage of the illustrations when making bed floor repairs to your El Camino

**THIS ITEM
MUST BE
SHIPPED
BY TRUCK**

1-piece-design Non-UPS-able trunk floor

This 1-piece pan will fit all 68-72 GM A-Bodys. Its design makes installation more convenient when replacement of entire panel is required. It has less overall coverage than our other 1-piece pan, but covers most frequently rusted areas. May be installed from above, through trunk opening. Coated with Electro Deposit Primer. Must be shipped via truck.

68-72	Measures 47" wide x 34" long. ...C-12981-109A	79.95

Door & Siderail

C-10694-103A

10694 W/STRIP SET, Complete Door

These are exact replicas of the original GM weatherstrips. Molded ends are bonded - not glued, to correct cross-section extrusions. Extruded rubber is fitted with correct-style nylon fastener plugs- as original. All this care and craftsmanship results in the best possible weatherstrip for your Chevelle. Don't accept less.

Windowfelt kits - Aftermarket style

Prevent rattles, window scratches and scrapes by installing our reproduction windowfelt weatherstrip kit. Each kit contains the correctly shaped weatherstrips for all inner and outer glass positions, however the shape of the stainless metal bead used on these weatherstrips is flattened, not round as original. Concours-class restorations should include our "original style" round bead kits listed in this section. Attaching hardware included.

Coded, Keyed & Matched Lock Sets

Shown above: Early "Door, Trunk & Glove" set with original style GM keys. Kits are also available with later style GM keys.

You can replace some or all of your classic's locks with the correct cylinders and keys - without the expense of a locksmith. Just pick out the locks you need replaced and we'll send you a matched kit, coded, assembled and pre-keyed. You'll tackle the job professionally and quickly. All sets are available with the **correct-style**, original GM keys. 1964-68 kits are also available at a lower price with the square and oval keys GM introduced in 1969.

Before buying Stencil & Stripe kits, consider these five points...

❶ Our easy-to-apply 3-part stripe & stencil kits are **identical** to those used by factory technicians — not just close approximations. ❷ Ours are **precision-die-cut** — watch out for those which are plotter-cut (*plotters can not cut a perfectly smooth radius.*) ❸ Our white stripes duplicate the factory-specified off-white — not the incorrect bright-white material used by imitators! ❹ Ours are **3M vinyl appliques**, sandwiched in protective material — not just detail-grade stickers. ❺ Our kits come complete with a 6-page step-by-step installation guide!

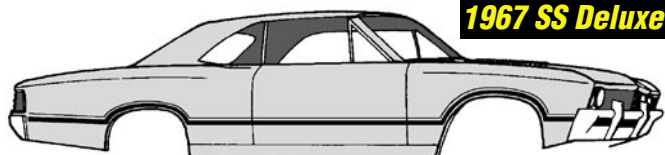

1967 SS

'67 SS Bodyside Stripe Kit

Stripe runs along bodyside, just above the lower character line. 10 pieces are included; front of front wheel openings, rear of front wheel openings, doors, front of rear wheel openings and rear of rear wheel openings.

67	SS, Black.....	C-8800-167A	80.00

Tailgate Woodgrain Kit

Now you can complete your tailgate restoration to include the correct woodgrain insert. This peel and stick, die-cut applique installs easily to achieve a factory-correct appearance. Ultra-violet coating helps prevent fading.

67	Gunstock grain.....	C-12197-103A	19.95
68-72	Brazilian grain.....	C-12197-104A	19.95

69 YENKO Stripe Kit

11-piece kit includes all stripes and decals for: hood, fenders, doors, quarters, and seat headrest.

Black	C-8800-120A	169.95
White	C-8800-120B	169.95

Slide-on Gel

Nothing guarantees a perfect application of a stripe or decal. It's always been one chance to set it in place and wishing you had more time until now. Slide-on application gel provides you the additional time you need to set the stripe or decal in place. The more gel you use the more time you have, and once the stripe or decal is in place you can squeegee the gel out. One pint squeeze bottle includes squeegee.

.....962-1	17.50

We welcome Visa, MasterCard, Discover, Amex, and Western Union Collect as payment

Royal Knight

The Royal Knight stripe kit comes in three different colors and is available as a whole kit. This kit includes 1 large hood decal, 2 "Royal Knight" fender decals, 1 "Royal Knight" tailgate decal and the appropriate tri color striping for the fenders, doors, rear quarters and tailgate. This kit will also fit 1984 El Caminos.

79-83	Royal Knight Gold	C-8800-194A	289.00
79-83	Royal Knight Red	C-8800-194B	289.00
79-83	Royal Knight Blue	C-8800-194C	289.00

78 BLACK KNIGHT SET

Let everyone know that you own the top El Camino of 1978. The Black Knight stripe and decal kit comes complete with 1 large hood decal, 2 "Black Knight" fender decals, 1 "Black Knight" tailgate decal, and all of the multi-color upper and lower body side stripes.

78	Black Knight Gold	C-8800-193A	289.00
----	-------------------------	-------------	--------

Black Knight

The 73-77 Super Sport stripe kits are exact reproductions. Show off your unique El Camino with 2 fender "SS" stripes, 2 large door side stripes, 2 large rear quarter panel stripes, and 1 large "SS" tailgate stripe.

73-77	SS Black	C-8800-190A	185.00
73-77	SS White	C-8800-190B	185.00

SUPER SPORT

78-82 El Camino Super Sport

The famous SS name lives on with our Super Sport decal and stripe kit. Each kit comes complete with 2 "Super Sport" door names, 1 "Super Sport" tailgate name, and all of the correct tri-color body side stripes.

78-82	SS Lt Gold/Orange/Brown	C-8800-191A	219.00
78-82	SS Lt Red/Med Red/Orange	C-8800-191B	219.00
78-82	SS Lt Blue/Med Blue/Dk Blue	C-8800-191C	219.00

84-87 El Camino Super Sport

Each kit comes complete with 2 "El Camino SS" door names, 1 "SS" tailgate and front bumper cover name.

84-87	SS Silver	C-8800-192A	139.00
84-87	SS Black	C-8800-192B	139.00

Sftbd., 8 1/2" X 11", 189 pgs., 515 b&w ill.

C-LIT-164 CALL

Most of this information has never been seen in public.

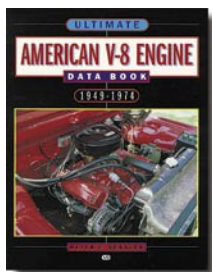

Chevrolet by The Numbers

How to identify all V-8 drivetrain parts for small & big blocks. By Alan Colvin. The only authoritative reference for verifying the correct Chevrolet parts by casting number, for your exact model. Many other books rely on secondhand information or out-of-date part numbers. Alan Colvin documented every casting number for every V-8 Chevrolet engine and drivetrain part from 1965 through 1975, using original source material in Chevrolet's archives. He looked over engineering blueprints, technical service bulletins and build sheets. He interviewed original manufacturers and engineers to bring you fascinating stories of parts development. Most of this information has never been seen in public.

Every engine is covered, from the ultra-rare, high-performance aluminum 427 for the ZL-1, to the common 283. All engine blocks, cylinder heads, pistons, connecting rods, cranks, cams, manifolds and more are listed. If you absolutely want to know the original parts for your drivetrain -- not what will interchange or fit but the correct part that came with your car when it rolled off the line, these books hold the answer.

Ultimate Sheet Metal Fabrication

by Timothy Remus. Subtitled: Build from Scratch with Aluminum and Steel. Develop the skills you need to build your own sheet metal parts! Expert customizer Tim Remus combines his knowledge with metal-workers Steve Davis, Bob Monroe, Steve Moal and Craig Naff, to provide all the instruction you need to get the job done right. Detailed chapters cover: the right tool for the job; materials; welding; repairs; building from scratch and finish work; plus tips on how to repair and modify an existing part and starting from scratch. Sftbd., 8 1/2x11, 144 pgs., 250 b&w ill.

..... C-LIT-236 19.95

Performance Welding

by Richard Finch. Planning to build the ultimate high-end race car chassis, or complex aircraft structures and engine mounts? This valuable guide to quality welding covers techniques used for Indy and NASCAR race cars, experimental aircraft and other applications requiring high-quality welds, including welding 4130 steel, stainless and aluminum. Learn how to select equipment, set up your welding shop, pre-weld jiggling and fitting, and how to choose the right process and fill metal for each project. Includes chapters on the latest technology in filler metals and welding rod. Sftbd., 8 1/4x10 5/8, 160 pgs., 250 b&w ill.

..... C-LIT-235 19.95

At a time when many in the industry are searching for ways to cut costs and corners, NPD pledges to uphold and upgrade the quality of our products and service — while maintaining the lowest overall prices.

Interior Aerosol Paint & Dyes

Refinish faded interior surfaces with our pre-matched acrylic lacquer - in all original colors and shades!

ACRYLIC LACQUER in original color for interior surfaces.

Refinish interior metal and plastic in their correct factory colors. Original formula acrylic lacquer comes in 12 3/4 ounce aerosol cans **\$8.95/can.**

Spray Paint

Hi-Temperature Paint

Withstands up to 1200°F. Won't blister, peel, discolor, burn off, or crack. Low-gloss paint is formulated to create a porcelain-like bond that improves adhesion to metal surfaces. Fast dry time, great adhesion.

Black 12 fl oz. aerosol.....	AP-EHA	6.50
Aluminum 12 fl oz. aerosol.....	AP-EHL	6.50
Cast Iron Gray 12 fl oz. aerosol.....	AP-CGH	6.50

"Cast Blast" Paint

Returns rebuilt cast iron engine parts to their original lustre. Quick-drying, durable and non-abrasive, Cast Blast prevents rust and may also be top coated with OEM colors if desired. Suitable for heads, blocks or other cast iron parts.

12 fl oz. aerosol	AP-CG	6.50
-------------------------	-------	------

"Alumi Blast" Paint

Give rebuilt aluminum parts a factory-fresh appearance. Applies without smudging -- non-leafing pigment won't rub off after application. Suitable for interior or exterior use.

12 fl oz. aerosol.....	AP-CA	4.95
------------------------	-------	------

Primer

Corrosion inhibitor provides deep penetrating protection from moisture and rust. Builds up to smooth out irregularities and provide a uniform base for sanding prior to all finish coat applications. Dries to touch in 15 minutes, ready for color coat within approximately 1 hour - depending on temperature and humidity (refer to can for drying specs).

Red Iron Oxide 12 fl oz. aerosol.....	AP-PR	6.25
Light Gray 12 fl oz. aerosol.....	AP-PG	4.95
Black 12 fl oz. aerosol.....	AP-PA	4.95

Shock Gray Paint

Restores GM shocks to factory gray color.

12.5 fl oz. aerosol.....	C-116-S	5.95
--------------------------	---------	------

Rally Wheel Paint

Duplicates factory silver color for '67-77 rallies.

12 fl oz. aerosol.....	C-120R	4.95
------------------------	--------	------

Paint and Primer Remover

Strip paint and primer from metal surfaces easily. Water rinsable so a separate cleaner is not needed.

18 fl oz. aerosol.....	AP-AR	7.95
------------------------	-------	------

Resto Paint

Premium Paints for the Premier Restorer at a price you'll love!

Bring back the shine of a factory-correct finish for your Rally wheels. Our custom mix paint duplicates the original finish, so you can spray and admire a correct finish the first time! Choose from the bright argent silver used on most 1967-77 Rally wheels, or an argent silver-green for JJ-style 5-spoke Rally wheels used on 71-72 Chevilles and 70-74 Z/28 Camaros.

AP-11025N Rally Wheel Argent Silver-green 11.95

Did you know the inside of Rally wheels was gray instead of silver? Most people paint both sides silver, even though the factory called for gray on the inside of Rally wheels. Can also be used on trunk jack and base.

AP-12010N Inner Rally Wheel Gray 11.95

You spent the time painting your wheels to give them a new look. Why stop short of giving them protection to keep them looking new? Use our Clear Wheel Finish to give them great protection and a high-gloss finish that will last. Can be used on aluminum or steel wheels.

AP-11040N Clear Wheel Finish, Gloss Clear 8.95

Add the look of bright silver to your car, or restore pieces to their original finish with our Bright Silver. Bumper backsides, bezels, grilles, trim parts and engine brackets that need a chrome-like bright appearance can now be brought back to a factory finish.

AP-21040N Radiant Chrome Bright Silver 5.95

When restoring plastic parts, getting new paint to adhere properly can be a problem. Use our Adhesion Promoter on ground effects, flexible bumpers, trim, plastic moldings, and wheel covers. It provides a better surface for paint to adhere to. Works with both rigid and flexible plastic surfaces.

AP-72060N Adhesion Promoter Clear 12.95

Get a factory-fresh textured appearance on your undercarriage from a spray can! NPD's Asphalt Base Undercoat gives a uniform texture without peaks and valleys like other products that can trap moisture. Prevent rust, deaden sound and reduce vibration on frame rails, wheelhouses, inner quarter and fender panels.

AP-42080N Asphalt base undercoat, black 6.95

Clear coating meant having a protective coating to the elements so your part's finish would last. Until now, it also meant yellowing and cracking could occur in the clear over time. Our Trim Clear gives you all the protection you want without the yellowing or cracking.

AP-21050N Trim Clear 8.95

Restore the correct look to your undercarriage with our factory paints! If applying to a bare or rusty surface, we suggest using our Zinc-Rich Primer first. Its protection will give you a 1-2 punch to a great finish that will stand up to the elements.

AP-ECB Semi-gloss Black \$6.50
AP-42030N Red Oxide \$10.95

Don't subject your restoration to one color of black! The factory used different mixes of black on different parts, and NPD® offers four different black colors so you will get the correct look on each part. Typical uses for each color are listed above each part number.

Ignition coil, voltage regulator cover, shocks, sway bars, rear axle housing, wheel inserts, brake backing plates.

AP-42060N Gloss Black \$9.95

Hood underside, inner fenders, radiator support, battery tray, control arms, brackets, pulleys, fan blade, starter, power steering assembly.

AP-42055N Semi-Gloss Black \$9.95

Frame, transmission crossmember, leaf spring shackles, rear upper control arms, heater blower motor, air conditioning compressor and horns.

AP-42050N, Low Gloss Black \$9.95

Cowl, firewall, dash panel, engine mounting brackets, oil filter canister and more.

AP-42045N, Eggshell Black \$9.95

Our zinc-rich primer is the best starting point for restoring your classic. Works better than generic primers because zinc helps promote a better bond between steel and your finish coat or primer. Resists water and allows for weld-through after complete drying.

AP-72010N Zinc-Rich Primer, Gray \$6.95

Give parts a heat-treated correct black look. Our Pitch Black is the perfect paint to give most clips, nuts, bolts, washers, even leaf springs a "plated black oxide" look! Lasts longer than plating, and at a much lower price!

AP-22020N Pitch Black 9.95

Did you know that
grams now accept
cans? Please recycle

many recycling pro-
empty aerosol
when possible.

When buying plastic parts for your classic, most do not offer a color selection or come in black only. The simple solution was painting them to match. But if you have a white interior, this wasn't an option because of color bleed with a light color. You could use primer, but most primers are not designed to work with flexible plastics. Now, NPD® has your solution with a flexible primer designed to work on plastic parts. It can be used before or after acrylic enamels. Use in conjunction with our Adhesion Promotor AP-72060N to for even better color adhesion!

AP-72070N Flexible Plastic Primer, Mist Gray \$9.95

Does your engine's paint make you hesitate opening your hood at shows? Bring back the shine and protection with our engine enamels! NPD has Seymour paint to provide durable, heat-resistant color (up to 300 degrees) that won't crack, discolor or peel under the tough conditions your engine faces everyday. Adheres to any surface including engine blocks, heads, intake manifolds, valve covers, and transmissions. Fast drying and easy to apply.

AP-EA GM Black (1982-present) \$6.50
C-EPMO GM Moly Orange (1962-77) \$4.95
C-EPB GM Blue \$6.50
C-EPCA GM Chrome Aluminum \$6.50

We also offer Duplicolor paint for those wanting an exact match to the factory color. They feature a high-heat enamel that contains ceramic, and are durable to 500 degrees! Available in 3 GM colors.

AP-62020N Chevrolet Orange-Red (1962-77) 6.95
AP-62030N GM Corporate Blue (1978-81 including Pontiac) 6.50
AP-62040N GM Strato Blue (1975-77 including Pontiac) 5.95

Trunk Spatter Paint

Has your trunk's paint seen better days? Bring back the original look with genuine GM trunk splatter paint. No second-guessing here because you know with original GM colors, you'll get a correct, factory fresh appearance! Available in gray/white and aqua/black colors.

Gray/white 11 fl oz. aerosolC-8800-1 10.61
Aqua/black 11 fl oz. aerosolC-8800-2 10.61

Trunk Spatter Top Coat

Add a layer of protection to your trunk paint! Trunk Splatter Top Coat adds a clear layer of protection from water and your trunk mat. Formulated to dry clear and not distort the multi-fleck finish, so the look will last!

.....AP-501 7.95

Prevent rust by using POR-15 on all metal surfaces. Cures to metal to stop rust from ever coming back. Will not chip, crack or peel.

Gloss black		
Gallon	POR-15-GBG	94.95
Quart	POR-15-GBQ	30.95
Semi-gloss black		
Gallon	POR-15-SBG	94.95
Quart	POR-15-SBQ	30.95

Tie-Coat is used to prime over POR-15 when you desire using another color. A tough yet sandable polyurethane primer can be applied to new or existing POR-15 without sanding!

Gallon	POR-TCG	49.95
Quart	POR-TCQ	19.95

POR's line of engine enamels are designed to stand up to the harsh elements of your motor. Dries to a glossy finish, nonflammable and conforms to even California's strict environmental standards!

Gloss black		
Quart	POR-EEGBQ	24.95
Pint	POR-EEGBP	15.95
Chevy orange		
Quart	POR-EECOQ	24.95
Pint	POR-EECOP	15.95

A high temperature gray paint that withstands temperatures up to 1400 F and won't burn off. Exceeds MIL-C-13370 requirements, brush or spray on (spraying requires an air gun)

1/2 pint	POR-FMG	15.95
----------	---------	-------

Metal Mask begs the question: is it bare metal? Metal mask looks exactly like bare metal, but with the toughness and chip resistance you'd expect from a POR product. Perfect for steering boxes, spindles, rear ends, suspension components, master cylinders, coil springs, gas tanks, and more. Use POR-15 and Tie Coat for a stronger, rust-free coating!

Pint	POR-MMP	21.95
------	---------	-------

Restore your wheel to a show-quality factory appearance with POR's restoration kit! Includes cleaner, epoxy putty, sanding block and board, scuffing pads, polishing compound, file and drill bit, instructions and even latex gloves! This product also works great for restoring dash knobs, radio buttons, greashtift knobs and other hard rubber and plastic interior parts.

POR-SWK	69.95
---------	-------

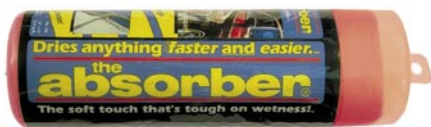

Epoxy putty is the ultimate tool for repairs! Mix and apply by hand, but is water-based, so smoothing is easy! Cures to a rock-hard surface that can be sanded, drilled or painted. Doesn't sag or slump, and can be used on steel, plastic, concrete and damp surfaces too. Works great on household repairs, and even cures underwater! Sold in a 1-pound pack.

POR-EP	18.95

We welcome Visa, MasterCard, Discover, Amex, and Western Union as payment.

"Absorber" Speeds Car Drying

Get rid of water spotting and streaking. Incredible man-made fiber soaks the water off your car so fast you'll never use a towel or a chamois again. Shaped about like a leather chamois, the Absorber fits easily in one hand and wrings out in a second. Resists chemicals & detergents to stay soft and pliable. 27" x 17".....960-1A **12.95**

Glass Fiber Detailer

The most precise way to clean rust, wax and dirt out of paint chips before touch-up. It's tip contains thousands of tightly-bundled glass fibers which clean out the tiniest pockets of rust or built-up wax. The glass fibers also de-gloss the paint on the edge of the chip for improved paint adherence. Many other uses around the home and shop. 3 glass-fiber refill bundles included.906-1 **7.70**

Meguiars Plastic Cleaner & Polish

A must for any detail kit — this combination of cleaner & polisher works wonders in restoring 100% clarity to any plastic window or lens, and maintaining it. These are the same products used in the aircraft maintenance industry to get the scratches out of windshields and side windows. Use them on instrument cluster lenses, clear-plastic horn and wheel emblems, etc. Cleaner, 8 oz. squeeze bottle.....909-1 **7.95**
Polish, 8 oz. squeeze bottle.....909-2 **7.95**
Combo Pak, contains both cleaner (8 oz.) and polish (8 oz.).....909-3 **15.75**

Deltran Battery Tender® Charges and Maintains!

Don't damage your battery with a regular charger. The Battery Tender maintains your battery's charge at a constant 13.2 volts without boiling the fluid off. Not just a trickle charger - its a 1.25-amp constant-current Super Smart Battery Tender®. So advanced it fully charges your battery then maintains the full charge indefinitely by automatically switching from full charge to a storage charge. It won't overheat your battery. It won't "cycle" your battery — something that will shorten its life. It even adjusts for temperature!

Unique micro-chip circuitry prevents shorting or sparking even if you touch the clips! Store your car or boat for the winter? Remove the battery and leave it hooked to the Super Smart Battery Tender® all winter long. You'll have a fresh, fully-charged battery when you need it - without sacrificing your battery. Great for boat or cycle batteries as well! 6V & 12V models available.

12 Volt	919-1	49.95
6 Volt	919-2	49.95

Designed for either short or long term storage. Plug it in and forget it until next season!

Battery Tender® Jr.

More compact unit than the Battery Tender® with 750 mAmp current. This unit will fully charge a battery easily overnight and maintain the charge just like it's larger brother.

12v	919-4	34.95
-----------	-------	-------

Bearing Packer

May be used with any standard grease gun to professionally pack new bearings or to repack old ones. When repacking, it's designed to force the old grease completely out of the bearing as it replaces it with new grease. Works on bearings with inside diameter as **small** as 1/2" and outside diameter as **large** as 4-1/4"

914-1

10.50

Trim Pad Remover

Removes the plastic trim pad fasteners used in GM cars since the early 70's, without damaging pad or fastener. Will not scratch paint on hidden surfaces, works equally well on Ford and Chrysler metal trim pad fasteners

C-T1

5.25

Window Regulator/Door Handle Clip Tool

Instant removal of clips without damage to interior. Standard for GM, Ford, and AMC models.

C-T2

3.95

Windshield/Rear Window Molding Tool

"Jiggler" removes all adhesive and rear window reveal moldings. Double-sided tool allows easy engagement of molding clips. Heat-treated, spring steel tool saves time, frustration.

C-T3

4.95

Firewall/Frame Marking Crayons

Package includes 1 white, 1 yellow. As used on assembly line.

907-1

4.95

Professional Hog Ring Plier Kit

Professional forged-steel hog ring pliers have 45° head angle & rubber-coated handles. Strong negative tension holds hog ring in jaw. 250 hog rings included.

7595-1K

26.95

Hog Ring Cutter

Best hog ring cutting tool on market. Shears with a full-bypass cut rather than compression, so it cuts through the hog ring like "butter". Nose of cutter is specially designed to draw itself down onto tightly closed rings and cutting edges are selectively heat-treated for exceptional tool life. Features soft rubber handles. Great tool for anyone who expects to do more than one upholstery job.

918-1

14.95

Two-sided cutting head

Spot Weld Cutter Saves More Than Time!

Attach this ingenious tool to any ordinary drill and it becomes a valuable time-saver! It cuts around welds to a specified depth so only the outer piece of metal is holed. Easy to use; simply find and punch the center of the spot weld to be cut, then carefully drill the tool through the outer panel. A centering pin within the tool is spring-loaded to help limit the drilling depth. Usable at a maximum 900 rpm. 911-1 is an economy grade cutter for small jobs, while 911-2 is hardened and precision ground for more cuts. Both feature a 1/4 hex shaft. 911-3, our premium cutter, is made from M2 high strength steel with a larger cutting area for bigger jobs where more panel cutting and longer life is needed.

SPEEDBLEEDERS® by Russell Performance

The best way to preserve your braking system is to bleed the brakes at least yearly. This places fresh fluid in the caliper & wheel cylinders where heat normally breaks it down. Since bleeding is such a pain, most of us simply don't comply with this type of rigorous maintenance schedule. Finally, there's an innovative product that makes it easy!

How does it work? Permanently replace your bleeder screws with **SpeedBleeders®**, open the bleeder 1/4 turn, place a hose on the nipple and into a catch cup, then pump the brake a few times. An internal check ball allows air and fluid to escape but prevents the back pressure from sucking in air! Close the valve, snugly but not too tight, move on to the next cylinder. As always, check your fluid level before and after bleeding each corner and always use fresh, high-quality brake fluid from a sealed container.

To order: Simply phone or mail your order to our store nearest you. Experienced classic parts specialists will handle your order and provide assistance. Be sure to supply us with our item numbers for faster order handling. Some items are ordered by description alone (i.e., upholstery) in which case we'll need the year, color and bodystyle of your car. All orders may be paid by VISA, MasterCard, Discover, Amex or Western Union "Quick Collect". Mail orders may also be paid with a cashiers check. Personal checks may delay your order 2-3 weeks. **Foreign orders:** (outside the territorial U.S. or Canada) contact our Foreign Order Desk at our Florida Depot.

Shipping charges: Orders over \$300.00 and destined within the lower 48 states: We pay the UPS ground-shipping charges. (Western Union fee not included; core charges do not count towards free shipping calculation.) Items that are UPS oversize 1 or 2 are charged at a rate of \$8.00 per item and are not included in the free shipping offer.

Orders below \$300.00 and destined within the lower 48 states: Florida, California, Michigan or North Carolina residents add 5%, but not less than our \$6.50 minimum. Residents of all other states add 10%, but not less than our \$6.50 minimum. Do not include core charges when calculating shipping charge. • Oversized shipments will be subject to an additional \$8.00 fee. Items that are UPS oversize 1 or 2 are charged at a rate of \$8.00 per item and are not included in the free shipping offer.

Orders destined for Canada: Add 15% for shipping but not less than \$10.00 for minimum shipping. Oversized items will be subject to an additional \$8.00 per item. The \$300.00 free shipping policy does not apply. US funds only.

Orders destined outside the lower 48 states and Canada: We will charge the actual cost of shipping your order. The \$300.00 free shipping policy does not apply. US funds only.

Items too large for UPS such as hoods or fenders, will be shipped by truck, freight charges collect and must be prepaid.

Optional shipping methods: UPS 3-Day Guaranteed Ground, 2nd Day Air, Next Day Air, FedEx and parcel post shipping is available at actual cost. Rates vary according to weight.

Paying by Western Union "Quick Collect": This convenient new payment method eliminates the unpopular hassles of C.O.D. transactions. No more waiting in long bank lines for cashiers checks, hanging around the house to meet UPS drivers or paying multiple COD charges for multi-box orders. **How does Quick Collect work?** When you place your order by phone, fax or mail, an NPD sales representative will provide you with a total amount due, a city code number and our invoice number. Go to your nearest Western Union outlet (*They're everywhere!* Call 800-325-6000 for the one nearest you) and fill out a blue "Quick Collect" form, completing the required information, along with the numbers we provide. You'll pay for your entire order right there in cash and Western Union will charge an additional \$12.95. Shortly afterward, a check for your order will be printed out at our office and your shipment will be on its way.

Catalog pricing: All prices are current at the time of printing. Prices, specifications, stated suppliers or manufacturers are subject to change without notice.

Backorders: We attempt to fill every order within 24-hours. Most orders received before noon are shipped that day. If an item is out of stock it will be placed on our backorder service and shipped as soon as possible. Most customers prefer to pay for backordered items at the time the order is initially processed, however, if you do not wish to pay for backordered items until they are shipped, or you wish to cancel an existing backorder to receive a refund, simply advise your salesperson.

Refused shipments: Shipping or other costs incurred by while attempting to deliver merchandise that is refused will be billed to the customer.

Store hours: All NPD Toll-free order lines are open 24 hours a day, 7 days a week. Our walk-in counters are open M-F 8am-9pm; Sat & Sun 8am-5pm. We are closed for the observance of New Years, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas. Abbreviated store hours on Christmas Eve and New Years Eve.

Items Damaged in transit are the responsibility of the carrier. Please retain all packing materials and immediately contact the carrier (i.e., UPS, U.S. Postal Service, truck line) to file a damage claim. **Please do not return** damaged items to NPD. We will, however, be happy to assist you in filing your claim with the carrier.

General policy on core returns: ✓ Returned core must be rebuildable ✓ No broken or missing parts, cracked cases, deeply grooved surfaces etc. ✓ Moveable items must not be frozen, locked or rusted solid. ✓ No cases with torch cuts. ✓ No welded or bent shafts, ears etc. ✓ Shafts, splines, keyways & threads must be good. ✓ No disassembled cores credited. ✓ Returned core must be same part as rebuilt unit purchased. ✓ Returned core must be returned in same box as rebuilt unit purchased. ✓ Drain all fluids prior to return and wrap in plastic to prevent leakage. ✓ Core returnability will be determined by the remanufacturer and/or NPD. Core charges do not reflect the value of the part, they are an incentive to return the part to us. Junk parts sent as cores cannot be returned and will not receive core credit.

Returns-our guarantee: If you are dissatisfied with an item, please contact the salesperson listed on your invoice to obtain return authorization. **Missing or damaged items must be reported within 24 hours of delivery.** After speaking with our agent, we request that you also enclose a brief note describing the problem with the returned merchandise. We will accept the return of any unsatisfactory item provided it is unused, in resalable condition and returned with a copy of your invoice within 30 days of the invoice date. Return of items ordered in error may be subject to a 20% restocking fee. Fluids must be drained prior to return. Please do not return merchandise to us C.O.D. or postage due. Electrical parts, stripes, literature and videos are not returnable. If NPD is at fault in any way we will promptly refund your return freight charges.

Thanks: NPD has been growing steadily since its founding in 1976. We are proud to be one of the largest firms of our kind, and we're even prouder of our reputation for first-rate customer service. Please don't hesitate to tell us if you feel there is any way we can improve our service, product line or catalog.

National Parts Depot

See why NPD® is the Fastest, Most Dependable supplier!

Fastest service in the business.

Four strategically-located warehouses enable us to deliver parts to most of the continental U.S. in 1 to 3 business days — faster than any of our competitors. (See map, below.) Most parts orders are shipped complete in less than 24 hours, with any backordered item shipped from one of our other warehouses or as it becomes available. Our computer stores all customer invoice history, so if ever you have a question about an order, we can answer it quickly.

Check out our other GM parts catalogs for:

- 1967-81 Firebird/Trans Am
- 1967-81 Camaro

Ask your salesperson
or call our 24/7 catalog

HOTLINE:

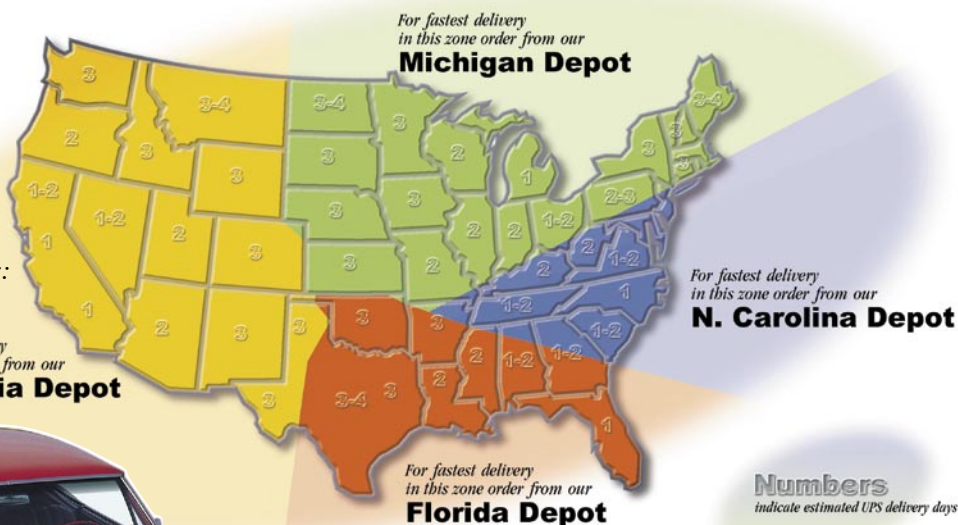

352-378-9000

User-friendly operations.

Our operating hours are set for **your** convenience, not ours. Order toll-free 24-hours a day, 7 days a week, or visit any store 7 days a week—until 9:00PM weekdays, 5:00PM on weekends. Whether you call or visit, you'll be greeted by a parts specialist—not a receptionist or clerk. We understand that accurate order *filling* begins with the order *taker*. But, none of this matters if we don't have **the part you need, when you need it**—so each warehouse stocks a **complete** inventory.

The best for less.

We're committed to selling only the best restoration products, while maintaining the lowest overall pricing. It takes a little work, but the reward has been outstanding growth for our company, which means still-lower prices for our customers. This commitment extends to our shipping rates which are among the industry's lowest. As always, we offer free UPS ground shipping on orders over \$300. **Thanks** for considering NPD® for a role in your restoration.
