

MSD IGNITION™ INSTALLATION INSTRUCTIONS

MSD Tach Adapter PN 8920

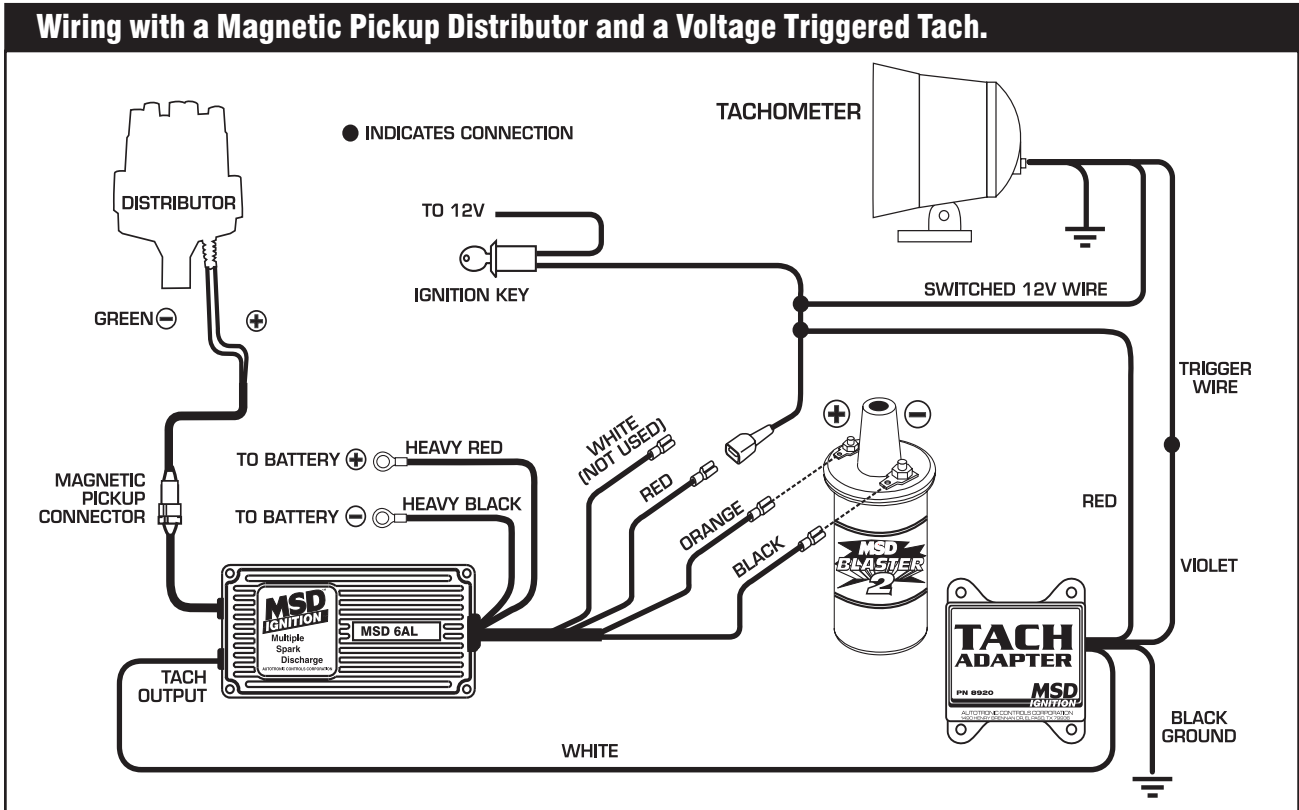

If your tachometer doesn't work correctly after installing an MSD Ignition Control, always try to connect the tach's trigger wire directly to the tach output of the Ignition. If the tach still registers incorrectly, install this Tach Adapter.

There are two style tachometers that may have been used on your vehicle; Voltage triggered and Current triggered. The wiring diagrams show both installations.

Voltage Triggered: If the trigger wire of the tach was originally connected to the coil negative terminal you have a Voltage triggered tachometer.

Current Triggered: If the trigger wire of the tach was originally connected to the coil positive terminal, it is a Current Triggered Tachometer.

CAUTION: Never connect any wires to the Coil Terminals when an MSD 6, 7, 8 or 10 Series Ignition is installed.

Wiring a Current Triggerred Tach to Points/Amplifier or Magnetic Pickup.

Service

In case of malfunction, this MSD component will be repaired free of charge according to the terms of the warranty. When returning MSD components for service, Proof of Purchase must be supplied for warranty verification. After the warranty period has expired, repair service is charged based on a minimum and maximum charge.

Send the unit prepaid with proof of purchase to the attention of: **Customer Service Department, Autotronic Controls Corporation, 12120 Esther Lama, Suite 114, El Paso, Texas 79936.**

When returning the unit for repair, leave all wires at the length in which you have them installed. Be sure to include a detailed account of any problems experienced, and what components and accessories are installed on the vehicle.

The repaired unit will be returned as soon as possible after receipt, COD for any charges. (Ground shipping is covered by warranty). All units are returned regular UPS unless otherwise noted. For more information, call the MSD Customer Service Line (915) 855-7123. MSD technicians are available from 8:00 a.m. to 5:00 p.m. Monday - Friday (mountain time).

Limited Warranty

Autotronic Controls Corporation warrants MSD Ignition products to be free from defects in material and workmanship under normal use and if properly installed for a period of one year from date of purchase. If found to be defective as mentioned above, it will be replaced or repaired if returned prepaid along with proof of date of purchase. This shall constitute the sole remedy of the purchaser and the sole liability of Autotronic Controls Corporation. To the extent permitted by law, the foregoing is exclusive and in lieu of all other warranties or representations whether expressed or implied, including any implied warranty of merchantability or fitness. In no event shall Autotronic Controls Corporation be liable for special or consequential damages.
